Sei Solo A Violino:

Sei Solo: Symbolum? Benjamin Jeffery Shute, 2016-06-16 One of the jewels in the crown of Johann Sebastian Bach s sacred music is its use of astonishingly subtle and complex allegorical and representational devices But when similar devices appear in the context of one of Bach's untexted secular instrumental collections such as the Six Solos sonatas and partitas for violin the question arises whether he might be intending to embed discernible theological significances there as well thus infusing the secular with the sacred Such designs would be reasonably plausible within Bach's musical cultural and religious context Shute carefully investigates the extent to which musical features of the Six Solos that seem to invite theological parallels might indeed have been intended to do so Although the precise extent of Bach's intentions cannot be ascertained with certainty the degree of correlation among strong potential signifiers would seem to suggest that they and many other features of the Six Solos are best explained as the product of extensive theological allegorical designs on Bach's part like those evident in his texted vocal music Bach's Works for Solo Violin Joel Lester, 2003-11-27 J S Bach s sonatas and partitas for solo violin have been central to the violin repertoire since the mid 18th century. This engaging introduction to these works is the first comprehensive exploration of their place within Bach's music focusing on their structural and stylistic features as they have been perceived since their creation Combining an analytical study a historical guide and an insightful introduction to Bach's style this book will help violinists scholars and other listeners develop a deeper personal involvement with many aspects of these wonderful pieces J.S. Bach: Violin Sonatas BWV 1001, 1003, 1005 Johann Sebastian Bach, Nicholas Goluses, 2014-08-26 Classical guitarists both students and professional performers require the same high quality editions that their pianist colleagues have come to expect from Alfred Music Our Classical Guitar Masterworks Editions continue the Alfred Music tradition of providing carefully edited beautifully presented music for practice and performance This edition of J S Bach's masterpieces for solo violin artfully transcribed for classical guitar by renowned performer recording artist and pedagogue Nicholas Goluses is an essential addition to any classical guitarist s library Including a thoughtful scholarly preface on the art of transcribing Bach for the guitar drawn from Goluses doctoral dissertation studying this edition will be edifying for any serious classical quitarist Goluses approach to putting these pieces on the guitar and his thoughtful fingerings will help overcome the complexities of playing this important and challenging The Baroque Violin & Viola, vol. Bach to M. Alunno (1972-) Michael Maul, Alberto Nones, 2020-02-04 Today Bach is one of the most revered and studied figures of classical music despite there being a time in which he was almost forgotten Divided into two sections this volume explores research on J S Bach and more broadly examines the topics of music and performance studies with the latter focusing on composers active today such as Marco Alunno or those from the recent past who are lesser known and performed such as Pietro Cimara and Leo Ornstein Following from Nones s ed previous publication Music as Communication Perspectives on Music Image and Performance ABE 2018 this work provides a rather unique contribution as a choral attempt at exploring performance today The intention of this book and the downloadable audio content with live recordings of the music explored at the conference from which the volume originated is to inspire fresh approaches to the study of a monument like Bach while also encouraging original research of modern composition and performance Recordings of the performances given over the two days of the conference serve either to clarify arguments made in the papers or to attest to the music explored more generally This volume is founded on the belief that the history of music is comprised of many figures some of whom are undeservedly forgotten and that our understanding of and approach to music is simultaneously shaped by the past and directed by the continual evolution of sounds and attitudes of the present Examining music styles from baroque Bach to contemporary Alunno Forms of Performance will be of particular interest to Bach and performance studies scholars as well
