## **The Chemical Weapons**

**Taboo** Richard M. Price,2018-09-05 Richard M Price asks why among all the ominous technologies of weaponry throughout the history of warfare chemical weapons carry a special moral stigma Something more seems to be at work than the predictable resistance people have expressed to any new weaponry from the crossbow to nuclear bombs Perceptions of chemical warfare as particularly abhorrent have been successfully institutionalized in international proscriptions and Price suggests understanding the sources of this success might shed light on other efforts at arms control To explore the origins and meaning of the chemical weapons taboo Price presents a series of case studies from World War I through the Gulf War of 1990 1991 He traces the moral arguments against gas warfare from the Hague Conferences at the turn of the century through negotiations for the Chemical Weapons Convention of 1993 From the Italian invasion of Ethiopia to the war between Iran and Iraq chemical weapons have been condemned as the poor man s bomb Drawing upon insights from Michel Foucault to explain the role of moral norms in an international arena rarely sensitive to such pressures he focuses on the construction of and mutations in the refusal to condone chemical weapons

*A History of Chemical and Biological Weapons* Edward M. Spiers,2010-04-30 Following the 9 11 attacks and the anthrax letters that appeared in their wake the threat posed by the widespread accessibility of chemical and biological weapons has continually been used to stir public fear and opinion by politicians and the media alike In *Chemical and Biological Weapons* Edward M Spiers cuts through the scare tactics and hype to provide a thorough and even handed examination of the weapons themselves the various types and effects and their evolution from World War I to the present Spiers describes the similarities and differences between the two types of weapons and how technological advancements have led to tactical innovations in their use over time As well he gives equal attention to the international response to the proliferation of chemical and biological weapons analyzing global efforts aimed at restraining their use such as deterrence and disarmament and the effectiveness of these approaches in the twentieth century Using Iraq as a case study Spiers also investigates its deployment of chemical weapons in the Iran Iraq War and the attempts by the international community to disarm Iraq through the United Nations Special Commission and the United States led war in 2003 A timely and balanced historical survey *Chemical and Biological Weapons* will be of interest to readers studying the proliferation and use of chemical and biological warfare and the reactions of the international community throughout the last several decades

*Chemical Disarmament And U.s. Security* Brad Roberts,1992-07-20 A study of chemical disarmament and US security

**Chemical and Biological Weapons** E. Spiers,1994-08-16 his previous forays into this subject have made him the *Chemical Biological Weapons* professionals author and this book does nothing to diminish this view It is also timely *British Army Review* An analysis of the proliferation of chemical and biological weapons which examines the attractions and utility of these weapons for some developing states the difficulties encountered in trying to control their spread and the

lessons from the Rabta controversy and the Gulf War It reviews the evolution of American chemical weapons policy under the Bush administration the implications of the Chemical Weapons Convention and the problems posed by the inherently dynamic nature of these weapons and their tactical flexibility *The Chemical Weapons Convention Handbook* ,1993

*Agents of War* Edward M. Spiers,2020-11-05 Often described as the misuse of science chemical and biological weapons have incurred widespread opposition over the years Despite condemnation from the United Nations governments and the disarmament lobby they remain very real options for rogue states and terrorists In this new edition of *Agents of War* Edward M Spiers has expanded and updated this much needed history with two new chapters on political poisoning and chemical weapons in the Middle East Spiers breaks new ground by presenting his analysis in both historical and contemporary contexts giving a comprehensive chronological account of why where and when such weapons were used or suspected to be deployed The U.S., Japan, and Asia Frances Scott,1993 **The Chemical Weapons Convention : effects on the U.S.**

by which Israel says it is most threatened The remodeling of Middle East arms control according to Cold War standards enables the inclusion of those proliferating states which are not prepared to enter into political and economic normalization or security cooperation with Israel but whose arms races with Israel and with one another are creating an ever more dangerous regional environment The Persian Gulf After the Cold War Mohammed E. Ahrari,James Noyes,1993-10-30 This is a comprehensive examination of the strategic affairs of the Persian Gulf since the Gulf War of 1991 The authors conclude that the arms race in the Persian Gulf should be controlled but maintain it is likely to continue because of the clashing strategic perspectives of Saudi Arabia and Iran and because of the sustained willingness of all major suppliers to find new revenue sources for their declining defense industries in the post Cold War decade They also argue that the U S should not adopt a policy of isolating or ignoring Iran in its endeavors to find security arrangements in the Persian Gulf and that a weakened Iraq has become a major source of instability in the Persian Gulf **Global Maritime Safety & Security Issues and East Asia** Suk Kyoon Kim,2019-06-07 In Global Maritime Safety safety of navigation port state control maritime terrorism SUA Convention regime piracy ISPS Code and port and container security and PSI The author further undertakes an exploration of the roles of coast guards in East Asia as maritime safety and security enforcers and national maritime safety and security legislations in China Japan and Korea **Special Bibliography Series** ,1957 **Special Bibliography Series** United States Air Force Academy.
