Platform One Pat Black,2000 This assessment and review pack is designed to assess children s learning at the end of each half term The activities provided are linked directly to the Key Learning Objectives outlined in the Framework for Teaching Mathematics and the new NNS guidelines for assessment and review lessons **Pick a Pocket Or Two** Ethan Mordden,2021-08-02 In *Pick a Pocket Or Two* acclaimed author Ethan Mordden brings his wit and wisdom to bear in telling the full history of the British musical from *The Beggar s Opera* 1728 to the present with an interest in isolating the unique qualities of the form and its influence on the American model **Storybridge to Second Language Literacy** Irma-Kaarina Ghosn,2013-09-01 *Storybridge to Second Language Literacy* makes a case for using authentic children s literature alternately also referred to as stories or real books as the medium of instruction in teaching English to young learners particularly in contexts where children must access general curriculum subjects in English The author first proposes

theoretical foundations for the argument that illustrated children's books are superior to traditional language teaching courses in the primary school. She builds the case around the motivational power of stories, the language and content of quality children's literature and the potential of literature to contribute to development of second language academic literacy. She then reviews research of the past thirty years that clearly supports her claim. Finally, she uses transcripts from real classrooms to illustrate how teachers in diverse contexts make use of stories. Through the classroom vignettes, a practical model of literature-based instruction emerges that is adaptable to a wide range of primary school teaching contexts, including English as a second language contexts in core English countries. *Storybridge to Second Language Literacy* compiles in one volume solid theoretical foundations for story-based instruction, research evidence of the past thirty years supporting the approach, not currently available in a single source, and extensive classroom vignettes illustrating diverse practical applications, not lesson plans. This makes the book valuable for anyone in the field of young learner ELT. MA students in TESOL will find the book useful and will develop an understanding of why and how literature-based instruction works and develop insight to guide their practice. Members of TESOL Elementary Education EFL and Bilingual Education SIGs and IATEFL Young Learner SIG will be interested in the volume. Instructors of teacher development courses should also find the proposed volume a valuable addition to assigned readings. Each chapter is followed by 'Think about it' questions and 'Try it out' suggestions.
