Since Jesus told us to be perfect and Vatican Council II emphasized a universal call to holiness for all Christians how do we learn to do that One great way is to learn from and pray with the saints of the Catholic Church We can follow in the footsteps of the ordinary Catholic men and women who fought the good fight to be holy until the end of their lives and won that fight The saints have been the inspiration of faithful Catholics for hundreds of years because they show us what it looks like to follow Jesus Christ despite countless challenges and obstacles This unique book contains short biographies of multiple saints for every day of the year including an intercessory prayer to each saint This helps the reader to learn about and pray with the numerous saints of the Church the communion of saints whose personalities and challenges often resonate with our own This collection also provides wonderful resource information to learn more about individual saints inspiring quotes from saints and detailed explanations of Catholic terms that often befuddle us The saints in this collection come from every period in his tory countries age ranges and vocations They show us that holiness truly is a path open to all who seek to follow Jesus Christ By reading about the lives of the saints each day we can learn how to apply their life lessons to our own daily challenges By praying daily for their help we can ask for their spiritual help and wisdom and point ourselves toward Heaven where we hope to spend eternity with God

Saints Herald , 1886 Liturgy and the Ecclesiastical History of Late Anglo-Saxon England D. N. Dumville, 1992

Study of surviving Anglo Saxon kalendars and pontificals contributes to our understanding of 10th century England His work demonstrates the importance of these neglected sources for our understanding of the late Old English church HISTORY An important book of immense erudition It brings into the open some major issues of Late Anglo Saxon history and gives a thorough overview of the detailed source material When such outstanding learning is being used through intuitive perception to bear on the wider issues such as popular devotion and the reception of the monastic reform in England and bold conclusions are bing drawn from such minutely detailed studies there is no doubt that David Dumville s contribution in this area of study becomes invaluable The sources for the liturgy of late Anglo Saxon England have a distinctive shape Very substantial survival has given us the possibility of understanding change and perceiving significant continuity as well as identifying local preferences and peculiarities One major category of evidence is provided by a corpus of more than twenty

kalendars some of these and particularly those which have been associated with Glastonbury Abbey are subjected to close examination here the process contributing both negatively and positively to the history of ecclesiastical renewal in the 10th century Another significant body of manuscripts comprises books for episcopal use especially pontificals these are examined here as a group and their associations with specific prelates and churches considered All these investigations tend to suggest the centrality of the church of Canterbury in the surviving testimony and presumptively therefore in the history of late Anglo Saxon christianity Historians study of English liturgy in this period has heretofore concentrated on the development of coronation rites by pursuing palaeographical and textual enquiries the author has sought to make other divisions of the subject respond to historical questioning Dr DAVID N DUMVILLE is Reader in the Early Mediaeval History and Culture of the British Isles at the University of Cambridge and a Fellow of Girton College Merchant Vessels of the United States...
