The Afghanistan Wars William Maley, 2020-11-03 A whole generation has grown up in Afghanistan knowing little but the ravages of war The dramatic overthrow of the Taliban regime in 2001 was simply one event in a series of interrelated struggles which have blighted ordinary people's lives over the last three decades and which continue to interfere with reconciliation and reconstruction This new edition of *The Afghanistan Wars* provides a meticulously documented history of these successive waves of conflict From the roots of Afghanistan's slide into disorder in the late 1970s to the challenges faced by Afghan leaders following the substantial withdrawal of international forces in 2014 it explores military and diplomatic history while also offering valuable insight on humanitarian action gender medical and cultural themes Thoroughly revised in the light of the latest research the third edition also features a new final chapter which examines recent developments in Afghanistan bringing the story up to the present day and mounting a strong case for continuing support for this troubled country New to this Edition A final chapter on the recent developments in Afghanistan up to the present day Revised to take into account the considerable amount of new material published on this topic since 2009 Refreshed and updated throughout

Identity and Memory in Post-Soviet Central Asia Timur Dadabaev, 2015-08-11 Central Asian states have experienced a number of historical changes that have challenged their traditional societies and lifestyles The most significant changes occurred as a result of the revolution in 1917 the incorporation of the region into the Soviet Union and gaining independence after the collapse of the USSR Impartial and informed public evaluation of the Soviet and post Soviet periods has always been a complicated issue and the official descriptions have often contradicted the interpretations of the past viewed through the experiences of ordinary people *Identity and Memory in Post Soviet Central Asia* looks at the tradition of history construction in Central Asia By collecting views of the public's experiences of the Soviet past in Uzbekistan the author examines the transformation of present day Central Asia from the perspective of these personal memories and analyses how they relate to the Soviet and post Soviet official descriptions of Soviet life The book discusses that the way in which people in Central Asia reconcile their Soviet past to a great extent refers to the three fold process of recollecting their everyday experiences reflecting on their past from the perspective of their post Soviet present and re imagining These three elements influence memories and lead to selectivity in memory construction emphasising the aspects of the Soviet era people choose to recall in positive and negative lights Presenting a broader picture of Soviet everyday life at the periphery of the USSR the book will be a useful contribution for students and scholars of Central Asian Studies Ethnicity and Identity Politics

A Political and Diplomatic History of Afghanistan, 1863-1901 Mohammad Hassan Kakar, 2006-05-01 This political and diplomatic history of late nineteenth century Afghanistan and its major ethnic groups lays bare how the ground was laid for the emergence of Afghanistan as a nation state as well as for the implementation of schemes of modernization It describes how Amir Sher Ali Khan and more fully Amir Abd al Rahman Khan for the first time consolidated

the authority of the central government at the expense of the traditional autonomous local magnates and thus managed to organize a centralized monarchical state and extend its direct rule throughout Afghanistan. They did so in the days of what has become known as The Great Game for the mastery of Central Asian states. Although The Great Game resulted in the reduction of Afghanistan in size, it also led to the clear demarcation of its boundaries in accordance with international agreements.

Ethnicity, Authority and Power in Central Asia Robert L. Canfield, Gabriele Rasuly-Paleczek, 2010-10-04 This book examines the perspectives and issues of variously situated peoples in Greater Central Asia in terms of four major issues: government repression, ethnic group perspectives, devices of mutual support and informal grounds of authority and influence. Responding to the need for in-depth studies concerning the social structures and practices in the region, it provides a distinctive, timely insight into this increasingly influential part of the world.

Migration from Central Asia Çağla Gül Yesevi, 2023-12-19 Migration from Central Asia analyzes migration from Turkestan to Türkiye, Saudi Arabia and the United States and the identity formation of these people living in different countries. It also deals with younger generations and their views about homeland, sense of belonging and identity. Using oral history methods, the book focuses on migrants from Turkestan in the 1930s. The book includes in-depth interviews as well as short surveys with those who migrated and their children. Focusing on what families experienced during migration, how they made their living, how they lived in these different countries and how they preserved their language, traditions and culture, the author presents an overall picture of these migrants and how and why language and traditions, which are central cultural elements, have been preserved. The analysis in this book contextualizes the change in the structure of migration and identity formation and the emergence of the notion of Turkestanian migrants. It will be of interest to academics studying Turkish World Studies, Central Asian Studies and migration studies as well as identity and cultural studies, ethnic studies and nationalism.

Modern Afghanistan Amin Saikal,2004-08-27 Afghanistan s recent history is a sad one Soviet invasion in 1979 Pakistan backed internal conflict in the 1980s the Taliban regime and then the US invasion and the multi national occupation after the events of 11 September 2001 Why does Afghanistan remain so vulnerable to domestic instability foreign intervention and ideological extremism In reconstructing the tempestuous narrative of modern Afghanistan Amin Saikal provides a sweeping new understanding of its troubled past and present He identifies the country s inability to develop stable political structures as stemming from the inter dynastic rivalry complicated by polygamy that scarred successive royal families from the end of the eighteenth century until the pro Soviet Communist coup of April 1978 all exacerbated by foreign interventions feeding on fragile domestic structures and the rise and fall of different ideological streams Here for the first time is an up to date analysis of the era of the Taliban s rule the effects of US domination in the country and attempts to negotiate a US withdrawal including talks about talks with the Taliban themselves This book which sets the crisis of Afghanistan in the context of the country s modern history and social structures makes a major and highly original contribution towards a better and more nuanced understanding of this ill fated land It is the definitive study of Afghanistan and its troubles in national regional and international contexts from 1747 to the present day
