Section 4 Gods Two Creations:

Christ, Creation and the Cosmic Goal of Redemption J.J. Johnson Leese, 2018-05-17 J J Johnson Leese discusses how the apostle Paul's writing on Christ's relationship to creation read alongside the interpretations of Irenaeus of Lyon provide a meaningful contribution to contemporary debates on the interrelationship between religion and nature Leese draws upon the integration of three related scholarly trends the increased importance placed on biblical creation themes the emergence of ecotheology and the history of reception while focusing on the Pauline corpus and readings of Paul by Irenaeus thus uncovering a robust creation and ecotheological theology Irenaeus approach provides the possibility for Paul to contribute to ecotheology by way of a theological vision where the whole of reality in relationship to Christ and creation and by extension to soteriology and ecclesiology are central components of Paul's theology Beyond Male and Female? Sam Ashton, 2023-09-21 In this incisive work Sam Ashton provides a compelling consistent and erudite argument for a foundational approach to the matter of sexual difference drawing on biblical and doctrinal material and using resources in their original languages He tracks and traces the sexed body as it moves from creation through the fall to redemption now and final consummation not yet In doing so Ashton presents what is perhaps the strongest case that can be made for male and female He created them Each chapter privileges biblical exegesis drawing upon figures in church history notably Augustine and Aquinas as and when they illumine Scripture By doing so the book considers the difficulty presented to sexual dimorphism by the phenomenon of intersex Ashton seeks to develop an understanding that is generous inclusive and affirming so he works carefully through the writings of Thatcher Song and Cornwall in a way that invites engagement and dialogue With the complete divine drama in view the book offers synthetic judgments about what remains essential for the structure of the sexed body as it travels through history and what may be accidental to the sexed body's direction within a particular theo-dramatic act Ashton concludes by considering ways to transition from dogmatic judgments about intersexuality to the moral pastoral care of concrete intersex individuals briefly thinking about the complex matter of marriage Creation, Evolution and Meaning Robin Attfield, 2018-07-17 This book presents the case for belief in both creation and evolution at the same time as rejecting creationism Issues of meaning supply the context of inquiry the book defends the meaningfulness of language about God and also relates belief in both creation and evolution to the meaning of life Meaning it claims can be found in consciously adopting the role of stewards of the planetary biosphere and thus of the fruits of creation Distinctive features include a sustained case for a realist understanding of language about God a contemporary defence of some of the arguments for belief in God and in creation a sifting of different versions of Darwinism and their implications for religious belief a Darwinian account of the relation of predation and other apparent evils to creation a new presentation of the argument from the world's value to the purposiveness of evolution and discussions of whether or not meaning itself evolves and of religious and secular bases for belief in stewardship **The God of Israel** R.

Weaving the New Creation James W. Fowler,2001-02-20 *The God of Covenant and Creation* Larry S.

Chapp,2013-05-01 According to Larry Chapp theology is left with two dire options in the aftermath of naturalism s apparent cultural triumph provide modernity with an intellectually cogent theological vision or perish along with that same culture in the wasteland of our nihilism Chapp s important book is grounds for hope that theology may live to see another day and that the pervasive nihilism may not have the last word He correctly diagnoses the intellectual and cultural dangers posed by so called scientific naturalism lifting the lid on its alleged metaphysical neutrality and exposing this naturalism for what it fundamentally is a bad theology which doesn t know itself And more importantly still he restores theology to its proper cosmological scope Not only does creation become intellectually compelling in Chapp s deft hands it elicits wonder and praise for its Creator and restores what is human in us This is a hopeful development indeed and a sign of an indispensable book Michael Hanby on back cover The Place of God at the Bookends of the Bible David W. Larsen,2023-10-09 What if everything in the Bible has a larger outer context than is usually accounted for Missional and biblical theologies suggest that the Bible presents a grand story like a play with multiple acts The acts typically include creation fall redemption and finally restoration But what if the whole story itself occurs in another larger setting occurring within a mission running in the background throughout the whole Bible How might this aid our research reading and application And why is this being proposed now This book explores these questions The larger context is the production of the place of God a home and homeland wherein God with his people dwell on earth Since place is underdeveloped in biblical studies the book presents a new method for interpreting place Then the book lays out the case that a grand mission to produce the place of God becomes the outer context for the whole Bible Finally the book defends this proposal with an in depth placial commentary of the bookends of the Bible since these bookends provide keys to unlock this message thereby inviting further study on the rest of the Bible and on the implications for this transformative perspective Reconsidering Creation Ex Nihilo in Genesis 1

Nathan J. Chambers,2020-11-15 There is a broad consensus among biblical scholars that creation ex nihilo from nothing is a late Hellenistic concept with little inherent connection to Genesis 1 and other biblical creation texts In this book Nathan J Chambers forces us to reconsider the question arguing in favor of reading this chapter of the Bible in terms of ex nihilo creation and demonstrating that there is a sound basis for the early Christian development of the doctrine Drawing on the theology of Augustine of Hippo and Thomas Aquinas Chambers considers what the ex nihilo doctrine means and does in classical Christian dogma He examines ancient Near Eastern cosmological texts that provide a potential context for reading Genesis 1 Recognizing the distance between the possible historical and theological frameworks for interpreting the text he illuminates how this doctrine developed within early Christian thought as a consequence of the church s commitment to reading Genesis 1 as part of Christian Scripture Through original close readings of the chapter that engage critically with the

work of Jon Levenson Hermann Gunkel and Brevard Childs Chambers demonstrates that far from precluding interpretive possibilities reading Genesis 1 in terms of creation from nothing opens up a variety of interpretive avenues that have largely been overlooked in contemporary biblical scholarship Timely and innovative this book makes the case for a new or recovered framework for reading Genesis 1 that will appeal to biblical studies scholars and seminarians **Scriptural Communion**

Aguirre, 2017-07-18 Christians confess that God created the heavens and the earth But just how did he do it and does the Bible give us a scientifically accurate account Listen in as representatives from Reasons to Believe old earth creation and BioLogos evolutionary creation engage in charitable dialogue on questions of creation and evolution *Creation and*

Salvation Daniela Scialabba, 2019-07-05 The recent debate on the religion of ancient Israel is strongly influenced by the idea that monotheism is the root of violence Daniela Scialabba seeks to investigate inclusive tendencies in Old Testament monotheism focussing on the idea of God as a universal creator who has pity with all his creatures **Time in Eternity**

Robert John Russell, 2012-06-15 According to Robert John Russell one of the foremost scholars on relating Christian theology and science the topic of time and eternity is central to the relation between God and the world in two ways First it involves the notion of the divine eternity as the supratemporal source of creaturely time Second it involves the eternity of the eschatological New Creation beginning with the bodily Resurrection of Jesus in relation to creaturely time The key to Russell's engagement with these issues and the purpose of this book is to explore Wolfhart Pannenberg's treatment of time and eternity in relation to mathematics physics and cosmology *Time in Eternity* is the first book length exposition of Russell's unique method for relating Christian theology and the natural sciences which he calls creative mutual interaction CMI This method first calls for a reformulation of theology in light of science and then for the delineation of possible topics for research in science drawing on this reformulated theology Accordingly Russell first reformulates Pannenberg's discussion of the divine attributes eternity and omnipresence in light of the way time and space are treated in mathematics physics and cosmology This leads him to construct a correlation of eternity and omnipresence in light of the spacetime framework of Einstein's special relativity In the process he proposes a new flowing time interpretation of relativity to counter the usual block universe interpretation supported by most physicists and philosophers of science Russell also replaces Pannenberg's use of Hegel's concept of infinity in relation to the divine attributes with the concept of infinity drawn from the mathematics of Georg Cantor Russell then addresses the enormous challenge raised by Big Bang cosmology to Christian eschatology In response he draws on Pannenberg's interpretation both of the Resurrection as a proleptic manifestation of the eschatological

New Creation within history and the present as the arrival of the future Russell shows how such a reformulated understanding of theology can shed light on possible directions for fundamental research in physics and cosmology These lead him to explore preconditions in contemporary physics research for the possibility of duration copresence retroactive causality and prolepsis in nature

Accuracy in Genesis: New Perspectives Affirming the Scriptural Creation Record, Genesis 1-11 , Biblical Themes John P. Davis,2022-05-17 In Biblical Themes John P Davis seeks to present a overview of themes that are central to biblical theology In Scripture God has chosen to reveal the glory of the Triune God through the person and work of Jesus Christ The Revelation of God in and through Jesus Christ is the interpretive fulcrum for all of Scripture This summary intends to present an example of biblical theology in which the themes of Creation Consummation Corruption Covenant and Church find their meaning and significance in the person and work of Jesus Christ

The Nature of Creation Mark Harris,2014-09-19 It is generally assumed that science and religion are at war Many now claim that science has made religious belief redundant others have turned to a literalist interpretation of biblical creation to reject or revise science others try to resolve Darwin with Genesis The Nature of Creation addresses this complex debate by engaging with both modern science and biblical scholarship together Creation is central to Christian theology and the Bible and has become the chosen battleground for scientists atheists and creationists alike The Nature of Creation presents a sustained historical investigation of what the creation texts of the Bible have to say and how this relates to modern scientific ideas of beginnings The book aims to demonstrate what science and religion can share and how they differ and ought to differ

A General Outline of God's Economy and the Proper Living of a God-Man Witness Lee,1998 **Scriptural Communion with God** ,1845 **Children of Laughter and the Re-Creation of Humanity** Samuel J. Tedder,2020-07-02 Paul s passionate Letter to the Galatians has occasioned various perspectives old new radical new apocalyptic etc for explaining Paul s defense of the truth of the gospel in it This book makes an audacious claim that the allegorical passage of 4 21 5 1 is the best vantage point for configuring Paul s theological vision and logic in the letter Offering a fresh approach for understanding Paul s allegorical practice it demonstrates how both the Abraham narrative and the book of Isaiah function as a formative matrix for Paul s theology With an in depth analysis of these scriptural texts Paul s two identifications for believers in Christ belonging to the Jerusalem above and being children of promise in the pattern of Isaac receive new clarity and precision The investigative journey in this book discusses key concepts and texts from Galatians and addresses questions concerning the shape of Paul s retelling of Israel s story in relation to Jews and Gentiles The result is a well grounded interpretation of Paul s conception of the gospel that made him new and continues to bring about new creation in our world
