Segunda Piel:

Teoría transcultural del arte Adolfo Colombres, 2005 El autor pretende elaborar una teoría transdisciplinaria del arte desde la periferia considerando que la estética occidental no ha confrontado sus conceptos y modelos con los de otros pueblos y ha preferido imponerlos como un discurso único que no ha servido generalmente para comprender la producción simbólica ajena sino para oscurecerla para borrar o devaluar los sentidos que los otros habrían construido a lo largo de una historia a menudo milenaria

Framing Majismo Tara Zanardi, 2016-03-08 Majismo a cultural phenomenon that embodied the popular aesthetic in Spain from the second half of the eighteenth century served as a vehicle to regain Spanish heritage As expressed in visual representations of popular types participating in traditional customs and wearing garments viewed as historically Spanish majismo conferred on Spanish citizens the pictorial ideal of a shared national character In Framing Majismo Tara Zanardi explores nobles fascination with and appropriation of the practices and types associated with majismo as well as how this connection cultivated the formation of an elite Spanish identity in the late 1700s and aided the Bourbons objective to fashion themselves as the legitimate rulers of Spain In particular the book considers artistic and literary representations of the majo and the maja purportedly native types who embodied and performed uniquely Spanish characteristics Such visual examples of majismo emerge as critical and contentious sites for navigating eighteenth century conceptions of gender national character and noble identity Zanardi also examines how these bodies were contrasted with those regarded as foreign finding that foreign and national bodies were frequently described and depicted in similar ways She isolates and uncovers the nuances of bodily representation ultimately showing how the body and the emergent nation were mutually constructed at a critical historical moment for both

Halaburda, Daniel Link, Denilson Lopes, Andrés Mendieta, Sylvia Molloy, Thomas Matusiak, Graciela Montaldo, Sophia Blea Núñez, Luis Pérez-Oramas, Gina Saraceni, Juan Pablo Sutherland, 2025. La masculinidad se funde en la idea de que el cuerpo del hombre se corresponde con el lugar del original, era principio de la materia constituida su primera piel. No obstante, esta no siempre fue percibida como *statu quo* del cuerpo. Dicha ilusión de naturaleza, la idea de que el hombre ocupa el lugar de cuerpo neutro o incluso la percepción de que su cuerpo es un componente implícito o del todo ausente en la idea de la masculinidad, forma parte de un grupo de operaciones performativas que ha necesitado tiempo para perpetrarse. Drag Kings, arqueología crítica de masculinidades espectaculares en Latinx América, se propone discutir el porvenir del género en el espacio desigual, plural y contradictorio que hemos llamado Latinx América. Partiendo del drag king show y de lo que proponemos como masculinidad espectacular, aquella masculinidad hiperbólica que usurpa el espacio de privilegio y centralidad que se le otorga a la masculinidad del hombre, planteamos una sistemática arqueología de la puesta en
