The Fall of the House of Labor David Montgomery, 1987-08-28 This book studies the changing ways in which American industrial workers mobilised concerted action in their own interests between the abolition of slavery and the end of open immigration from Europe and Asia Sustained class conflict between 1916 and 1922 reshaped governmental and business policies but left labour largely unorganised and in retreat The House of Labor so arduously erected by working class activists during the preceeding generation did not collapse but ossified so that when labour activism was reinvigorated after 1933 the movement split in two These developments are analysed here in ways which stress the links between migration neighbourhood life racial subjugation business reform the state and the daily experience of work itself

Race and Retail Mia Bay, Ann Fabian, 2015-08-04 Race has long shaped shopping experiences for many Americans Retail exchanges and establishments have made headlines as flashpoints for conflict not only between blacks and whites but also between whites Mexicans Asian Americans and a wide variety of other ethnic groups who have at times found themselves unwelcome at white owned businesses Race and Retail documents the extent to which retail establishments both past and present have often catered to specific ethnic and racial groups Using an interdisciplinary approach the original essays collected here explore selling and buying practices of nonwhite populations around the world and the barriers that shape these habits such as racial discrimination food deserts and gentrification The contributors highlight more contemporary issues by raising questions about how race informs business owners ideas about consumer

demand resulting in substandard quality and higher prices for minorities than in predominantly white neighborhoods In a wide ranging exploration of the subject they also address revitalization and gentrification in South Korean and Latino neighborhoods in California Arab and Turkish coffeehouses and hookah lounges in South Paterson New Jersey and tourist capoeira consumption in Brazil Race and Retail illuminates the complex play of forces at work in racialized retail markets and the everyday impact of those forces on minority consumers The essays demonstrate how past practice remains in force in subtle and not so subtle ways

This Bittersweet Soil Sucheng Chan,1986 The role of the Chinese in California agriculture during the later decades of the 19th century and early part of the 20th century was an integral aspect of the agricultural history of the western United States Although the number of Chinese involved in agricultural occupations at one time never exceeded 6000 to 7000 workers their lack of numbers does not diminish their impact Author Chan of Chinese origin has made extensive use of census records and county archival sources to produce the first full history of the Chinese in California agriculture

succeeded Forging multiracial coalitions and encouraging voting and moderate activism they avoided the deep divisions and factionalism that consumed their counterparts in New York Drawing on extensive research in both Chinese and English language sources Charlotte Brooks uncovers the complex diverse and surprisingly vibrant politics of an ethnic group trying to find its voice and flex its political muscle in Cold War America **Beauty and Business** Philip Scranton, 2014-03-05

BOOK JACKET **More Than Shelter** Amy L. Howard, 2014-05-01 In the popular imagination public housing tenants are considered at best victims of intractable poverty and at worst criminals *More Than Shelter* makes clear that such limited perspectives do not capture the rich reality of tenants' active engagement in shaping public housing into communities By looking closely at three public housing projects in San Francisco Amy L. Howard brings to light the dramatic measures tenants have taken to create and sustain and strengthen communities that mattered to them *More Than Shelter* opens with the tumultuous institutional history of the San Francisco Housing Authority from its inception during the New Deal era through its repeated leadership failures to its attempts to boost its credibility in the 1990s Howard then turns to Valencia Gardens in the Mission District built in 1943 the project became a perpetually contested and embattled space Within that space tenants came together in what Howard calls affective activism activism focused on intentional relationships and community building that served to fortify residents in the face of shared challenges Such activism also fueled cross-sector coalition building at Ping Yuen in Chinatown bringing tenants and organizations together to advocate for and improve public housing The account of their experience breaks new ground in highlighting the diversity of public housing in more ways than one The experience of North Beach Place in turn raises questions about the politics of development and redevelopment in this case Howard examines activism across generations first by African Americans seeking to desegregate public housing then by cross-racial and cross-ethnic tenant groups mobilizing to maintain public housing in the shadow of gentrification Taken together the stories Howard tells challenge assumptions about public housing and its tenants and make way for a

broader more productive and inclusive vision of the public housing program in the United States **Bubonic Panic** Gail Jarrow, 2016-04-05 Uncover the true story of America's first plague epidemic in 1900 in this book is perfect to share with young readers looking for a historical perspective of the Covid 19 Coronavirus pandemic that recently gripped the world In March 1900 San Francisco's health department investigated a strange and horrible death in Chinatown A man had died of bubonic plague one of the world's deadliest diseases But how could that be possible Acclaimed author and scientific expert Gail Jarrow brings the history of a medical mystery to life in vivid and exciting detail for young readers She spotlights the public health doctors who desperately fought to end it the political leaders who tried to keep it hidden and the brave scientists who uncovered the plague's secrets This title includes photographs and drawings a glossary a timeline further resources an author's note and source notes **Asian America** Roger Daniels, 2011-10-01 In this important and masterful synthesis of the Chinese and Japanese experience in America historian Roger Daniels provides a new perspective on the significance of Asian immigration to the United States Examining the period from the mid nineteenth century to the early 1980s Daniels presents a basic history comprising the political and socioeconomic background of Chinese and Japanese immigration and acculturation He draws distinctions and points out similarities not only between Chinese and Japanese but between Asian and European immigration experiences clarifying the integral role of Asians in American history Daniels research is impressive and his evidence is solid In forthright prose he suggests fresh assessments of the broad patterns of the Asian American experience illuminating the recurring tensions within our modern multiracial society His detailed supporting material is woven into a rich historical fabric which also gives personal voice to the tenacious individualism of the immigrant The book is organized topically and chronologically beginning with the emigration of each ethnic group and concluding with an epilogue that looks to the future from the perspective of the last two decades of Chinese and Japanese American history Included in this survey are discussions of the reasons for emigration the conditions of emigration the fate of first generation immigrants the reception of immigrants by the United States government and its people the growth of immigrant communities the effects of discriminatory legislation the impact of World War II and the succeeding Cold War era on Chinese and Japanese Americans and the history of Asian Americans during the last twenty years This timely and thought provoking volume will be of value not only to specialists in Asian American history and culture but to students and general historians of American life
