## **Regards Sur La Crise Du Syndicalisme:**

**REGARDS SUR LA CRISE DU SYNDICALISME** Dominique Labbe, Stéphane Courtois, 2001-01-01 Le déclin du syndicalisme européen est particulièrement sensible en France où moins d'un actif sur dix est syndiqué aujourd'hui. En même temps que cette crise du syndicalisme entraîne une moindre protection des salariés, elle prive un grand nombre d'entreprises d'un intermédiaire précis. Outre les défis traditionnels qui se présentent depuis toujours aux syndicats, la concrétisation de l'Europe est source pour eux de nouvelles difficultés mais sans doute aussi de pistes intéressantes à explorer.

Louis Meyer, 1909    **European Trade Unions in the 21st Century** Barry Colfer, 2022-03-28 Trade unions in Europe face a range of cross cutting challenges. This includes the near universal contraction in union membership, the related decline of traditionally highly unionised blue collar industries and the rise of automation, microprocessing and digitalisation which can make it cheaper for employers to invest in machines than to pay humans to work. The breakdown of the standard contract of employment and increasing rates of precarious work have further transformed the world of work. Taken together, this makes any collectivist vision of society and the notion of solidarity upon which trade unionism is built difficult to sustain. All this raises tough questions for trade unionists, policy makers and researchers alike regarding the future of trade unions, the oldest and largest civil society movement in Europe. The contributions in this volume explore the prospects for union revival across a range of cases including by focusing on the pursuit of legal remedies and on the opportunities associated with the network society to defend the interests of workers. This interdisciplinary volume includes contributions that consider the Czech Republic, Denmark, France, Finland, Germany, Spain, Sweden, Poland, the United Kingdom and the EU level by researchers coming from a range of disciplines and backgrounds. The volume should especially appeal to researchers and practitioners working in the fields of political science, sociology, law and business studies.

**French Industrial Relations in the New World Economy** Nick Parsons, 2007-05-07 Examining the traditionally predominant role of the state in shaping employment patterns and social policy in France, French Industrial Relations in the New World Economy analyzes the impact of globalization on French industrial relations. Looking at the changing economic context of industrial relations, this important text places particular emphasis on the notion of a shift from a national Fordist form of employment regulation to an international post Fordist form, examining in detail the impact of this shift on the role of the French state and on the balance of power between employer and trade union organizations. Including chapters on employer organizations, collective bargaining, the role of the state and workplace representation, French Industrial Relations in the New World Economy explores this fascinating topic in detail and provides a detailed resource for postgraduates studying trade unions, industrial and employee relations and industrial studies in general.

**Renewal in the French Trade Union Movement** Heather Connolly, 2010 Drawing on ethnographic research in the breakaway trade union movement, *Fédération des Syndicats Solidaires, Unitaires et Démocratiques SUD*, this book explores broad questions of trade union renewal in France. The SUD

movement emerged in 1988 with the avowed intention to revitalise French trade unionism Since its emergence the movement has increasingly been cited as a prime instigator of social unrest in France In a wider context of union decline in Europe this research considers to what extent and in what ways SUD has been able to develop and sustain collective organisation identity and mobilisation Research was conducted in a local level union of SUD Rail a union which emerged in the French public railway sector in 1996 from an ideological split within one of France's largest trade union confederations the Confédération Française Démocratique du Travail CFDT From an ethnographic perspective the book contributes a thick description of trade unionism at the local level and drawing on social movement theory analyses activists' attempts to confront and renew practices and structures in trade unionism The book evaluates the success of the SUD movement and the prospects for a more sustained renewal of French trade unionism

*The Invisible Chain* J. Durand, 2007-05-31

Companies and work have undergone significant change and a new productive model has emerged This book shows how the model works showing its high degree of coherence in terms of the integration of functions within companies This book creates a new and challenging theory of services rooted in the concrete experience of workshops and offices

Roger Lenglet, Christophe Mongermont, Jean-Luc Touly, 2008-05-14 Les grandes sociétés ne l'aiment pas sur les moyens pour se acheter la complaisance de nombreux syndicalistes versements cachés cadeaux personnels emplois fictifs paiements en liquide primes exubérantes avancements et avantages indues lections de déguisements Ce livre est une enquête d'envergure sur la corruption et les drames financiers du monde syndical Grâce à de nombreux témoignages et documents les auteurs deux syndicalistes qui ont plusieurs fois fait la preuve de leur incorruptibilité et un journaliste d'investigation nous dévoilent l'ampleur des pratiques destinées à neutraliser les syndicats en France

**L'envers du travail**

Rolande Pinard, 2018-10-04T00:00:00-04:00 Dans l'histoire du travail les femmes ont joué un rôle connu voire ignoré par la plupart des historiens et sociologues Quelques historiennes au cours des dernières décennies se sont employées à pallier ce manque Se nourrissant de leurs travaux Rolande Pinard propose ici une analyse sociohistorique de l'activisme des travailleuses ayant contribué dans le mouvement ouvrier à laborer le sens social politique du travail Richement documentée cette recherche soutient que de leur solidarité initiale avec les travailleurs les travailleuses ont progressivement été marginalisées dans les formes de syndicalisme qui ont suivi En bout de ligne l'emancipation par le travail a quasi exclusivement été le lot des hommes qui ont bénéficié des institutions comme le syndicalisme construites par les luttes ouvrières sociales et politiques des salariés Soulignant l'aspect pluridimensionnel de la formation de la classe ouvrière Rolande Pinard rappelle que comprendre le travail d'un point de vue critique implique de tenir compte de ses différents agents traversant les périodes historiques de transformation du capitalisme

**Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur**, 2004    **La CGT : crises et alternatives** Guy Groux, René Mouriaux, 1992-01-01 T00:00:00+01:00 Un historique de la CGT et des crises survenues depuis le début du siècle suivi d'une analyse de la crise actuelle 1975-1991 Copyright Electre    Hôtesse de l'air Vanessa D'Hooghe, 2021-08-11 Cette recherche se penche sur les origines de la profession d'hôtesse de l'air, profession fastueuse et glamour où il en est la fois maîtresse de maison et princesse bord. L'hôtesse de l'air va personnifier une compagnie aérienne et un pays. En Belgique dès 1946, ces premières femmes entrent en nombre dans le monde de l'aviation depuis peu civile. Elles font par leurs qualités naturellement féminines. C'est leur fémininité qui est rigide en qualité professionnelle. Au sein de la Sabena, le faste des années 50 va laisser place aux revendications des années 60. Ces femmes jeunes, célibataires et sans enfants, clauses prises par leur contrat vont réclamer également de carrière avec leurs collègues stewards. Elles se organisent en une union professionnelle spécifiquement féminine, la Belgian Corporation of Flying Hostesses. Ce faisant, elles critiquent tant une page de l'histoire du féminisme en Belgique que du droit européen en matière de galégalité des traitements. Du mythe à la lutte féministe se pose en filigrane la question de la construction d'un ternel féminin à l'intérieur de la profession. PROPOS DE L'AUTEURE Vanessa D'Hooghe est licenciée et doctorante en histoire contemporaine de l'Université Libre de Bruxelles. Spécialisée en histoire du genre, ses recherches portent sur l'histoire des modèles de fémininité et de masculinité dans les années 1960 et 1970 en Belgique et en France. La présente recherche a obtenu le prix de l'Université des femmes en 2007. Vanessa D'Hooghe est membre de l'Unité de recherche SAGES Savoirs Genre et Sociétés ULB    Recent Social Trends in Quebec, 1960-1990 Simon Langlois, Baillargeon, 1992-02-05 Readers will follow an intense period of social change in Quebec during which there was a remarkable increase in the level of modernization. They will note a massive entry of women into the labour force and a growing service sector that now constitutes seventy percent of all economic activity. They will observe also that the Québecois

have dramatically increased their television viewing and that while they express a generally high level of satisfaction with life the Quibois must contend with escalating crime and suicide rates

**GRH et relations de travail** Patrice Laroche, David Marsden, Marc Salesina, 2018-10-31 L'ouvrage aborde l'ensemble des outils et pratiques de la GRH recrutement formation approbation de la performance munition gestion des emplois etc Il explique le fonctionnement de la représentation des salariés et décrit les outils et pratiques du dialogue social dans les organisations Quels sont les enjeux qui animent la relation d'emploi Quelle perspective adopter face aux conflits au travail Comment concilier engagement implication motivation avec une logique d'évaluation de rentabilité et de flexibilité Dans quelle mesure la gestion des ressources humaines et les relations de travail sont-elles des cadres d'analyse utiles la compréhension de ces phénomènes Ce sont les questions qui animent cet ouvrage Sa problématique centrale repose sur l'identification d'une tension qui nous semble refléter le dilemme contemporain de la Gestion des Ressources Humaines D'une part la GRH dans sa version stratégique cherche à susciter l'engagement et l'implication des salariés D'autre part les logiques de flexibilité et de retour sur investissement en capital humain créent un contexte aux incertitudes nombreuses pouvant saper les bases nécessaires à l'établissement d'une confiance dans la durée pourtant importante pour garantir engagement et implication De surcroît le développement de l'économie numérique provoque un certain nombre de mutations profondes qui affectent le travail et son organisation la nature de l'emploi et de la relation d'emploi ainsi que celle de la GRH Cet ouvrage propose de croiser les apports théoriques de la GRH et des relations industrielles afin d'offrir des éléments de réponse à ce dilemme

**Le travail militant** Sandrine Nicoud, 2009 Ce livre fait le pari de clarifier les processus d'engagement par une sociologie des collectifs qui les portent Il s'agit moins de se demander pourquoi les individus militent et par quelles causes ils sont attirés que d'analyser

comment les organisations et les collectifs font pour conserver leurs militants comment ils organisent le militantisme au quotidien comment ils sélectionnent leurs militants comment ils valuent les compétences des militants etc Ces questions sont étudiées sur des terrains et dans des contextes variés mouvement social des sans-syndicat associations de locataires de logiciels libres et groupes religieux Se demander comment les individus qui s'engagent sont tenus voire retenus par leurs collectifs conduit à enrichir et renouveler les explications de l'engagement bien-vole et militant qui mettent souvent l'accent sur les parcours biographiques les raisons individuelles ou la force d'attractivité de la cause Les enquêtes proposées mettent en évidence le réel spécifique et déterminant des organisations dans l'encadrement de leurs militants et plus largement dans l'apprentissage de l'engagement Elles clarifient les conditions organisationnelles les interactions sociales et symboliques rendant possibles les implications militantes et expliquant leur inscription dans la durée Le militantisme est ainsi appréhendé comme le fruit d'un ordre régulier et souvent fragile que les organisations et les collectifs emploient entretenir
