comments James Agee, 1958 *A Grammar of Murder* Karla Oeler, 2009-12-15 The dark shadows and offscreen space that force us to imagine violence we cannot see The real slaughter of animals spliced with the fictional killing of men The missing countershot from the murder victim's point of view Such images or absent images Karla Oeler contends distill how the murder scene challenges and changes film Reexamining works by such filmmakers as Renoir Hitchcock Kubrick Jarmusch and Eisenstein Oeler traces the murder scene's intricate connections to the great breakthroughs in the theory and practice of montage and the formulation of the rules and syntax of Hollywood genre She argues that murder plays such a central role in

film because it mirrors on multiple levels the act of cinematic representation Death and murder at once eradicate life and call attention to its former existence just as cinema conveys both the reality and the absence of the objects it depicts But murder shares with cinema not only this interplay between presence and absence movement and stillness unlike death killing entails the deliberate reduction of a singular subject to a disposable object Like cinema it involves a crucial choice about what to cut and what to keep

Proceedings of the 2023 2nd International Conference on Social Sciences and Humanities and Arts (SSHA 2023) Mohd Fauzi bin Sedon,Intakhab Alam Khan,Mehmet CÜNEYT BİRKÖK,KinSun Chan,2023-06-29 This is an open access book With the progress of social civilization social science and its research are becoming more and more important Theoretically and practically the study of social phenomena and social problems and the development of prosperous social sciences are the eternal themes of human

beings At present social science research and its results can hardly meet the needs of social development especially the unscientific evaluation of social science results which has aroused great concern from all walks of life and has produced dirt and questions on social science thus affecting the proper development of social science Max Weber once said that the most important function of social science in modern times is to keep people clear headed and to resist the delusions of prophetic legislators Humanities and arts are the process of perceiving realizing thinking manipulating and expressing objective or subjective objects through capturing and excavating feeling and analyzing integrating and applying or displaying the stage results in the form obtained through feeling seeing hearing smelling touching The social sciences and humanities and arts contain content that will directly affect our lives and the way society functions And by reacting to today s increasingly intricate problems and situations through systematic and professional discussions they will further contribute to the improvement of institutions and the development of society By thinking about issues and looking at problems and the world from different perspectives by putting the two together it may be possible to have more comprehensive appropriate and better responses for example the development of laws requires a deeper understanding of the environment in which they are implemented international trade requires a certain understanding of the customs of different countries and the development of tax and economic policies requires a certain understanding of the population consumer demand etc
