Reform in Trade Union Discrimination in the Construction Industry: Operation Dig and Its Legacy Irwin Dubinsky,1973 *Reform in Trade Union Discrimination in the Construction Industry: Operation Dig and Its Legacy* Irwin Dubinsky,1973 **The Trade Union Movement in Soviet Russia** International Labour Office,1927 Report of the Committee of Experts on the Application of Conventions and Recommendations (Articles 19, 22 and 35 of the Constitution) International Labour Office,International Labour Office. Committee of Experts on the Application of Conventions and Recommendations,1994 *Reforming Age Discrimination Law* Alysia Blackham,2022-05-30 Age is a critical issue for labour market policy Both younger and older workers experience significant challenges at work Despite the introduction of age discrimination laws ageism remains prevalent Reforming Age Discrimination Law offers a roadmap for the future development of age discrimination law in common law countries to better address workplace ageism Drawing on theoretical doctrinal and empirical legal scholarship and comparative perspectives from the United Kingdom Australia and Canada the book provides a socio legal critique of existing age discrimination laws and their enforcement and proposes concrete suggestions for legal reform and change Building on legal and interdisciplinary insights it examines the challenges and limitations of existing legal frameworks and the individual enforcement model for addressing age discrimination in employment It also maps the stages of claiming negotiation or alternative dispute resolution and hearing and judgment using mixed method case studies of the enforcement of age discrimination law in the United Kingdom and Australia This volume puts forward a four fold model of reform which aims to improve the individual enforcement model strengthen positive equality duties bolster the roles of statutory equality agencies and enhance collective enforcement It goes on to critically consider how these options might address the limits of existing laws and the practical measures necessary to ensure their success and to move beyond the individual enforcement of age discrimination law **Trade Unions and Migrant Workers** Stefania Marino,Judith Roosblad,Rinus Penninx,2017-12-29 This timely book analyses the relationship between trade unions immigration and migrant workers across eleven European countries in the period between the 1990s and 2015 It constitutes an extensive update of a previous comparative analysis published by Rinus Penninx and Judith Roosblad in 2000 that has become an important reference in the field The book offers an overview of how trade unions manage issues of inclusion and solidarity in the current economic and political context characterized by increasing challenges for labour organizations and rising hostility towards migrants **Reforms and Nigerian Labour and Employment Relations** Otobo, Dafe,2016-07-25 This collections of papers from twenty seven chapters is on aspects of reforms and labour and employment relations in Nigeria over the past three decades *The Democratic Aspects of Trade Union Recognition* Alan Bogg,2009-09-02 Winner of the SLS Peter Birks Prize for Outstanding Legal Scholarship 2010 The long ascendancy of pluralism and collective laissez faire as a guiding ideology of British labour law was emphatically shattered by the New Right ideology of Thatcher and Major

When New Labour was finally returned to power in 1997 it did not however attempt to resurrect the pre Thatcher preference for pluralist non intervention in collective industrial relations Instead it purported to follow a Third Way A centrepiece of this new approach was the statutory recognition provision introduced in Schedule A1 TULRCA 1992 By breaking with the tradition of voluntarism in respect of recognition of trade unions New Labour sought to provide a model of collective labour law which combined legal support with control through juridification A closer study of both the history of approaches to recognition and the current provisions opens up fundamental questions as to the nature of this new model and the ones it aimed to replace This book uses political philosophy to elucidate the character of those historical approaches and the nature of the Third Way itself in relation to statutory union recognition In particular it traces the progressive eclipse of civic republican values in labour law in preference for a liberal political philosophy The book articulates and defends a civic republican philosophy in terms of freedom as non domination the intrinsic value of democratic participation through deliberative democracy and community This can be contrasted with the rights based individualism and State neutrality characteristic of the liberal approach Despite the promise of civic community in the Third Way rhetoric this book demonstrates that the reality of New Labour s experiment in union recognition was an emphatic reassertion of liberalism in the sphere of workers collective rights This is the first monograph to offer a sustained critical analysis of legal approaches to trade union recognition It will be of particular interest to labour lawyers but also a wider audience of scholars in political philosophy and industrial relations
