Hrafnkel or the Ambiguities William Ian Miller, 2016-12-22 William Ian Miller presents a close reading of one of the best known of the Icelandic sagas showing its moral political and psychological sophistication Hrafnkel tells of a fairly simple feud in which a man rises falls and rises again with a vengeance so to speak The saga deals with complex issues with finely layered irony who can one justifiably hit when and by what means It does this with cool nuance also taking on matters of torture and pain infliction as a means of generating fellow feeling How does one measure pain and humiliation so as to get even to get back to equal People are forced to set prices on things we tell ourselves soporifically are priceless such as esteem dignity life itself Morality no less than legal remedy involves price setting This book flies in the face of all the previous critical literature which with very few exceptions imposes simplistic readings on the saga A translation of the saga is provided as an appendix

The Martyrdom of the Franciscans Christopher MacEvitt, 2020-03-06 A study of three hundred years of medieval Franciscan history that focuses on martyrdom While hagiographies tell of Christian martyrs who have died in an astonishing number of ways and places slain by members of many different groups martyrdom in a Franciscan context generally meant death at Muslim hands indeed in Franciscan discourse death by Saracen came to rival or even surpass other definitions of what made a martyr The centrality of Islam to Franciscan conceptions of martyrdom becomes even more apparent and problematic when we realize that many of the martyr narratives were largely invented Franciscan authors were free to choose the antagonist they wanted Christopher MacEvitt observes and they almost always chose Muslims However martyrdom in Franciscan accounts rarely leads to conversion of the infidel nor is it accompanied as is so often the case in earlier hagiographical accounts by any miraculous manifestation If the importance of preaching to infidels was written into the official Franciscan Rule of Order the Order did not demonstrate much interest in conversion and the primary efforts of friars in Muslim lands were devoted to preaching not to the native populations but to the Latin Christians mercenaries merchants and captives living there Franciscan attitudes toward conversion and martyrdom changed dramatically in the beginning of the fourteenth century however when accounts of the martyrdom of four Franciscans said to have died while preaching in India were written The speed with which the accounts of their martyrdom spread had less to do with the world beyond Christendom than with ecclesiastical affairs within MacEvitt contends The Martyrdom of the Franciscans shows how for Franciscans martyrdom accounts could at once offer veiled critique of papal policies toward the Order a substitute for the rigorous pursuit of poverty and a symbolic way to overcome Islam by denying Muslims the solace of conversion

Word as Bond in English Literature from the Middle Ages to the Restoration J. Douglas Canfield, 2016-11-11 For centuries the transmission of power in feudal European society depended on a code of fidelity of political allegiance and truth to one s word The word as

bond extended to include not only the pledge of allegiance between subject and king but the troth plight between lovers the vow of friendship and the judicial oath Society was ultimately based upon a gentleman s or gentlewoman s word that was itself underwritten by the Word of God J Douglas Canfield argues that English literature of the feudal epoch placed this master trope of word as bond at the center of conflict The trope does not passively reflect social reality rather it helps to define to constitute the society and its values Both society and literature were preoccupied by the contest between fidelity on the one hand and its antithesis betrayal with the political and sexual anarchy that it threatened on the other In literature the conflict was usually resolved through supernatural aid the intervention of the Logos which guaranteed the validity of the word Canfield analyzes over 25 representative works focusing on Chaucer Shakespeare and Dryden in the five dominant modes of aristocratic literature romance comedy lyric tragedy and satire In each chapter he offers three examples one from the Middle Ages one from the Renaissance and one from the Restoration Canfield s study proceeds synchronically attempting to show that the trope is always under stress The language of heroic romance coexists with the language of subversive comedy and absurdist satire In an Afterword he suggests why the trope disappears not from the discourse where it remains to this day but from the center of conflict in English literature after 1688 There and Back Again Mark

Atherton,2012-08-20 Even the smallest person can change the course of the future The prophetic words of Galadriel addressed to Frodo as he prepared to travel from Lothlorien to Mordor to destroy the One Ring are just as pertinent to J R R Tolkien s own fiction For decades hobbits and the other fantastical creatures of Middle earth have captured the imaginations of a fiercely loyal tribe of readers all enhanced by the immense success of Peter Jackson s films first The Lord of the Rings and now his new The Hobbit But for all Tolkien s global fame and the familiarity of modern culture with Gandalf Bilbo Frodo and Sam the sources of the great mythmaker s own myth making have been neglected Mark Atherton here explores the chief influences on Tolkien s work his boyhood in the West Midlands the landscapes and seascapes which shaped his mythologies his experiences in World War I his interest in Scandinavian myth his friendships especially with the other Oxford based Inklings and the relevance of his themes especially ecological themes to the present day There and Back Again offers a unique guide to the varied inspirations behind Tolkien s life and work and sheds new light on how a legend is born

Interpreting Texts from the Middle Ages Ulrich Goebel,David Lee,1994-01 These 16 essays deal with many aspects of medieval literature problems of Old Saxon Old High German Old English words and Old Norse literature devotional biography hagiography and autobiography the reinterpretation of specific words from the courtly era a manuscript in which the Hebrew alphabet is used to render a collection of randomly chosen Christian prayers medieval descriptions of India and a demonstration of how to compile an onomasiological index for a language period such as Early New High German Mental Processes and Narrative Possibilities in the German Novelle, 1890-1940 David Turner,2005 Although it concentrates on a particular historical period and although it examines a variety of individual works many of them acknowledged Novellen this

study is neither an historical survey nor a collection of interpretations Its distinctive approach is taxonomical and comparative Taking as its starting point the surge of interest in the human mind as the nineteenth century drew to a close it examines the kinds of shorter narrative that were generated by that interest On the other hand therefore it investigates how by focusing on particular aspects of the mind writers were led to adopt certain narrative patterns or structures and on the other hand building on the work of Dorrit Cohn but extending her range considerably it explores and evaluates the different modes of presentation which writers exploited as they sought to give life to the inner workings of their characters According to some psychology and the Novelle are incompatible Although the investigation concludes that there is no inherent incompatibility between psychological interest and the aims of the Novelle it also demonstrates that psychological interest in shorter narratives does not always lead to Novellen it explores other narrative structures that may arise when particular models of the mind form their basis
