McNaughton,2006 This book tells the story of an unusual group of American soldiers in World War II second generation Japanese Americans Nisei who served as interpreters and translators in the Military Intelligence Service Preface     **Nagasaki** Susan Southard,2017-08-31 On August 9th 1945 the US dropped an atomic bomb on Nagasaki It killed a third of the population instantly and the survivors or hibakusha would be affected by the

life altering medical conditions caused by the radiation for the rest of their lives They were also marked with the stigma of their exposure to radiation and fears of the consequences for their children Nagasaki follows the previously unknown stories of five survivors and their families from 1945 to the present day It captures the full range of pain fear bravery and compassion unleashed by the destruction of a city Susan Southard has interviewed the hibakusha over many years and her intimate portraits of their lives show the consequences of nuclear war Nagasaki tells the neglected story of life after nuclear war and will help shape public debate over one of the most controversial wartime acts in history Published for the 70th anniversary of the Hiroshima and Nagasaki bombs this is the first study to be based on eye witness accounts of Nagasaki in the style of John Hersey s Hiroshima On August 9th 1945 three days after the atomic bombing of Hiroshima a 5 tonne plutonium bomb was dropped on the small coastal city of Nagasaki The explosion destroyed factories shops and homes and killed 74 000 people while injuring another 75 000 The two atomic bombs marked the end of a global war but for the tens of thousands of survivors it was the beginning of a new life marked with the stigma of being hibakusha atomic bomb affected people Susan Southard has spent a decade interviewing and researching the lives of the hibakusha raw emotive eye witness accounts which reconstruct the days months and years after the bombing the isolation of their hospitalisation and recovery the difficulty of re entering daily life and the enduring impact of life as the only people in history who have lived through a nuclear attack and its aftermath Following five teenage survivors from 1945 to the present day Southard unveils the lives they have led their injuries in the annihilation of the bomb the dozens of radiation related cancers and illnesses they have suffered the humiliating and frightening choices about marriage they were forced into as a result of their fears of the genetic diseases that may be passed through their families for generations to come The power of Nagasaki lies in the detail of the survivors stories as deaths continued for decades because of the radiation contamination which caused various forms of cancer Intimate and compassionate while being grounded in historical research Nagasaki reveals the censorship that kept the suffering endured by the hibakusha hidden around the world For years after the bombings news reports and scientific research were censored by U S occupation forces and the U S government led an efficient campaign to justify the necessity and morality of dropping the bombs As we pass the seventieth anniversary of the only atomic bomb attacks in history Susan Southard captures the full range of pain fear bravery and compassion unleashed by the destruction of a city The personal stories of those who survived beneath the mushroom clouds will transform the abstract perception of nuclear war into a visceral human experience Nagasaki tells the neglected story of life after nuclear war and will help shape public discussion and debate over one of the most controversial wartime acts in history

**Unconditional Defeat** Thomas W. Zeiler,2004 Unconditional Defeat the second book in a Pacific War trilogy that is part of SR Books Total War series examines the concluding stages of World War II in Asia and the Pacific from November 1943 until September 1945 Thomas W Zeiler argues that this war without mercy could only come to one conclusion the complete unconditional defeat of Japan by a mobilized overwhelming vengeful United States Zeiler describes these final 22 months of the Pacific War as a story of contrasts While the U S launched a methodical smothering attack with all the means at its disposal Japan fought a fierce yet hopeless defense with diminishing supplies By November 1943 Japan lacked the necessities not just for victory as in the earlier phases of the war but for adequate defense The Japanese had no options The strategic planning rested with the Americans Zeiler s gripping and thorough overview discusses other contrasts between the two foes The Americans planned multiple advances in the Pacific Ocean and on the Asian mainland They used a massive number of troops devised and adopted new amphibious techniques and deployed the new nuclear category of weapons The Japanese stubbornly but desperately clung to their territory often with the basest of defenses By August 1945 the United States forces at sea on land and in the air had brought Japan near complete defeat In addition the Japanese Empire was diplomatically isolated Japanese politics was in turmoil the government faced rebellion and the Emperor stood on the brink of extinction Wracked by the destruction of the homeland from the air and blockade by sea Japanese society veered

near chaos and the people peered into the abyss of an uncertain future. In the meantime, America's military had experienced such horrors at the hands of Japan that the U.S. made the difficult decision to unleash the atomic bomb.
