Monstrous Reflection Petra Rehling, Elsa Bouet, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2014 By engaging and questioning existing definitions and ideas all of the essays in this volume represent the idea of a monstrous reflection in one way or another Monsters can serve as a means to explore the cultural anxieties they embody and the reasons for these anxieties Thus monsters act as mirrors highlighting the causes for the creation of categories A reflection can also be a comment or statement applicable in that the monstrous or the word monster becomes a label of otherness and exclusion This label is sometimes a construction a discursive and rhetorical trope which only serves to other those deemed different or undesirable suggesting that the monster might not always be monstrous This volume is about the ones gazing into the mirror and the things staring back at humanity along with the uncomfortable truths that are revealed in the process

Principles of Philosophy Michael Jean Nystrom-Schut, 2018-10-30 Not just anyone sits down to write their own personal Bible The famous one popular with millions of Christians was penned by 35 40 different authors over a span of some 1100 years As of 1995 it was still considered Guinness the world's 1 best seller of all time In stark contrast Michael's 2 volume *Principles of Philosophy* was meditated contemplated drafted and written in deep anonymity and solitude over a daily and nightly 30 month span His two books come in at over 800 000 words the same as ten 80 000 word works With the King James Old and New Testament totaling just over 783 000 words it is easy to see why Michael views himself as both prolific plentiful and loquacious talkative when it pertains to laying down thought As the Bible is for millions on the planet Michael feels his principles are also a template an owner's manual a guidebook for in particular how to 1 view life on earth 2 work on the detail of one's philosophy and worldview and 3 examine and conduct a balanced meaningful existence on this planet The Holy Bible consists of 80 books 39 in the Old Hebrew part 14 in the Apocrypha and 27 in the New Christian part Michael's *Principles* Volumes One and Two each cover 84 chapters of the basic areas of life as he views them with 21 chapters outlined each for 1 the mental 3 the social and 2 the material 4 the spiritual areas of our lives A detailed numbering system is in place for quick reference to topics Each volume happens to come in at 613 entries making a total of 1226 separate entries in the two books By dictionary definition a principle is defined as a fundamental truth or proposition that serves as the foundation for a system of belief or behavior or for a chain of reasoning This is precisely why he chose principles in the title His own

personal philosophical principles are what he tries to practice daily Michael even states they are likely the reason he is still with us in bodily form on the earth and remains in relative possession of his right mind as well Since leaving organized religion early on in life these tenants practiced in balance have been what Michael has focused on for several decades They work well for him In the course of these pursuits he says he has come to thousands of conclusions And they all point to the balanced life As he insists for him it is all about equivalent portions of mind mental body material relationships social and spirituality God the Universe Basically everything can be summed up within these four primary areas of life Michael seems to never hesitate to conclude that he has found his own personal means of salvation in the midst of pursuing his balance of the Principles of Philosophy Tanya Walker wife

life William Penn,1875 **Fictional Worlds and Philosophical Reflection** Garry Hagberg,2022-01-31 This edited collection investigates the kinds of philosophical reflection we can undertake in the imaginative worlds of literature Opening with a look into the relations between philosophical thought and literary interpretation the volume proceeds through absorbing discussions of the ways we can see life through the lens of literature the relations between philosophical saying and literary showing and some ways we can see the literary past philosophically and assess its significance for the present Taken as a whole the volume shows how imagined contexts can be a source of knowledge a source of conceptual clarification and a source of insight and understanding And because philosophical thinking is undertaken after all in words a heightened sensitivity to the precise employments of our words particularly philosophically central words such as truth reality perception knowledge selfhood illusion understanding falsehood can bring a clarity and a refreshed sense of the life that our words take on in fully described contexts of usage And in these imagined contexts we can also see more acutely and deeply into the meaning of words about words metaphor and figurative tropes verbal coherence intelligibility implication sense and indeed the word meaning itself Moving from a philosophical issue into a literary world in which the central concepts of that issue are in play can thus enrich our comprehension of those concepts and in the strongest cases substantively change the way we see them With a combination of conceptual acuity and literary sensitivity this volume maps out some of the territory that philosophical reflection and literary engagement share Guided Reflection Christopher Johns,2009-02-12 Reflection is

widely recognised as an invaluable tool in health care providing fresh insights which enable practitioners to develop their own practice and improve the quality of their care This book introduces the practitioner to the concept of Guided reflection an innovative research process in which the practitioner is assisted by a mentor or guide in a process of self enquiry development and learning through reflection in order to become fully effective Guided reflection is grounded in individual practice and can provide deeply meaningful insights into self development and professional care The process results in a reflexive narrative which highlights key issues for enhancing health care practice and professional care This book uses a

collection of such narratives from everyday clinical practice in nursing health visiting and midwifery to demonstrate the theory and practicalities of guided reflection and narrative construction These narratives portray the values inherent in caring highlight key issues in clinical practice reveal the factors that constrain the quest to realise practice and examine the ways practitioners work towards overcoming these constraints

Moments of Reflection Jean Howarth, Mike Walton, 1995 This collection of readings is designed for use in tutor group or year group assemblies and is based around 39 weekly themes which comply with the 1988 Education Act The themes include spiritual awareness living as a family healing friendship human rights and inter cultural harmony

Spooky Technology: A reflection on the invisible and otherworldly qualities in everyday technologies Daragh Byrne, Dan Lockton, Matthew Cruz, Christi Danner, Karen Escarcha, Katherine Giesa, Meijie Hu, Yiwei Huang, Miranda Luong, Anuprita Ranade, Gordon Robertson, Elizabeth Wang, Lisa (Yip Yan) Yeung, Catherine Yochum, 2021-08-31 Spooky Technology explores our understanding of the invisible technologies in our everyday lives from objects with intelligence to systems in our homes that talk to us and each other The book is an inventory of spooky technologies compiled by Carnegie Mellon students reviewing work across art design HCI psychology human factors research and other fields that has been done in this field or adjacent to it both historically and more recently with commentary essays and interviews with creators and artists We often hear that the technologies in our everyday lives would appear to be magic and potentially terrifying to people in the past instantaneous communication with people all over the world access to a vast ever growing resource of human knowledge right there in the palm of our hand objects with intelligence that can sense and talk to us and each other But rarely are these otherworldly dimensions of technologies explored in more detail There is an often unspoken presumption that the march of progress will inevitably mean we all adopt new practices and incorporate new products and new ways of doing things into our lives all cities will become smart cities all homes will become smart homes But these systems have become omnipresent without our necessarily understanding them They are not just black boxes but invisible entities in our homes and everyday lives which work through hidden flows of data unknown agendas imaginary clouds mysterious sets of rules which we perhaps dismiss as algorithms or even AI without really understanding what that means On some level the superstitions and sense of wonder and ways of relating to the unknown and the supernatural deities spirits ghosts which humanity has felt in every culture throughout history have not gone away but started to become transferred and transmuted into new forms

The Aesthetics of Nostalgia TV Alex Bevan, 2019-02-07 The Aesthetics of

Nostalgia TV explores the aesthetic politics of nostalgia for 1950s and 60s America on contemporary television. Specifically, it looks at how nostalgic TV production design shapes and is shaped by larger historical discourses on gender and technological change and America's perceived decline as a global power. Alex Bevan argues that the aesthetics of nostalgic TV tell stories of their own about historical decline and progress and the place of the baby boomer television suburb in American national memory. She contests theories on nostalgia that see it as stagnating, regressive, or a reversion to outdated gender and racial politics and the technophobic longing for a bygone era and instead argues nostalgia is an important form of historical memory and vehicle for negotiating periods of historical transition. The book addresses how and why the shows construct the boomer era as a placeholder for gender, racial, technological, and declensionist discourses of the present. The book uses *Mad Men* (AMC 2010–2015), *Ugly Betty* (ABC 2006–2010), *Desperate Housewives* (ABC 2004–2012), and film remakes of 1950s and 60s family sitcoms as primary case studies.

Reflections Swami Satchidananda Saraswati, 2022-01-06. Spiritual growth is a deliberate movement from the rational mind to the heart which recognizes interdependence and universal love as the precondition for the experiential knowledge of Atman as Brahman. Swami Satchidananda. In *Reflections* Swami Satchidananda gives us practical guidance and pointers for good living based on the wisdom in the Vedas. We live in difficult and challenging times. Violence, both external and internal, along with the consumerist model of societies have resulted in deep moral decline among humanity. Thus, having a sense of personal well-being and peace within often escapes us. *Reflections* addresses issues all of us need to resolve in order to find peace of mind and be happy. Also, it introduces you to the truths and practices of Vedanta, meditation, and yoga which free you from the illusion that you are a mortal body and mind and reveal the glory of the Divine within you.

Global and Local Internationalization Elspeth Jones, Robert Coelen, Jos Beelen, Hans de Wit, 2015-12-14. Offering a range of perspectives on internationalization in higher education from a globally dispersed group of authors, this book reflects the many facets of the theme. It reminds us that while internationalization is strongly connected to the globalization of society, at the same time it is deeply embedded in local political, economic, and social structures, systems, and cultures. The increasing attention given to internationalization by institutions all around the world is leading to diversification and broadening of practice. This, in turn, deepens our understanding of what is needed to enhance the educational experiences of students and how the outcomes of internationalization contribute to the skills needed in a globalized and multicultural society. Yet inevitably the impact is becoming more noticeable locally, and the six sections of the book focus on these dimensions: Internationalization in Local and Global Contexts; Local and Global Drivers for Change; Global and Local Dimensions of Curriculum Internationalization; The Outcomes of Local and Global International Education; Internationalization for Local and Global Employability; Regional and National Cases of Local and Global Internationalization. How can we define more precise learning outcomes that underpin learning and teaching? How do we avoid the societal risks of internationalization and ensure that internationalization opportunities and benefits are shared equally? How do we prevent

brain drain and commercialization What are the values that underlie our actions These are just some of the questions that will occupy our minds locally and globally in the years to come and which this book seeks to highlight
