

Longevity And Quality Of Life

Abbott L. Ferriss

Longevity And Quality Of Life:

Longevity and Quality of Life Robert N. Butler, Claude Jasmin, 2000-04-30 Nations around the world are experiencing a spectacular increase in longevity. Society as a whole is being challenged by issues arising from this revolution in longevity. Although the specter of the loneliness and existential suffering of older citizens is such that some people under the age of 65 find it difficult to conceive of a long term future, persons over 85 have proven that aging does not necessarily preclude a healthy and productive life. Extraordinary progress in both curative and preventive medicine justifies optimism about the quality of life and state of well being that can be enjoyed even in great old age. We should look to professionals in diverse fields to develop creative solutions to the inevitable issues that will arise with aging. Governments must prepare for the future health of their citizens by making long term investments to educate all sectors of society in the value of good nutrition, exercise, and lifestyles that enhance well being throughout life. Also, governments should realize that the main cause of health care expenditure is serious illness which occurs in persons of all ages and not predominantly in older people. Early detection can help save lives as well. Health and longevity of life will ultimately end as a political issue. What is needed is long term government investments necessary for a viable health policy. The question arises: will world leaders be able to commit to such a policy? Two major socioeconomic phenomena may have a regulating effect on this issue. The first is the emergence of pressure groups that have come into being in response to a particular health issue such as AIDS. The second is the emergence of ethics committees in developed nations that deal solely with health issues.

Approaches to Improving the Quality of Life Abbott L. Ferriss, 2010-07-03 After measuring the Quality of Life and identifying the deficiencies in your community, what steps should you take to improve the Quality of Life? This volume reviews methods for improving the Quality of Life that are based upon improving each of the ten domains of the Quality of Life. Steps to improve health means of reducing environmental toxins, orientation to bring about better self concept and mental health, and so forth. In each such area, steps are set forth for eliminating undesirable and debilitating features of the domain. Social change comes about by the application of devised steps. The process has been called *telesis*. It is the application of intelligent, well tested interventions to bring about improvement. In some cases it may effect change quickly, and others may require a continuing process of adjustment and change. As a handbook for community workers, the volume provides a framework for intervention that could lead to a better tomorrow.

Handbook of Quality-of-Life Research M. Joseph Sirgy, 2013-04-18 This handbook provides students of quality of life (QOL) research with an understanding of how QOL research can be conducted from an ethical, marketing perspective, a perspective based on positive social change. The handbook covers theoretical, philosophical, and measurement issues in QOL research. The handbook also approaches selected QOL studies in relation to various populations in various life domains. The marketing approach is highly pragmatic because it allows social and behavioral scientists from any discipline to apply marketing concepts to plan social change and assess the impact of intervention strategies on the QOL.

of targeted populations Counseling Individuals Through the Lifespan Daniel W. Wong, Kimberly R. Hall, Cheryl A. Justice, Lucy Wong Hernandez, 2014-12-24 Organized around the latest CACREP Standards *Counseling Individuals Through the Lifespan* introduces readers to the fundamentals of the counseling process during each stage of human development Topics such as the client counselor relationship counseling theory research and interventions are addressed with a focus on caring for the total person within his/her environment and culture Emphasizing the importance of intentionality and self reflection the chapters include case illustrations and guided practice exercises to further the development of successful 21st century counselors *Counseling Individuals Through the Lifespan* is part of the SAGE Counseling and Professional Identity Series which targets specific competencies identified by CACREP Council for Accreditation of Counseling and Related Programs To learn more about each text in the series please visit www.sagepub.com/cpseries *The Psychology of Quality of Life* M. Joseph Sirgy, 2012-06-20 The second edition will be an update and further elaboration of the literature related to subjective well being happiness and life satisfaction It will have a new substantial section that focuses on reviewing much of the literature of subjective well being within specific life domains social life material life leisure life work life community life spiritual life family life health life sex life travel life etc In the 1st edition the research in these various life domains was discussed only briefly The second edition will maintain the same organizational structure of the first edition that is Part 1 will focus on introduction definitions and distinctions examples of measures of subjective well being happiness and life satisfaction and motives underlying subjective well being Part 2 will focus on psychological strategies that allow people to optimize subjective well being by engaging in psychological processes related to the relationship between and among life domains e.g. social life family life love life spiritual life community life financial life etc This part will contain four chapters related to these various inter domain processes bottom up spillover top down spillover horizontal spillover and compensation Part 3 of the book will focus on intra domain psychological strategies designed to optimize subjective well being These include re evaluation based on personal history re evaluation based on self concept re evaluation based on social comparison goal selection goal implementation and attainment and re appraisal Part 4 of the book will focus on balance processes how people attempt to create balance in their lives using psychological processes within specific life domains intra domain strategies and processes that relate one domain to another inter domain strategies Proceedings of the 1st International Conference on Lifespan Innovation (ICLI 2025) Wanus Srimaharaj, 2025-08-30 This book is an open access Welcome to the 1st International Conference on Lifespan Innovation ICLI 2025 which will be held fully online from June 12-13, 2025 hosted by Payap University in cooperation with international partners The conference theme Aging and Longevity An Interdisciplinary Approach to Enhancing Quality of Life brings together experts from various fields to share innovations and strategies related to aging As Payap University celebrates its 50th anniversary we are proud to host this event reflecting our longstanding commitment to addressing global challenges through interdisciplinary collaboration ICLI 2025 will feature five key tracks

including Health and Medicine Society and Humanities Business and Economics Technology and Psychology offering a platform for global discussion on aging and longevity

Longevity, Regeneration, and Optimal Health William C. Bushell, Erin L. Olivio, Neil D. Theise, 2009-09-21 A revolution is occurring in the Western science of longevity regeneration and health that is elucidating the potential for extended human lifespan in an optimal state of health This investigation is being conducted on the molecular cellular physiological and psychological levels Rigorous integrative medicine research can only be adequately developed if collaboration between scientists and practitioners from both fields is involved This volume brings together researchers and scholars from both the Indo Tibetan traditions and the international scientific community to open a dialogue about the potential to build a program of collaborative research to study the impact of Indo Tibetan practices on longevity and health Indo Tibetan Buddhism claims that its core of meditative yogic and related practices can potentially produce dramatic enhancements of physiological and psychological functioning and a substantial body of Western scientific evidence is supportive of these claims The evidence includes direct and indirect clinical medicine and data from basic science research in physiology neurobiology and medicine The reports in this volume establish a basis for a program of research that will advance our current understanding of longevity and health NOTE Annals volumes are available for sale as individual books or as a journal For information on institutional journal subscriptions please visit [www blackwellpublishing com nyas](http://www.blackwellpublishing.com/nyas) ACADEMY MEMBERS Please contact the New York Academy of Sciences directly to place your order [www nyas org](http://www.nyas.org) Members of the New York Academy of Science receive full text access to the Annals online and discounts on print volumes Please visit [www nyas org membership main asp](http://www.nyas.org/membership/main.asp) for more information about becoming a member
