### **Experiencing Ethics with**

**Sterne and Musil** Jorge Estrada, 2019-11-18 Experiencing ethics not only refers to being confronted with a situation in which one must choose a course of action it also makes reference to giving a narrative account of the circumstances and chain of events leading to such crossroads Between both there is a chasm a space of indeterminacy into which R Musil and L Sterne delve with aesthetic means Their poetics move in opposite directions but by following them to their last critical consequences this study reveals a kindred ethical stance This interpretation sheds light on the ethics revolving around character construction by examining the constraints thwarting any attempt to complete a biographical account or convey a protagonist that led his or her life Neither Musil nor Sterne posit a narrative agenda that could reach a last chapter or lead to

a groundwork determining their ethics A closer look into their tight knit prose reveals that both rely on the narrating on a skill that must be incessantly cultivated through a digressive or essayistic style Equipped with a vast theoretical repertoire this approach makes a strong case for a new constellation in comparative literature
