Jesus are in red letter *Red-Hot and Righteous* Diane Winston, Diane H Winston, 2009-06-30 In this engrossing study of religion urban life and commercial culture Diane Winston shows how a self styled red hot militant Protestant mission established a beachhead in the modern city When The Salvation Army a British evangelical movement landed in New York in 1880 local citizens called its eye catching advertisements vulgar and dubbed its brass bands female preachers and overheated services sensationalist Yet a little more than a century later this ragtag missionary movement had evolved into the nation s largest charitable fund raiser the very exemplar of America s most cherished values of social service and religious commitment Winston illustrates how the Army borrowed the forms and idioms of popular entertainments commercial emporiums and master marketers to deliver its message In contrast to histories that relegate religion to the sidelines of urban society her book shows that Salvationists were at the center of debates about social services for the urban poor the changing position of women and the evolution of a consumer culture She also describes Salvationist influence on contemporary life from the public s post World War I and ongoing love affair with the doughnut to the Salvationist young woman s career as a Hollywood icon to the institutionalization of religious ideals into nonsectarian social programs Winston s vivid account of a street savvy religious mission transformed over the decades makes adroit use of performance theory and material culture studies to create an evocative portrait of a beloved yet little understood religious movement Her book provides striking evidence that counter to conventional wisdom religion was among the seminal social forces that shaped modern urban America and in the process found new expression for its own ideals

the bulk of Irish volunteers who fought in the British army during the First World War and Sir Roger Casement described them as being not Irishmen but English soldiers In this book the case of an illiterate general laborer born in 1876 in Waterford city who enlisted in the 16th Irish Division is used to study the motivation of Catholics enlisting in the British army and to assess the credibility of Casement s judgment which the book argues is too simplistic The decision to enlist resulted from a complex range of external social economic and political pressures to which men were subjected during the course of their lifetimes These are examined in detail and arguments are supported with graphs charts tables and numerical

calculations The case of the men enlisting in the British army is considered from three perspectives via a study of Waterford's community as representative of the social economic and political relationships of southern Ireland as a whole through the presentation of ground breaking evidence and analysis of more immediate reasons for enlistment through an examination of why having enlisted Irishmen remained loyal to the British army and the 16th Irish Division in particular **OBC,**
