Acts of the Heart Robert Sardello,2011-10 Reading through this volume is to be taken on a journey It is to walk with Robert Sardello on his journey as he pushes forward toward new realities In a sense each step is not so easy The thinking often appears dense the ideas often new and therefore disconcerting But each individual piece as the whole is bathed in an aura in a way we may say it is bathed in soul in love in generosity and friendship Attending to these we find the ideas and the new possibilities begin to make sense We are moved to change our lives Christopher Bamford from his introduction In these introductions Robert Sardello introduces us to many people we may not otherwise have met and introduces us to many ways of being and thinking which we didn t know before The range of those we meet in these pages is staggering At the same time there is a sweet harmony and ever unfolding deepening of a single theme Miraculously it pervades and shapes the entire sequence of those whom he presents even though he often wrote in response to a request and not initially on his own initiative Robert writes of matters with which he has made a deep friendship and out of that friendship he has received and participated in a communion of ideas He is able to do this because he has entered the aspiration of those he is introducing at the deepest level making their insights his own and deepening them in his own way An introduction conveys a particular soul capacity For Robert Sardello soul capacities are of the essence of what he calls Spiritual Psychology Together with the worlds and beings to which they correspond it is such capacities that make us human and enable us to fulfill our human tasks Reading these

introductions is an astonishing experience Within their short individual compasses they allow us to participate in Robert's own journey to catch as it were the bird in flight and fly with it That is they map his journey at least that portion of it that began to unfold as his destiny began to crystallize Robert Sardello's insights navigate many hazardous abstractions from the so called New Age through the perennial philosophies With Sophia as his muse the current from the future calls him carrying its many imaginations as energy the always immediate now and the truly new Across these authors writings his visionary perspective deepens in dialogue with the different works as authored beings For writings possess their own spirit or how otherwise do they engender a unique spirit when reborn within our own imagination Scott R Scribner from his introduction

The Diamond Heart Julianne McLean, 2023-04-15 Two towering figures thread their way through this book St Teresa of Avila the sixteenth century Spanish Carmelite saint writer and reformer and C G Jung the founder of modern depth psychology Through sharing fifteen key papers chapters and talks written over nearly twenty five years the author draws on their writings to focus on and explore the interface and relationship between the Christian mystical tradition and Jungian depth psychology Jung saw the human psyche as by nature religious and made this insight a principal focus of his explorations In this regard the book aims to explore an essentially depth approach to spirituality and numinosity relevant for today's largely post religious situation Jungian depth psychology with all its own richness can serve as an essential psychological foundation for and bridge to the Christian mystical tradition Over the past 1500 years the Christian tradition of theologia mystica or mystical theology has flourished in particular communities and individuals with great transformative beauty vitality and strength like a mysterious hidden river of Love overflowing into society such as in sixteenth century Spain Key to understanding the transmission of this tradition down the centuries has been the sixth century writings known as the Dionysian Corpus written by Pseudo Dionysius the Areopagite These writings have evolved over more than 1000 years of interpretation and translation being closely identified with the tradition of theologia mystica The author looks forward with enthusiasm hope and optimism to renewed creative and invigorated approaches to understanding the nature of our inner life that characterize the essential writings of St Teresa of Avila and C G Jung St Teresa of Avila's writings assure us our life journey can be graced by divine presence describing various stages of transformation of the soul in God's Love in her classic book on prayer the Interior Castle Living symbols were a major preoccupation in the life and writings of C G Jung where he explored the psychological foundation of religion particularly the Christian tradition what he termed the path of individuation The author believes under different guises we are in the midst of another flowering of theologia mystica in our own secular time The unprecedented spiritual longing and emergency of our own times is fuelling a strong need for the depth psychological tradition of Jungian psychology and the ancient tradition of theologia mystica to become more widely known understood practiced and lived There is a wider evolutionary shift happening in our times in the diamond heart of individuals groups nations and the global community Something new and unprecedented is being born in our world today we are not

only in a new time but a new era **Prayer of the HeART** Kelly Schneider Conkling, 2006-05 A guide to using art as a means of prayer **Psychology of the Religious Life** George Malcolm Stratton, 1918 **Book 4 Psychology PB** Kurt Jurgensmeier, 2012-08-22 What does Scripture say about the human heart The human heart is where we meet God believe Him and obey Him Which is why the psychological use of heart is used over 1000 times in Scripture not including the hundreds of synonymous references to the human mind spirit soul and conscience Contrary to many there is a lot of psychology in the Bible This book is first a biblical study on the different aspects of the human heart including our reason will and emotions Included is an important chapter on how we change our heart and thus our life Secondly we discuss the dangers of how the Charismatic movement has elevated emotion over reason in both worship and prayer Finally we correct the common mistake in theology of not distinguishing between the abilities of the devil darkened reason of the unregenerated and the Spirit liberated reason of the regenerated In the process we describe the psychological aspects of conversion
