Just in time for the first Supreme Court confirmation of the Obama administration one of America s most insightful legal commentators updates the critically acclaimed Confirmation Wars Preserving Independent Courts in Angry Times to place the nomination of Judge Sonia Sotomayor in the context of the changing nature of judicial nominations by recent presidents Our system has gone from one in which people like Sotomayor or recent highly qualified nominees like John Roberts and Samuel Alito are shoe ins for confirmation to a system in which they are shoe ins for confirmation confrontations While rejecting parodies offered by both the Right and Left of the decline of the process by which the United States Senate confirms or rejects the president s nominees to the federal judiciary Wittes explains why and how this change took place He argues that the trade has been a bad one offering only the crudest check on executive appointments to the judiciary and putting nominees in the most

untenable and unfair situations Published in cooperation with the Hoover Institution **Courts and Judicial Policymaking** Christopher P. Banks, David M. O'Brien, 2008 For courses in courts and the judicial process and law and society The scope of its coverage and its high academic quality makes it attractive for graduate courses as well Christopher P Banks and David M O'Brien wrote *Courts and Judicial Policymaking* to fill a need for a comprehensive textbook on law and judicial policymaking The text provides a fresh perspective on the contemporary politics of law courts the legal profession and judicial policymaking often with an underlying comparative judicial process perspective It covers four distinct areas 1 What is law 2 How are courts organized and how do they work procedurally 3 What influences court access and ultimately judicial decision making and 4 How do courts make policy and how is judicial authority constrained It has relevant and contemporary analyses of literature from the political science and legal fields and analyses from scholars who argue from the quantitative attitudinal and strategic models and the qualitative new institutionalism perspectives It contains up to date charts and graphs on the organization of courts and trends in litigation caseloads and opinion writing and it is appropriate for undergraduate and graduate classes Feedback includes The book is extremely well written and organized one of the smoothest textbooks I have read in terms of readability The tables provided are a major selling point for the book nicely summarize complex and often confusing materials Roger Handberg University of Central Florida The best feature of this manuscript is its thorough coverage of the subject matter as well as the in depth analysis of specific topics and questions addressed in the boxed material and sidebars Adding a comparative dimension by looking at the judicial systems and procedures of other countries is also quite novel Susan Mezey Loyola University Chicago **Justices and Journalists** Richard Davis, David Taras, 2017-02-02 A key intermediary between courts and the public are the journalists who monitor the actions of justices and report their decisions pronouncements and proclivities *Justices and Journalists The Global Perspective* is the first volume of its kind a comparative analysis of the relationship between supreme courts and the press who cover them Understanding this relationship is critical in a digital media age when government transparency is increasingly demanded by the public and judicial actions are the subject of press and public scrutiny Richard Davis and David Taras take a comparative look at how justices in countries around the world relate to the media the interactive points between the courts and the press the roles of television and the digital media and the future of the relationship **Setting the Record Straight** United States. Congress. Senate. Committee on the Judiciary, 2003 *Nomination of Robert H. Bork to be Associate Justice of the Supreme Court of the United States* United States. Congress. Senate. Committee on the Judiciary, 1989 *The Next Justice* Christopher L. Eisgruber, 2009-05-18 The Supreme Court appointments process is broken and the timing couldn't be worse for liberals or conservatives The Court is just one more solid conservative justice away from an ideological sea change a hard right turn on an array of issues that affect every American from abortion to environmental protection But neither those who look at this prospect with pleasure nor those who view it with horror will be able to make informed judgments about the next nominee to

the Court unless the appointments process is fixed now In *The Next Justice* Christopher Eisgruber boldly proposes a way to do just that He describes a new and better manner of deliberating about who should serve on the Court an approach that puts the burden on nominees to show that their judicial philosophies and politics are acceptable to senators and citizens alike And he makes a new case for the virtue of judicial moderates Long on partisan rancor and short on serious discussion today s appointments process reveals little about what kind of judge a nominee might make Eisgruber argues that the solution is to investigate how nominees would answer a basic question about the Court s role When and why is it beneficial for judges to trump the decisions of elected officials Through an examination of the politics and history of the Court Eisgruber demonstrates that pursuing this question would reveal far more about nominees than do other tactics such as investigating their views of specific precedents or the framers intentions Written with great clarity and energy *The Next Justice* provides a welcome exit from the uninformative political theater of the current appointments process *Nomination of Robert H. Bork to be Associate Justice of the United States Supreme Court* United States. Congress. Senate. Committee on the Judiciary,1987 *Speed of Presidential and Senate Actions on Supreme Court Nominations, 1900 - 2010* R.
