The Book of Nature Barbara Mahany, 2023-03-21 We live inside a nautilus of prayer if only we open our senses and perceive what is infused all around Throughout millennia and across the monotheistic religions the natural was often revered as a sacred text By the Middle Ages this text was given a name The Book of Nature the first best entry point for encounter with the divine The very act of reading the world of focusing our attention on each twinkling star and unfurling blossom humbles us and draws us into sacred encounter As we grapple to make sense of today's tumultuous world one where nature is at once a damaged and damaging source of disaster as well as a place of refuge and retreat we are called again to examine how generously it awaits our attention and devotion standing ready to be read by all Weaving together the astonishments of science the profound wisdom and literary gems of thinkers poets and observers who have come before us and her own spiritual practice and gentle observation Barbara Mahany reintroduces us to The Book of Nature an experiential framework of the divine God's first

revelation came to us through an ongoing creation one that through stillness and attentiveness to the rumblings of the heavens the seasonal eruptions of earth the invisible pull of migration of tide and of celestial shiftings draws us into sacred encounter We needn't look farther for the divine

The Great Conversation Belden C. Lane, 2019-05-01 We are surrounded by a world that talks but we don't listen We are part of a community engaged in a vast conversation but we deny our role in it In the face of climate change species loss and vast environmental destruction the ability to stand in the flow of the great conversation of all creatures and the earth can feel utterly lost to the human race But Belden C Lane suggests that it can and must be recovered not only for the sake of endangered species and the well being of at risk communities but for the survival of the world itself The Great Conversation is Lane's multi-faceted treatise on a spiritually centered environmentalism At the core is a belief in the power of the natural world to act as teacher In a series of personal anecdotes Lane pairs his own experiences in the wild with the writings of saints and sages from a wide range of religious traditions A night in a Missourian cave brings to mind the Spiritual Exercises of Ignatius of Loyola the canyons of southern Utah elicit a response from the Chinese philosopher Laozi 500 000 migrating sandhill cranes rest in Nebraska and evoke the Sufi poet Farid ud Din Attar With each chapter the humility of spiritual masters through the ages melds with the author's encounters with natural teachers to offer guidance for entering once more into a conversation with the world

Hints Toward Reforms, in Lectures, Addresses, and Other Writings Horace Greeley, 1850

Hints towards reforms in lectures, addresses and other writings Horace

Greeley,1850 *Prose Poetry in Theory and Practice* Anne Caldwell,Oz Hardwick,2022-06-01 Prose Poetry in Theory and Practice vigorously engages with the Why and the How of prose poetry a form that is currently enjoying a surge in popularity With contributions by both practitioners and academics this volume seeks to explore how its distinctive properties guide both writer and reader and to address why this form is so well suited to the early twenty first century With discussion of both classic and less well known writers the essays both illuminate prose poetry s distinctive features and explore how this outsider form can offer a unique way of viewing and describing the uncertainties and instabilities which shape our identities and our relationships with our surroundings in the early twenty first century Combining insights on the theory and practice of prose poetry Prose Poetry in Theory and Practice offers a timely and valuable contribution to the development of the form and its appreciation amongst practitioners and scholars alike Largely approached from a practitioner perspective this collection provides vivid snapshots of contemporary debates within the prose poetry field while actively contributing to the poetics and craft of the form **Replenish** Sandra Postel,2017-10-10 Nothing is more important to life than water and no one knows water better than Sandra Postel Replenish is a wise sobering but ultimately hopeful book Elizabeth Kolbert Remarkable New York Times Book Review Clear eyed treatise Postel makes her case eloquently Booklist starred review An informative purposeful argument Kirkus We spend billions of dollars on irrigation dams sanitation plants and other feats of engineering to control water for our own prosperity What if the answer was not control but replenishment Sandra Postel takes readers around the world to explore water projects that work with rather than against nature s rhythms Forest rehabilitation is safeguarding drinking water farmers are planting cover crops to reduce polluted runoff and sponge cities are capturing rainwater to curb urban flooding Postel argues that efforts like these will be essential as we adjust to a hotter wilder climate Will we continue to fight the water cycle endangering ourselves and the planet or recognize our place in it and take advantage of the inherent services nature offers
