Deslandes, 2021-12-20 A heavily illustrated history of two centuries of male beauty in British culture. Spanning the decades from the rise of photography to the age of the selfie, this book traces the complex visual and consumer cultures that shaped masculine beauty in Britain, examining the realms of advertising, health, pornography, psychology, sport, and celebrity culture. Paul R. Deslandes chronicles the shifting standards of male beauty in British culture from the rising cult of the athlete to changing views on hairlessness, while connecting discussions of youth, fitness, and beauty to growing concerns about race, empire, and degeneracy. From earlier beauty show contestants and youth-obsessed artists, the book moves through the decades into considerations of disfigured soldiers, physique models, body-conscious gay men, and celebrities such as David Beckham and David Gandy who populate the worlds of television and social media. Deslandes calls on historians to take beauty and gendered aesthetics seriously while recasting how we think about the place of physical appearance in historical study, the intersection of different forms of high and popular culture, and what has been at stake for men in looking good. Environmental Jurisprudence in India C.M. Abraham, 2023-12-11 Within the last two decades India has not only enacted specific legislation on environmental protection but has also virtually created a new fundamental right to a clean environment in the Constitution The models and methods adopted in the Indian context appear at first sight similar to those in other common law systems Yet there are many subtle differences which have changed the structure and content of legal development in India Indian environmental jurisprudence brings out the unique characteristics of a new legal order which has gradually been established in India The distinguishing nature of this jurisprudence as this book shows in detail has three interconnected elements First the nature of the new Indian constitutional law regime accords greater importance to public

concerns than protecting private interests Secondly this jurisprudential development reflects certain aspects of Indian legal culture through implicit and explicit reliance on autochthonous values and concepts of law encapsulated in the Indian juristic postulate of dharma Thirdly the emerging Indian environmental jurisprudence bears testimony to the activist role of the Indian judiciary which has also had a significant impact in many areas other than environmental law In short the development of environmental jurisprudence in India manifests neo dharmic jurisprudence in postmodern public law It accommodates ideas currently voiced by experts around the world for protecting the environment in forms modified by the Indian legal culture
