Malmstad, 2019-05-15 No figure in turn of the century Russia John Malmstad asserts better epitomizes the paradoxes of that era than Andrey Bely 1880 1934 Eulogized by Boris Pasternak as the most remarkable writer of our age and now widely regarded as the seminal figure in Russian modernism and as one of the major writers of this century Bely subjected the received standards of truth and value in

**The Stony Dance** Timothy Langen, 2005-07-22 Widely considered the greatest Russian modernist novel Andrei Bely's Petersburg has until now eluded the critical attention that a book of its caliber merits In The Stony Dance Timothy Langen offers readers a study of Bely's masterpiece unparalleled in its comprehensiveness clarity and inclusion of detail a critical study that is at the same time a

meditation on the nature of literary art Thoroughly versed in Russian and European modernism in Bely's biography and writings and in twentieth century literary theory Langen constructs an original analytic scheme for reading Petersburg Guided by Bely's fertile but challenging notions of art and philosophy he analyzes the novel first as an object embodying intentions and essences then as a pattern of signification and events and finally as a dance of gestures that coordinate body and meaning regularity and surprise self and other and author novel and reader The terms are derived from Bely's own writings but they are nuanced with reference to Russian and European contexts and clarified with reference to philosophy and literary theory Langen shows how Bely invariably challenges his own concepts and patterns thereby creating an unusually demanding and dynamic text In finding an approach to these enriching difficulties this book at long last shows readers a welcoming way into Bely's thought and his masterwork and their place in the complex world of early twentieth century literature

*DADA, Surrealism, and the Cinematic Effect* R. Bruce Elder, 2015-10-15 This book deals with the early intellectual reception of the cinema and the manner in which art theorists philosophers cultural theorists and especially artists of the first decades of the twentieth century responded to its advent While the idea persists that early writers on film were troubled by the cinema's lowly form this work proposes that there was another largely unrecognized strain in the reception of it Far from anxious about film's provenance in popular entertainment some writers and artists proclaimed that the cinema was the most important art for the moderns as it exemplified the vibrancy of contemporary life This view of the cinema was especially common among those whose commitments were to advanced artistic practices Their notions about how to recast the art media or the forms forged from those media's materials and the urgency of doing so formed the principal part of the conceptual core of the artistic programs advanced by the vanguard art movements of the first half of the twentieth century This book a companion to the author's previous *Harmony Dissent* examines the Dada and Surrealist movements as responses to the advent of the cinema
