The Michigan Historical Review, 2002 **Emotions and Crime** Michael Hviid Jacobsen, Sandra Walklate, 2019-06-11 In spite of the fact that crime is an emotive topic the question of emotion has been largely overlooked in criminological research which has tended instead to examine criminal conduct in terms of structural background variables or rational decision making Building on research into emotions within sociology this book seeks to show how criminologists can in fact take emotions seriously and why criminology needs to begin considering emotions as a central element of its theoretical conceptual and methodological apparatus Thematically organised and presenting both empirical and theoretical studies *Emotions and Crime* pays attention to the different emotional dimensions of crime victimhood the criminal justice system the practice of criminological research and the discipline of criminology Bringing together the work of an international team of authors and discussing research into violence punishment gender imprisonment and mass atrocity this volume shows how crime and emotions are inextricably connected and illustrates both the hidden and pervasive role of emotions in criminological work *Fomenting Political Violence* Steffen Krüger, Karl Figlio, Barry Richards, 2018-12-30 This book offers a psychosocial perspective on political violence employing a strong current of psychoanalytic thinking In the course of its

chapters an international roster of researchers and scholars offers a richly complex and insightful view of diverse forms of political violence and its build ups The authors discuss the processes by which the ground for political violence is prepared and how violent acts are facilitated They question how social cultural and political constellations can develop in such a way that for certain people in this constellation violence becomes a logical perversely reasonable response This collection demonstrates what a psychoanalytic perspective can bring to existing approaches to political violence going beyond the social movement approach by unfolding the inherent ambiguity in accepted concepts within the study of political violence
