Revolutions In Russia And China:

Revolutions in Russia and China Michael M. Lustig, Michael Kort, John Zawacki, 1994 **States and Social Revolutions** Theda Skocpol, 1979-02-28 Theda Skocpol shows how all three combine to explain the origins and accomplishments of social revolutionary transformations Revolution and the People in Russia and China S. A. Smith, 2008-04-24 A unique comparative account of the roots of Communist revolution in Russia and China Steve Smith examines the changing social identities of peasants who settled in St Petersburg from the 1880s to 1917 and in Shanghai from the 1900s to the 1940s Russia and China though very different societies were both dynastic empires with backward agrarian economies that suddenly experienced the impact of capitalist modernity This book argues that far more happened to these migrants than simply being transformed from peasants into workers It explores the migrants identification with their native homes how they acquired new understandings of themselves as individuals and new gender and national identities It asks how these identity transformations fed into the wider political social and cultural processes that culminated in the revolutionary crises in Russia and China and how the Communist regimes that emerged viewed these transformations in the working classes they claimed to represent **Revolutions in Russia and China** J. Revolution and the People in Russia and China Stephen Anthony Smith, 2008 **Revolution in China and Russia** Luyang Zhou, 2025-06-17 Most scholars believe that China's nationality policy like that of other socialist states imitated the Soviet nationality model a system which has been termed an affirmative action empire This book offers two contributions to the literature which run counter to this convention First it argues that the People's Republic of China PRC and the Soviet Union USSR were different while the PRC was aimed to build an ideal typical nation state the USSR was an open union of nation states that was only temporarily confined to a physical territory Second while scholars who have noted this difference attribute it to contextual factors such as ethnic structure geopolitical status and Russia's intervention into the Chinese Revolution this book contends that context shaped the Sino Soviet difference yet it did not determine it Rather there was significant leeway between the implications of the contextual factors and what the policy designers ultimately established This book probes who held agency and how these individuals bridged this gap **The Bolsheviks and the Chinese Revolution, 1919-1927** Alexander Pantsov, 2000-02-01 The opening of former secret Soviet archives has broadened the documentary base for a new study of Bolshevik policy in China on the eve of and during the revolution of 1925-1927 The aim of this work is to incorporate these new documents into a scholarly study and on that basis to explore the essence of the Russian Bolsheviks' main concepts concerning the Chinese revolution The work was designed to determine the influence of these concepts exerted on the Chinese Communist Party CCP through an analysis of the way various adherents of the Chinese Communist movement perceived them The primary sources used in this book include previously unpublished archival material on the Comintern the All Union Communist Party Bolshevik and the CCP reflecting the theories and political

practice of Leninism Trotskyism and Stalinism and of the Russian and Chinese Left Oppositions works by Lenin Stalin Trotsky and other leaders of the Executive Committee of the Communist International and the CCP published in East Asia Europe and the U S Comintern journals and bulletins private interviews carried out by the author with participants and eyewitnesses of the events treated in the book and memoirs of various Chinese revolutionaries

Revolution and the People in Russia and China S. A. Smith, 2008-04-24 A unique comparative account of the roots of Communist revolution in Russia and China Steve Smith examines the changing social identities of peasants who settled in St Petersburg from the 1880s to 1917 and in Shanghai from the 1900s to the 1940s Russia and China though very different societies were both dynastic empires with backward agrarian economies that suddenly experienced the impact of capitalist modernity This book argues that far more happened to these migrants than simply being transformed from peasants into workers It explores the migrants identification with their native homes how they acquired new understandings of themselves as individuals and new gender and national identities It asks how these identity transformations fed into the wider political social and cultural processes that culminated in the revolutionary crises in Russia and China and how the Communist regimes that emerged viewed these transformations in the working classes they claimed to represent

States and Social Revolutions Theda Skocpol, 2015 State structures international forces and class relations Theda Skocpol shows how all three combine to explain the origins and accomplishments of social revolutionary transformations Social revolutions have been rare but undeniably of enormous importance in modern world history States and Social Revolutions provides a new frame of reference for analyzing the causes the conflicts and the outcomes of such revolutions It develops a rigorous comparative historical analysis of three major cases the French Revolution of 1787 through the early 1800s the Russian Revolution of 1917 through the 1930s and the Chinese Revolution of 1911 through the 1960s Believing that existing theories of revolution both Marxist and non Marxist are inadequate to explain the actual historical patterns of revolutions Skocpol urges us to adopt fresh perspectives Above all she maintains that states conceived as administrative and coercive organizations potentially autonomous from class controls and interests must be made central to explanations of revolutions

9 Historic Revolutions Howard Sherman, 2020-11-30 The book REVOLUTION is designed to be easy reading for any person who wants to learn about the many painful but glorious steps in human social evolution It could be used in academic institutions to teach and help readers how society has actually moved Nine chapters are devoted to the description and evaluation of nine different revolutions those that have been of the greatest importance in changing social institutions and social evolution in completely new directions In addition to describing the revolutions the book examines each revolution from the viewpoint of four different aspects of society Economics Politics Technology and Ideology Near the end of the book a chapter explains the major events of each revolution within the theoretical framework that has been developed The next chapter states how the average revolution has happened in various processes and different dimensions thereby creating a progressive theory of how the average revolution proceeds Finally the

last chapter describes exactly how present history is progressing within the framework established within the rest of the book Revolution and Chinese Foreign Policy Peter Van Ness,1973 Social Revolutions in the Modern World Theda Skocpol,1994-09-30 Theda Skocpol author of the award winning 1979 book States and Social Revolutions updates her arguments about social revolutions Mao Zedong and China's Revolutions NA NA,2016-04-30 Whether one views Mao Zedong as a hero or a demon the Great Helmsman was undoubtedly a pivotal figure in the history of 20th century China The first part of this volume is an introductory essay that traces the history of 20th century China from Mao s early career up to the Chinese Communist Party s victory in 1949 through three decades of revolution to Mao s death I 1976 The second half offers a selection of Mao s writings including such seminal pieces as On the New Democracy and selections from the Little Red Book and writings about Mao and his legacy by both his contemporaries and modern scholars Also included are headnotes a chronology Questions for Consideration photographs a selected bibliography and index **Russia: From Proletarian Revolution to State-Capitalist Counter-Revolution** Raya Dunayevskaya,2017-07-10 Russia From Proletarian Revolution to State Capitalist Counter Revolution is a selection of writings by the Marxist Humanist philosopher Raya Dunayevskaya which begins with an examination of Lenin s Hegel Notebooks his philosophic preparation for proletarian revolution followed by a section on What Happens After the revolution the first years post 1917 Analyses of Trotsky Stalin Bukharin and Luxemburg are presented A key section is Russia s Transformation into Opposite The Theory of State Capitalism Opposition to Russian state capitalism such as the 1953 East Germany Revolt and the 1956 Hungarian Revolution are described Mao s China as another form of state capitalism as well as the Sino Soviet conflict is discussed The study ends with a battle of ideas with other analyses of the Revolution and its aftermath China, Russia, and Twenty-First Century Global Geopolitics Paul J. Bolt,Sharyl N. Cross,2018-02-02 This book provides a comprehensive analysis of the Chinese Russian bilateral relationship grounded in a historical perspective and discusses the implications of the burgeoning strategic partnership between these two major powers for world order and global geopolitics The volume compares the national worldviews priorities and strategic visions for the Chinese and Russian leadership examining several aspects of the relationship in detail The energy trade is the most important component of economic ties although both sides desire to broaden trade and investments In the military realm Russia sells advanced arms to China and the two countries engage in regular joint exercises Diplomatically these two Eurasian powers take similar approaches to conflicts in Ukraine and Syria and also cooperate on non traditional security issues including preventing coloured revolutions cyber management and terrorism These issue areas illustrate four themes Russia and China have common interests that cement their partnership including security protecting authoritarian institutions and re shaping aspects of the global order They are key players not only influencing regional issues but also international norms and institutions The Sino Russian partnership presents a potential counterbalance to the United States and democratic nations in shaping the contemporary and emerging geopolitical

landscape Nevertheless the West is still an important partner for China and Russia Both seek better relations with the West but on the basis of mutual respect and equality Lastly Russia and China have frictions in their relationship and not all of their interests overlap The Sino Russian relationship has gained considerable momentum particularly since 2014 as Moscow turned to Beijing attempting to offset tensions with the West in the aftermath of Russia's annexation of Crimea and intervention in Ukraine However so far China and Russia describe their relationship as a comprehensive strategic partnership but they are not allies

Pan-Asianism and the Legacy of the Chinese Revolution Viren Murthy, 2023-10-25 With Xi Jinping's project to revive the ancient Silk Road for the contemporary era new analyses of pan Asianism have proliferated Most of these narratives focus especially on the rise of China as the natural leader of new capitalist bloc foretelling a shift of power from the West to the East What these approaches lack however is any historical grounding in the thought of influential twentieth century pan Asianists Viren Murthy explores the writings and specific historical contexts of key pan Asianist intellectuals in Japan China and India from the early 1900s to the present to clarify how current discourses distort the very foundations of pan Asianism At the heart of this thinking was the notion of a unity of Asian nations of weak nations becoming powerful and of the Third World confronting the advanced world on equal terms But there was more pan Asianists envisioned a future beyond both imperialism and capitalism That the resurgence of pan Asianist discourse has emerged alongside the dominance of capitalism Murthy argues signals a profound misunderstanding

Stalin and Mao Lucien Bianco, 2018-03-15 China's ascent to the ranks of the world's second largest economic power has given its revolution a better image than that of its Russian counterpart Yet the two have a great deal in common Indeed the Chinese revolution was a carbon copy of its predecessor until Mao became aware not so much of the failures of the Russian model but of its inability to adapt to an overcrowded third world country Yet instead of correcting that model Mao decided to go further and faster in the same direction The aftershock of an earthquake may be weaker but the Great Leap Forward of 1958 in China was far more destructive than the Great Turn of 1929 in the Soviet Union It was conceived with an idealistic end but failed to take all the possibilities into account China's development only took off after and thanks to Mao's death once the country turned its back on the revolution Lucien Bianco's original comparative study highlights the similarities the all powerful bureaucracy the over exploitation of the peasantry which triggered two of the worst famines of the 20th century control over writers and artists repression and labor camps The comparison of Stalin and Mao that completes the picture leads the author straight back to Lenin and he quotes the observation by a Chinese historian that If at all possible it is best to avoid revolutions altogether

Revolutions Jack A. Goldstone, 2023 This Very Short Introduction illuminates the actions of revolutionaries their strategies their successes and failures and the ways in which revolutions continue to dominate world events and the popular imagination Starting with the city states of ancient Greece and Rome Jack Goldstone traces the development of revolutions through the Renaissance and Reformation the Enlightenment and liberal constitutional revolutions such as in America and

their opposite the communist revolutions of the 20th century **Russia and the Roots of the Chinese Revolution, 1896-1911** Don C. Price, 1974 China and Russia Alexander Lukin, 2018-03-16

With many predicting the end of US hegemony Russia and China's growing cooperation in a number of key strategic areas looks set to have a major impact on global power dynamics But what lies behind this Sino Russian rapprochement Is it simply the result of deteriorated Russo US and Sino US relations or does it date back to a more fundamental alignment of interests after the Cold War In this book Alexander Lukin answers these questions offering a deeply informed and nuanced assessment of Russia and China's ever closer ties Tracing the evolution of this partnership from the 1990s to the present day he shows how economic and geopolitical interests drove the two countries together in spite of political and cultural differences Key areas of cooperation and possible conflict are explored from bilateral trade and investment to immigration and security Ultimately Lukin argues that China and Russia's strategic partnership is part of a growing system of cooperation in the non Western world which has also seen the emergence of a new political community Greater Eurasia His vision of the new China Russia rapprochement will be essential reading for anyone interested in understanding this evolving partnership and the way in which it is altering the contemporary geopolitical landscape
