Leemon McHenry • Takashi Yagisawa

# Reflections On Philosophy Introductory Essays

**Samuel Taylor Coleridge**

## **Reflections On Philosophy Introductory Essays:**

*Reflections on Philosophy* Leemon B. McHenry, Frederick Adams, 2000      *Introduction to the Study of Religion* Leroyce Miles, 2018-08-07 One thing is clear that fighting with other human beings in the name of religion is subhuman As a religious man we are fellow travellers in the direction of the realm of spirit Here the nomenclature of Hindus Muslims Christians etc ceases to be meaningful Of course we have to go very far and we have not made any beginning yet However at present the advaitic principle of difference less Brahman can serve the purpose of harmonizing all religions Here we have adopted this principle Secondly the key concepts of different religions have been shown to mingle into one another The book attempts to interrogate the categories used in western discourse in the study of religion In doing so the book outlines a broad overview of the discussions on issues relating to the methods and theories in the study of religion The book provides an insight into some of the key issues that need clarity in dealing with religions This scholarly presentation is a must read for students of religion culture and philosophy and for those involved with the struggles of the subaltern community      **Rethinking the**

**Ontological Argument** Daniel A. Dombrowski, 2006-05-29 In recent years the ontological argument and theistic metaphysics have been criticised by philosophers working in both the analytic and continental traditions Responses to these criticisms have primarily come from philosophers who make use of the traditional and problematic concept of God In this volume Daniel A Dombrowski defends the ontological argument against its contemporary critics but he does so by using a neoclassical or process concept of God thereby strengthening the case for a contemporary theistic metaphysics Relying on the thought of Charles Hartshorne he builds on Hartshorne's crucial distinction between divine existence and divine actuality which enables neoclassical defenders of the ontological argument to avoid the familiar criticism that the argument moves illegitimately from an abstract concept to concrete reality His argument thus avoids the problems inherent in the traditional concept of God as static      **Introduction to Philosophy** Brian D. Skelly, 2021-04-22

*Introduction to Philosophy Themes for Classroom and Reflection* is a series of original essays that span the breadth of topics commonly discussed in the college classroom Designed to serve as conversation starters the essays take a reconciliatory approach to controversial issues while still challenging students to think beyond commonly held positions The essays are grouped by theme into dedicated parts on defining philosophy logical matters metaphysics epistemology metaethics normative ethics social morality political morality biomedical ethics professional ethics sexuality faith and the supernatural and aesthetics Topics range from the theoretical in essays on empirical skepticism and whether or not we can truly think outside the box to the social in a writing on the potential dangers of wealth to the personal in a work on the purpose of sex The third edition includes 20 new essays and expands the breadth of coverage considerably Additionally for the first time each essay includes questions for discussion *Introduction to Philosophy* successfully avoids being polemic while still encouraging students to engage in considered debate on difficult subjects The book is designed for use in introductory philosophy and ethics classes and can also serve as a reader

for philosophically based discussion groups      **The Journal of Philosophy**, 1993 Covers topics in philosophy psychology and scientific methods Vols 31 include A Bibliography of philosophy 1933      **Thoughts on Economic Development in China** Ma Ying, Hans-Michael Trautwein, 2013-03-05 This book is about mutual influences of thinking about economic development in China and in the West from the 18th century until the present Its chapters are contributed by development economists and historians of thought from China and other parts of the world The book describes important stages in the evolution cross fertilization and contextual modification of ideas about economic order development and institutional change It illustrates how Western concepts and theories have been adopted and adapted to Chinese conditions in different waves of modernization from the late 19th century until the present and that this was and is no one way traffic The book examines to what extent pre classical thinking in the West in particular French Physiocracy in mid 18th century was influenced by China as an ideal and a source of ideas at a time when China was the largest and most advanced economy in the world It discusses to what extent different approaches of modern Western style economics in particular in the fields of development economics and institutional economics can be used to understand the rapid transitions and developments of the Chinese economy in recent decades and to what extent they need to be modified in the light of new experiences and insights Against this background several contributions to the volume provide assessments of the current state of economic science and teaching in China in particular with regard to Chinese views on Western economics The book should be of interest to those who are interested in the economic history of China      **The Graver Thoughts of a Country Parson** Andrew Kennedy Hutchison Boyd, 1893      Understanding the Other and Oneself Eckart Ruschman, Detlef Staude, 2018-04-18 Philosophy is more than just an academic subject it is useful and enriching in everyday life as well This is the main conviction of philosophical practitioners Philosophical practice has been developing as a new movement within philosophy for several decades now although it has ancient roots Today there are philosophical practitioners throughout the world who exchange ideas and experience in journals and during regular international conferences such as the 14th International Conference on Philosophical Practice which took place in Bern Switzerland in 2016 under the main topic Understanding the Other and Oneself A selection of thirteen papers from this conference as well as five panel contributions on various subjects regarding its main topic are gathered in this book These contributions to the conference will be of significance and interest not only for philosophers and philosophical practitioners but also for psychotherapists counsellors pedagogues and other professionals

**Aids to reflection. Statesman's manual** Samuel Taylor Coleridge, 1884      **AIDS to Reflection** Samuel Taylor Coleridge, 1868      The Complete Works of Samuel Taylor Coleridge: Aids to reflection. Statesman's manual Samuel Taylor Coleridge, 1884      *Phenomenological Reflections on Violence* James Dodd, 2017-04-21 This book's six essays are guided by a skeptical philosophical attitude about the meaning of violence that refuses to conform to the exigencies of essence and the stable patterns of lived experience They are readings as much as they are reflections attempts at interpretation as much as

they are attempts to push concepts of violence to their limits They draw upon a range of different authors and historical moments but without any attempt to reduce them into a series of examples elucidating a comprehensive theory The aim is to follow a path of distinctively episodic and provisional modes of thinking and reflection that offers a potential glimpse at how violence can be understood Inquiring about God: Volume 1, Selected Essays Nicholas Wolterstorff, 2010-02-04 Inquiring about God is the first of two volumes of Nicholas Wolterstorff's collected papers This volume collects Wolterstorff's essays on the philosophy of religion written over the last thirty five years The essays which span a range of topics including Kant's philosophy of religion the medieval or classical conception of God and the problem of evil are unified by the conviction that some of the central claims made by the classical theistic tradition such as the claims that God is timeless simple and impassible should be rejected Still Wolterstorff contends rejecting the classical conception of God does not imply that theists should accept the Kantian view according to which God cannot be known Of interest to both philosophers and theologians Inquiring about God should give the reader a lively sense of the creative and powerful work done in contemporary philosophical theology by one of its foremost practitioners Hume's Reflection on Religion Miguel A. Badía Cabrera, 2001-08-31 Considering the Scotsman David Hume 1711-76 to be the most important influential and studied philosopher to have written in English Badía Cabrera philosophy U of Puerto Rico Rio Piedras could not resist the temptation to translate his 1966 *Le reflexion de David Hume en torno a la religion* from the Spanish into English He offers a significantly different view of his work on religion and natural theology than has appeared in the anglophone tradition Among the aspects he examines are the historical setting of his investigation of religion the ethical depreciation of religion and the rejection of miracles c Book News Inc **Analytical Index to Sir John W. Kaye's History of the Sepoy War and Col. G. B. Malleson's History of the Indian Mutiny (Combined in One Volume)** Frederic Pincott, 1896 **Aids to Reflection and the Confessions of an Inquiring Spirit** Samuel Taylor Coleridge, 1890 Language and History in Adorno's Notes to Literature Ulrich Plass, 2013-11-15 Language and History in Theodor W Adorno's Notes to Literature explores Adorno's essays on literature as an independent contribution to his aesthetics with an emphasis on his theory and practice of literary interpretation Essential to Adorno's essays is his unorthodox treatment of language and history and his elaboration of the links between the two One of Adorno's major but often neglected claims is that truth is relative to its historical medium language Adorno persistently and creatively tries to narrow the gulf between truth and expression philosophy and rhetoric and his essays on literature are practical examples of his effort to critically rescue the rhetorical dimension of philosophy Rather than relying exclusively on aesthetic concepts inherited from his predecessors in the Western tradition Kant Hegel Nietzsche Kierkegaard Adorno's essays seek to transgress and transcend the conceptual limitations of aesthetic discourse by appropriating a non conceptual metaphorical vocabulary borrowed from the literary texts he investigates Thus Adorno's interpretations of literature mobilize an alternative subterranean primarily essayistic and fragmentary discourse on language

and history that eludes the categories that tend to predominate his thinking in his major work *Aesthetic Theory* This book puts forth the claim that Adorno's essays on literature are of central relevance for an understanding of his aesthetics because they challenge the conceptual limitations of philosophical discourse *Thoughts for the Times* Hugh Reginald Haweis, 1883

*The Athenaeum* James Silk Buckingham, John Sterling, Frederick Denison Maurice, Henry Stebbing, Charles Wentworth Dilke, Thomas Kibble Hervey, William Hepworth Dixon, Norman Maccoll, Vernon Horace Rendall, John Middleton Murry, 1904

**Essays in Logic and Ontology**, 2016-08-29 The aim of this book is to present essays centered upon the subjects of Formal Ontology and Logical Philosophy The idea of investigating philosophical problems by means of logical methods was intensively promoted in Torun by the Department of Logic of Nicolaus Copernicus University during last decade Another aim of this book is to present to the philosophical and logical audience the activities of the Torunian Department of Logic during this decade The papers in this volume contain the results concerning Logic and Logical Philosophy obtained within the confines of the projects initiated by the Department of Logic and other research projects in which the Torunian Department of Logic took part
