The Press and the Suburbs David B. Sachsman,2017-07-05 The changing economic and demographic patterns of the United States have many measurements few of them however are more comprehensive than the new circulation realities of the press This volume tells the story of the twenty six daily newspapers of New Jersey from the 1960s to the 1980s and in so doing tells the story of the rise of suburbia and the golden age of suburban journalism In an intense effort to keep pace with the changing location of their readers and most particularly with the upscale consumers the shift to the suburbs was marked by changes in news coverage advertising and promotion Though people have predicted the decline of newspaper business for more than fifty years they were proven wrong by the rise of the suburban press and by the survival of most newspapers urban and suburban alike through the 1980s and 1990s But in the twenty first century the news and information industry has changed and the national and international economy has faltered In his new preface David Sachsman takes the reader on a tour of what happened to each of the New Jersey daily newspapers since the publication of the original The twenty six newspapers studied have dwindled to sixteen and huge losses in circulation have caused drastic cutbacks and mergers The decline in New Jersey newspaper readership is part of a national trend This is an essential book for all American historians journalists and communication specialists

Art of Editing, The (Subscription) Brian S. Brooks, James L. Pinson, 2015-10-05 The Art of Editing continues to be the standard by which editing texts are judged offering the most comprehensive and up to date discussion of editing available Long viewed as the classic in the field of editing The Art of Editing continues to evolve to

meet the needs of today's students. In addition to a focus on traditional newspaper editing, the authors pay significant attention to the other areas in which students are increasingly finding jobs: online media, corporate magazines, broadcasting, public relations, and advertising. The ninth edition of *The Art of Editing* details the major changes revolutionizing the media industry and prepares students to work in convergent environments where skill in print, broadcast, and online operations is essential.

Going Long Jo McGinley, 2024-11-19 Improvisational comedy has exploded over the last several decades. But the short game-based version of improv as seen on shows like *Whose Line Is It Anyway?* is of little help when it comes to successfully pulling off long-form improvisation. Long-form provides exciting new challenges and opportunities for improvisational performers that go beyond comedy. It demands an expanded skill set, careful preparation, and genuine courage. Drawing on author Jo McGinley's more than thirty years of experience onstage and in the classroom, *Going Long* provides a clear and practical framework for both beginning and experienced improvisers. It includes mental exercises specifically developed for long-form work, best practices for rehearsals, and collaboration techniques for connecting with the audience. Tips on crafting stories within specific genres and principles for making in-the-moment decisions that support an overarching narrative.

Bureaucracy, Belonging, and the City in North India Michael S. Dodson, 2020-04-15 This book is a re-evaluation of modern urbanism and architecture and a history of urbanism, architecture, and local identity in colonial North India at the turn of the twentieth century. Focusing on Banaras and Jaunpur, two of northern India's most traditional cities, the book examines the workings of colonial bureaucracy in the cities and argues that interactions with the colonial state were an integral aspect of the ways that Indians created a sense of their own personal investment in the city in which they lived. The book explores the everyday and the mundane to better understand the limits of British colonial power and the role of Indians themselves in the making of the modern city. Based on highly localized archival source material, the author analyses two key aspects of city-making in this era: the building of new infrastructure such as water supply and sewerage, and new policies governing historical architectural conservation. The book also incorporates an ethnography of contemporary urban space in these cities to advocate for a more nuanced and responsible approach to writing the history of such cities and to address the myriad problems of present-day North Indian urbanism. Containing examples of bureaucratic procedure and its contradictions, and enlivened by a set of personal reflections and narratives of the author's own experiences, this book is a valuable addition to the field of South Asian Studies, Asian History, and Asian Culture, and Society, Colonial History, and Urban History.
