Look Out Edward McPherson, 2025-10-21 A charming idiosyncratic meditation on the human urge to see further and more in this cultural history of the aerial view McPherson makes an elliptical and enchanting case for reinserting wherever possible the ground level human perspective Redolent with insights into the ethical quandary of history making as well as the author's own sense of awe at the full sweep of the human story this is a wonder Publishers Weekly starred review As if Borges and Didion took a tour with Sebald through the beauty and terror of our present and past Look Out is a profound and prismatic investigation of taking the long view Look Out is an exploration of long distance mapping aerial photography and top down and far ranging perspectives from pre Civil War America to our vexed modern times of drone warfare hyper surveillance at home and abroad and quarantine and protest Blending history reporting personal experience and accounts of

activists programmers spies astronauts artists inventors and dreamers Edward McPherson reveals that to see is to control and the stakes are high for everyone The aerial view a position known in Greek as the catascopos or the looker down is a fundamentally privileged perspective inaccessible to those left on the ground To the earthbound in sights from such rarified heights convey power and authority McPherson casts light on our fetishization of distance as a path to truth and considers the awe and apocalypse of taking the long view *The Key to the Map* Bruce Chudacoff,2016-05-13 A squad of terrorists eagerly waits in a small Jerusalem home at midnight Their mission is to plant a radioactive device under the Temple Mount and cause catastrophic damage to the Dome of the Rock which will be blamed on the Israelis igniting the final struggle for dominance and control over the Holy Land Across the sea in Rome Jake Greene a retired Homeland Security operations executive and his daughter Rebecca Gould an anthropologist stumble upon an antique map and a strange medallion They are immediately thrust into a world of ancient secrets modern warfare and government conspiracy As they begin to decipher the mysteries surrounding these objects they meet and join forces with David Robinson whose family is sworn to help someone who will one day appear to him holding the medallion They are caught up in a thrilling search for the lost Ark of the Covenant They must find a way to foil the terrorists find the Ark and conceal it from a world not yet ready for its discovery

Jackson,2021-12-10 Jackson does not mince words and he does not pull punches What claws from these shadows is both an unflinching confrontation with a violent world and a much needed meditation on what it means to be fearless Hailey Piper author of The Worm and His Kings An experiment gone wrong overloads thirteen year old Oumou s psychokinetic abilities and strands her in the tiny town of Archwood North Carolina Free from the dismal research lab that has been her home as long as she can remember she is taken in by a kind family and finds in their daughter Amanda something she s never had a friend For the first time she feels happy However she quickly realizes that things are not as perfect as they seem The local reverend and his followers begin to single her out and violently conspire against her Memories she d long forgotten come back to haunt her A shadowy figure with no eyes stalks
