promote Russia's vital national and strategic interests in specific geographic locations His findings illuminate Putin's foreign policy objective of reinstituting Russian global strategic dominance Nalbandov argues that identity based politics have dominated Putin's tenure and that Russia's east west split is reflected in Asian European politics Nalbandov's analysis shows that unchecked domestic power an almost exclusive application of hard power and determined ambition for unabridged global influence and a defined place as a world superpower are the keys to Putin's Russia *Russia in Transition* A.
