MacCulloch,2000-12-20 The English Reformation was the event which chiefly shaped English identity well into the twentieth century It made the English kingdom a self consciously Protestant state dominating the British Isles and boasting an established Church which eventually developed a peculiar religious agenda Anglicanism Although Henry VIII triggered a break with the Pope in his eccentric quest to rid himself of an inconveniently loyal wife the Reformation soon slipped from his control and in the reigns of his Tudor successors it developed a momentum which made it one of the success stories of European Protestantism In this book MacCulloch discusses the developing Reformation in England through the later Tudor reigns Edward VI Mary I and Elizabeth I He provides a narrative of events then discusses the ideas which shaped the English Reformation and surveys the ways in which the English reacted to it how far and quickly they accepted it and assesses those who remained dissenters This new edition is fully updated to take account of new material in the field that has appeared in the last decade

Reformation in England John James Blunt, The Reformation is not to be regarded as a great and sudden event which took the nation by surprise It was merely the crisis to which things had been tending for some centuries and if the fire did at last run over the country with wonderful rapidity it was because the trees were all dry It is a mistake to suppose that whilst the Roman catholic religion prevailed all was unity True it is that the elements of discontent were as yet working for the most part under ground but they were not on that account the less likely to make themselves eventually felt The strong man armed was keeping the house and therefore his goods were at peace but he was in jeopardy long before he was spoiled Luther was the match that produced the explosion but the train had been laid by the events of generations before him It may not then be the least useful nor perhaps the least interesting portion of a History of the Reformation in England to trace some of the causes that led to it some of the incidents that made it practicable and some of the abuses that rendered it necessary And here there is no need to conceal the obligations we were under in the first instance to the church of Rome Neither Gregory himself nor Augustin his messenger appears to have been influenced by any other than a truly Christian spirit in seeking the conversion of England then no very tempting prize and though there can be no doubt that Christianity had been introduced into this island much earlier whether by any of the apostles themselves whether after the persecution on the death of Stephen by some of the Syrian Christians who were scattered abroad and went every where preaching the word or whether by devout soldiers of the same nation whom the famine foretold by Agabus might have driven into the armies of Claudius and who might have come with him into Britain or whether by some of the Jewish converts dispersed over the world when that

same emperor commanded all Jews to depart from Rome whether from these or from other sources unknown to us England was in some degree Christianised the existence of a British church before the arrival of Augustin in the year 597 is a fact clearly established Its independent origin is sufficiently attested by the subjects of controversy between the Anglo Roman and British Christians the time of Easter in which the Britons followed as they said St John and the eastern Christians a point of heterodoxy it may be observed in which the Irish also concurred who in some other respects accorded with the British church building their places of worship for instance with wood and thatching them with reeds the tonsure whether it should be that of Peter or Paul or none whatever the rite of Baptism with regard to which however the nature of the difference between the churches does not appear though a difference there was and the same may be said of the celibacy of the clergy *The Reformation in England ...* Gustave Léon Marie Joseph Constant,1934 **History of the Reformation of the Church of England** Gilbert Burnet,1820 **Sketch of the Reformation in England** J J 1794-1855 Blunt,2015-11-18 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant The History of the Reformation of the Church of England Gilbert Burnet (bisschop),1850 **The Reformation in England** Jean Henri Merle d'Aubigné,1963 **The History of the Reformation of the Church of England ... in Six Volumes** Gilbert Burnet,1825 The History of the Reformation of the Church of England Gilbert Burnet,1843
