Representing the Eighteenth Century in Film and Television, 2000-2015

Karen Bloom Gevirtz,2017-07-06 This book analyzes early twenty first century film and television s fascination with representing the Anglo American eighteenth century Grounded in cultural studies film studies and adaptation theory the book examines how these works represented the eighteenth century to assuage anxieties about values systems and institutions at the start of a new millennium The first two chapters reveal how films like Gulliver s Travels 2010 or the remake of Poldark 2015 use history to establish the direct relationship between the eighteenth century and the twenty first The final chapters examine pairs of productions for how they address and legitimate different aspects of contemporary ideology such as attitudes toward race and gender or the connection between technological and social progress
