Casper, 2015-06-13 Art and the Religious Image in El Greco's Italy is the first book length examination of the early career of one of the early modern period's most notoriously misunderstood figures Born around 1541 Domenikos Theotokopoulos began his career as an icon painter on the island of Crete He is best known under the name El Greco for the works he created while in Spain paintings that have provoked both rapt admiration and scornful disapproval since his death in 1614 But the nearly ten years he spent in Venice and Rome from 1567 to 1576 have remained underexplored until now Andrew Casper's examination of this period allows us to gain a proper understanding of El Greco's entire career and reveals much about the tumultuous environment for religious painting after

**Cutting a Figure** Richard J. Powell, 2008 Examining portraits of black people over the past two centuries Cutting a Figure argues that these images should be viewed as a distinct category of portraiture that differs significantly from depictions of people with other racial and ethnic backgrounds The difference Richard Powell contends lies in the social capital that stems directly from the black subject's power to subvert dominant racist representations by evincing such traits as self composure self adornment and self imagining Powell forcefully supports this argument with evidence drawn from a survey of nineteenth century portraits in depth case studies of the postwar fashion model Donyale Luna and the contemporary portraitist Barkley L Hendricks and insightful analyses of images created since the late 1970s Along the way he discusses major artists such as Fr d ric Bazille John Singer Sargent James Van Der Zee and David Hammons alongside such overlooked producers of black visual culture as the Tonka and Nike corporations Combining previously unpublished images with scrupulous archival research Cutting a Figure illuminates the ideological nature of the genre and the centrality of race and cultural identity in understanding modern and contemporary portraiture

an overview of ancient and modern approaches to the use of death imagery for therapeutic purposes including a discussion of its possible benefits Chapter 2 specifically exploring Stephen Levine s contributions in this area shows that only by opening up to the reality of death can one make living a conscious process of growth A number of excellent imagery based experiential exercises are discussed in detail Chapter 3 demonstrates the significance of confronting death through mental and artistic images it discusses six examples of death related religious and existential works of art Recently there has been an upsurge of interest in near death experiences and their salutary effects on attitudes beliefs and values Of particular interest here are increases in spirituality concern for others an appreciation of life and an enhanced sense of meaning and purpose in life Chapter 4 presents a detailed critical overview of this field of investigation with special emphasis on the transformatory after effects of near death experiences Of all the major religions in the world Buddhism is at the forefront of exploring the topic of death and dying and developing specific meditative exercises for confronting death Chapter 5 presents an in depth treatment of death imagery in Buddhist thought Exploring the use of hypnosis for death rehearsal Chapter 6 continues the theme that confrontation with death can lead to healthful consequences A variation of this technique hypnotic suicidal rehearsal is also discussed it seems to be effective for use with clients who are contemplating suicide Case examples clarify the details of the process Over the years several clinicians have proposed the use of imagery for reconstructing death related events and thereby facilitating the grieving process for individuals who are experiencing symptoms rooted in unfinished grieving Chapter 7 gives an exhaustive account of the use of imagery for unresolved grieving including a number of case histories Researchers have perhaps devoted more time and energy to the investigation of death anxiety than any other death related topic Chapter 8 reviews the literature on death anxiety and death imagery and demonstrates a core connection between the two phenomena The authors claim that death imagery has the potential not only to ameliorate death anxiety but also to lead to a more authentic existence In Chapter 9 the authors explain how death imagery can be used constructively in death education they present several practical suggestions and specific guided imagery exercises The volume closes with a presentation of a detailed death imagery experiential exercise aimed at encountering death to enhance our appreciation of life The reader will notice this thread running steadily throughout the book This comprehensive book devoted to the role of death imagery in health and growth perhaps the first of its kind will be helpful in changing the rather sinister view of death prevalent in our culture to a deeper appreciation for its enhancing potential

Turner and the Art of Water** Carmen Casaliggi, 2022-12-20 This book assesses Ruskin s and Turner s mutual interest in the theme of water with particular reference to *The Harbours of England* 1856 Ruskin s book on ships and marine art to which are appended Turner s 12 illustrations of the English ports By considering existing scholarly works on Ruskin and Turner the book begins by demonstrating that the two despite their widely acknowledged relations have rarely been examined in conjunction It raises the question as to how the subject of water inspired the intellectual aesthetic philosophical and scientific climate of the nineteenth century both in Britain and abroad and acknowledges the significance of the relationship between Ruskin and Turner in the context of aquatic studies Ruskin s childhood fascination with water is examined in detail while the scientific and spiritual importance of the subject in *Modern Painters* and *The Stones of Venice* is also emphasised and read in parallel with *The Harbours of England* a detailed account of which is given referring to both text and illustrations Turner s role in

Ruskin's understanding of specific water pictures is also reconstructed. The book demonstrates that water is important as a multifaceted compendium of contemporary themes for tradition, progress, nationalism, and patriotism, finding their iconography in its depiction. Considering the literary and painterly implications of wateriness, the text concludes with a reflection upon the significance of the study of water for Ruskin and Turner and for their age.
