Seeing Through Photographs:

Philosophy of Film and Motion Pictures Noël Carroll, Jinhee Choi, 2009-02-09 Designed for classroom use this authoritative anthology presents key selections from the best contemporary work in philosophy of film. The featured essays have been specially chosen for their clarity, philosophical depth, and consonance with the current movement towards cognitive film theory. Eight sections with introductions cover topics such as the nature of film, film as art, documentary, cinema, narration, and emotion in film, film criticism, and film's relation to knowledge and morality. Issues addressed include the objectivity of documentary films, fear of movie monsters, and moral questions surrounding the viewing of pornography. Replete with examples and discussion of moving pictures throughout.

On Photography Diarmuid Costello, 2017-09-22 What is photography? Is it a source of knowledge or an art? Many have said the former because it records the world automatically; others the latter because it expresses human subjectivity. Can photography be both, or must we choose? In *On Photography: A Philosophical Inquiry*, Diarmuid Costello examines these fascinating questions and more, drawing on images by Alfred Stieglitz, Berenice Abbott, Paul Strand, Lee Friedlander, James Welling, and Wolfgang Tillmans, among others, and the writings of Elizabeth Eastlake, Peter Henry Emerson, Edward Weston, Siegfried Kracauer, André Bazin, and Stanley Cavell. This sets the scene for the contemporary stand-off between sceptical and non-sceptical Orthodoxy in the work of Roger Scruton and Kendall Walton, and a New Theory of Photography taking its cue from László Moholy-Nagy and Patrick Maynard. Written in a clear and engaging style, *On Photography* is essential reading for anyone interested in the philosophy of photography, aesthetics, art, and visual studies.

The Routledge Companion to Aesthetics Berys Gaut, Dominic Lopes, 2013-04-17 The third edition of the acclaimed *Routledge Companion to Aesthetics* contains over sixty chapters written by leading international scholars covering all aspects of aesthetics. This companion opens with an historical overview of aesthetics, including entries on Plato, Aristotle, Kant, Nietzsche, Heidegger, Adorno, Benjamin, Foucault, Goodman, and Wollheim. The second part covers the central concepts and theories of aesthetics, including the definitions of art, taste, the value of art, beauty, imagination, fiction, narrative, metaphor, and pictorial representation. Part three is devoted to issues and challenges in aesthetics, including art and ethics, art and religion, creativity, environmental aesthetics, and feminist aesthetics. The final part addresses the individual arts, including music, photography, film, videogames, literature, theater, dance, architecture, and design. With ten new entries and revisions and updated suggestions for further reading throughout, *The Routledge Companion to Aesthetics* is essential for anyone interested in aesthetics, art, literature, and visual studies.

Marvelous Images Kendall Walton, 2008-04-23 The twelve essays by Kendall Walton in this volume address a broad range of theoretical issues concerning the arts. Many of them apply to the arts generally, to literature, theater, film, music, and the visual arts, but several focus primarily on pictorial representation or photography. In *How Marvelous: Toward a Theory of Aesthetic Value*, Walton introduces an innovative account of aesthetic value, and in this and other essays he explores relations between aesthetic

value and values of other kinds especially moral values Two of the essays take on what has come to be called imaginative resistance a cluster of puzzles that arise when works of fiction ask us to imagine or to accept as true in a fiction moral propositions that we find reprehensible in real life Transparent Pictures Walton s classic and controversial account of what is special about photographic pictures is included along with a new essay on a curious but rarely noticed feature of photographs and other still pictures the fact that a depiction of a momentary state of an object in motion allows viewers to observe that state in imagination for an extended period of time Two older essays round out the collection another classic Categories of Art and a less well known essay Style and the Products and Processes of Art which examines the role of appreciators impressions of how a work of art came about in understanding and appreciation None of the reprinted essays is abridged and new postscripts have been added to several of them

The Double Content Of Art John Dilworth,2004-12 In this original work on aesthetics philosopher John Dilworth offers an unusual theory of the nature of artworks The Double Content DC view is the first comprehensive theory of art that is able to satisfactorily explain the nature of all kinds of artworks in a unified way whether paintings novels or musical and theatrical performances Dilworth s basic thesis is that all such representational artworks involve two levels or kinds of representation a first stage in which a concrete artifact represents an artwork and a second stage in which that artwork in turn represents its subject matter Thus Dilworth describes his approach as a double content DC theory since arguably all content is the content of some representation or other This fresh even revolutionary approach to art meets strong initial opposition from other current theories of art for example those that treat paintings as physical objects or novels and other works of fiction as types that have copies or performances as instances

Wartenberg, 2016-01-08 Philosophy and Film moves from broad theoretical reflections on film as a medium to concrete examinations of individual films **Fiction and Imagination in Early Cinema** Mario Sluiter, 2019-11-28 Shortlisted for the BAFTSS Best Monograph Award 2021 When watching the latest instalment of Batman it is perfectly normal to say that we see Batman fighting Bane or that we see Bruce Wayne making love to Miranda Tate We would not say that we see Christian Bale dressed up as Batman going through the motions of punching Tom Hardy dressed up as Bane Nor do we say that we see Christian Bale pretending to be Bruce Wayne

making love with Marion Cotillard who is playacting the role Miranda Tate But if we look at the history of cinema and consider contemporary reviews from the early days of the medium we see that people thought precisely in this way about early film They spoke of film as no more than documentary recordings of actors performing on set In an innovative combination of philosophical aesthetics and new cinema history Mario Slušan investigates how our default imaginative engagement with film changed over the first two decades of cinema It addresses not only the importance of imagination for the understanding of early cinema but also contributes to our understanding of what it means for a representational medium to produce fictions Specifically Slušan argues that cinema provides a better model for understanding fiction than literature
