## **Long Way Home The Real People:**

*The Long Way Home* Alexander Grant, 2025-11-08 When Ethan Harper's marriage ends he retreats to a quiet seaside town hoping to rediscover the version of himself he's long forgotten. The ocean is meant to be his refuge until he meets Leo, a young barista whose warmth and easy charm make the world start to feel alive again. What begins as simple conversation turns into something deeper, a connection that both soothes and unsettles him. With every lingering glance and late afternoon walk along the pier, Ethan finds himself pulled toward a truth he's spent a lifetime avoiding. Set against the golden light of a coastal town where time seems to stand still, *The Long Way Home* is a slow burn, age gap love story about rediscovery, second chances, and the kind of attraction that feels like coming up for air after years underwater. [Long Way Home](#) Lynn Austin, 2022 Peggy Serrano couldn't wait for her best friend to come home from the war. But the Jimmy Barnett who returns is much different from the Jimmy who left, changed so drastically by his experience that he can barely function. When he attempts the unthinkable and his parents check him into the VA hospital, Peggy determines to help the Barnetts unravel what might have happened to send their son over the edge, starting by contacting Jimmy's war buddies and trying to identify the mysterious woman in the photo they find in Jimmy's belongings. Seven years earlier, sensing the rising tide against her people, Gisela Wolff and her family flee Germany aboard the passenger ship *St. Louis*, bound for Havana, Cuba. Gisela meets Sam Shapiro, the love of her life, on board, but the ship is eventually denied safe harbor and sent back to Europe. This begins Gisela's perilous journey of exile and survival, made possible only by the kindness and courage of a series of strangers she meets along the way, including one man who will change the course of her life. [The Long Way Home](#) Madison Bennett, 2010-07-29 *The Long Way Home* is the touching and heart-felt journey of Ellen Curtis, a middle-aged woman suddenly replaced by a younger version of herself after years of marriage. Ellen will spend the next six years devoting all of her time to her children and her nursing career. Now that her children are older, it's time for Ellen to begin her own life, and she boldly moves from the Midwest to Arizona. At forty-eight, she finds that the art of dating isn't like it used to be. With the encouragement of her mother and her children, Ellen tests out the waters of internet dating and in the process learns to laugh again. Over time, the strong, confident, and feminine woman within her begins to emerge, and Ellen finds that she is once again ready to love and be loved. She meets Michael, a handsome, successful investment broker who charms his way into her heart. In Michael, Ellen would experience a once-in-a-lifetime love affair, only to have it taken from her. Will she ever be able to find the peace and forgiveness she so desperately searched for? Ellen will discover the answer while taking the long way home.

Interstellar medic Melanie Mooney races against time to save her patients while unraveling cosmic mysteries and navigating the dangers of space, all while longing for the Earth she left behind. Find a Way Home. Everything is relative, Einstein said so. After years of traversing the galaxy as an emergency medic, Melanie Mooney is learning this in a personal way. With each run to a far-flung star system, she is taken ever farther from her former life and not only in distance. The penalty for zipping around the galaxy at light speed means time is moving slower for her than it is back home, and the difference is adding up. If Melanie ever hopes to return, she must do so before the Earth she knew becomes as unrecognizable to her as the alien worlds of the Galactic Union. Intergalactic travel is expensive, far beyond anything Melanie can afford with her Medical Corps pay. There may yet be a way to not only get a free ride home but in a manner that would avoid the pernicious effects of relativity. It's risky and will force Melanie to place her trust in some unsavory characters, including the last person in the galaxy she wants to be caught dead with. The trick will be not getting caught dead or hopelessly lost in dimensions of the universe where no human or alien belongs. That's a lot for a woman who just wants to go home. At the publisher's request, this title is sold without DRM (Digital Rights Management). Praise for *Interstellar Medic*. *The Long Run*. The adventure and alien culture encounters power a vivid tale that blends wry humor with action that sci-fi readers will find refreshingly different from traditional genre reads and hard to put down. Midwest Book Review. Praise for *Frontier*. Reading through the book, it is very clear just how ripped from the headlines this book really is. *Frontier* is an enjoyable near-future science-fiction thriller with a lightning-fast plot that feels like something that could be seen within the next hundred years. Warped Factor. Praise for *Frozen Orbit*. *Eccentric Orbits*, book one. The story moves quickly with elements of both a spy thriller and a space race. *Frozen Orbit* could make for an impressive movie, one that would stand with greats such as *Contact* or *Interstellar*. Booklist. Hard science fiction and an entertaining and gripping plot. Chiles nails the atmosphere of a NASA-run human spaceflight mission in the 21st century, the jargon of the mission controllers and astronauts, and the bureaucratic infighting characterizing today's NASA. The scenario and background are the scaffolding on which a gripping tale is formed. Readers experience the wonder the astronauts feel on a remarkable voyage, groan as the Earth goes crazy as the expedition progresses, and thrill to a powerful conclusion. science fiction at its best. The Galveston County Daily News. Praise for *Farside* by Patrick Chiles. The

situations are realistic the characters interesting the perils harrowing and the stakes could not be higher John Walker Ricochet com a fast paced and exciting story that bounces between the borders of technological thriller and science fiction an impressive effort The Galveston County Daily News Praise for Patrick Chiles Chiles puts his military and aviation experience to good use writing science fiction with a hard edge of realism Technology we could build now and situations we re likely to face when we use it combine to give Chiles worlds and characters a verisimilitude that draws you in Rick Partlow best selling author of the Drop Troopers series
