Rasler, William R. Thompson, 2014-07-11 In The Great Powers and Global Struggle Karen A Rasler and William R Thompson focus on two themes the rise and fall as well as the relative decline of major world powers over the past five hundred years and the way in which these processes have set the stage for the outbreak of global war Their interdisciplinary approach encompasses political science economics sociology geography and history The most significant wars occur when regional leaders historically in Western Europe challenge global leaders By studying the wars of Napoleon Louis XIV Phillip II and the Italian Indian Ocean wars of the sixteenth century through World Wars I and II to the present the authors challenge the long held idea that prosperity leads to over consumption and

underinvestment and thus decline a theory traceable to ancient times that remains the principal explanation for global decline today Arguments about global structural change and its implications abound but rarely is the abstract translated into concrete historical terms with emphases on specific actors and empirical documentation Rasler and Thompson reinterpret the past five hundred years of major power warfare and provide extensive tests of the eighteen generalizations critical to their argument They conclude that those who argue that global war and repositioning are no longer a concern among the major powers lack critical understanding of the behavior that contributes to such conflict

History and Drama Joachim Küpper, Jan Mosch, Elena Penskaya, 2018-12-03 Aristotle's neat compartmentalization notwithstanding Poetics ch 9 historians and playwrights have both been laying claim to representations of the past arguably since Antiquity but certainly since the Renaissance At a time when narratology challenges historiographers to differentiate their emplotments White from literary inventions this thirteen essay collection takes a fresh look at the production of historico political knowledge in literature and the intricacies of reality and fiction Written by experts who teach in Germany Austria Russia and the United States the articles provide a thorough interpretation of early modern drama with a view to classical times and the 19th century as an ideological platform that is as open to royal self fashioning and soteriology as it is to travestying and subverting the means and ends of historical interpretation The comparative analysis of metapoetic and historiosophic aspects also sheds light on drama as a transnational phenomenon demonstrating the importance of the cultural net that links the multifaceted textual examples from France Russia England Italy and the Netherlands

Documenting Global Leadership George Modelski, 1988-06-18 The book traces the evolution of world politics through documents that illustrate the responsibilities burdens and opportunities of global leadership

War: A Short History Jeremy Black, 2014-03-04 In this concise history of war Jeremy Black ranges widely giving due attention to non western as well as western traditions The history of war is inextricably bound to the history of the world Through a detailed exploration of world scale issues of warfare presented within a chronological framework that spans human history Jeremy Black skilfully illustrates this fact whilst providing the reader with other astute insights and compelling interpretations of war War A Short History is a dramatic move away from the formulaic western approach to military history Too narrow in its focus on wars specific to the west and too simple because of an over reliance on a technologically deterministic reading of warfare this approach has been rejected by Jeremy Black in favour of a global model that takes all factors into account when considering the strengths and weaknesses of a particular military tradition This is a book that is as important for its relevance to current world issues of conflict as it is for its thorough consideration of a monumentally significant aspect of human history

virtue of the changes they spurn global wars are inherently accelerators of social change **The History of Nations** Henry Cabot Lodge,1913 Outlines of the World's History, ancient, mediæval, and modern, etc William Swinton,1875 Global Convergence Cultures Matthew Freeman,William Proctor,2018-05-03 Today s convergent media industries readily produce stories that span multiple media telling the tales of superheroes across comics film and television inviting audiences to participate in the popular universes across cinema novels the Web and more This transmedia phenomenon may be a common strategy in Hollywood s blockbuster fiction factory tied up with digital marketing and fictional world building but transmediality is so much more than global movie franchises Different cultures around the world are now making new and often far less commercial uses of transmediality applying this phenomenon to the needs and structures of a nation and re thinking it in the form of cultural political and heritage projects This book offers an exploration of these national and cultural systems of transmediality around the world showing how national cultures including politics people heritage traditions leisure and so on are informing transmediality in different countries The book spans four continents and twelve countries looking across the UK Spain Portugal France Estonia USA Canada Colombia Brazil Japan India and Russia **Uncoveted Power** Caitlin Reynolds,2024-07-20 About The Book In *Uncoveted Power* Strategically Navigating Complexity of Leadership Caitlin Reynolds explores what it truly means to lead It s not only about having power it s about inspiring others with a vision building trust and respecting diverse perspectives Reynolds explores how emotional intelligence critical thinking and social understanding play key roles in effective leadership Drawing from her experiences and conversations with leaders Reynolds offers insights into the challenges and rewards of leadership She highlights that leadership isn t a solo journey but it s about empowering others to reach their full potential The book features stories of leaders from all backgrounds highlighting the inclusive and transformative nature of leadership Reynolds encourages readers to reflect on timeless wisdom reminding us that leadership is about guiding others to become the best versions of themselves Through engaging narratives and practical advice *Uncoveted Power* inspires readers to embrace leadership with conviction delegation resilience and fulfillment It sets the stage for a journey of self discovery and growth inviting readers to join in shaping the future of leadership Library Media Connection ,1991 Manitoba Muslims Ismael Ibrahim Mukhtar,2021-07-26 *Manitoba Muslims A History of Resilience and Growth* is both a look back at the history of Muslims in the province of Manitoba and a look forward into the future The Muslims of Manitoba have a presence that reaches back beyond a century They are a fast growing demographic and continue to make many positive contributions to their community and country The history of Manitoba Muslims is an integral part of the history of Manitoba and Canada with a better collective understanding of our history all Canadians can work together to create a more respectful tolerant and welcoming nation This book opens with a history of the community beginning in 1900 The second section examines some of the issues and challenges facing the Islamic community in Manitoba The author examines the challenges faced by specific segments of the community such as women youth and converts In

We are all familiar with the popular and academic analyses of the ongoing and future ascent of China Two of the associated questions are whether and when China might succeed the United States as the lead state in the world system These are interesting questions albeit ones that are not likely to be answered in the immediate future An alternative focus examines instead periods of systemic transition eras in which it is conceivable that a new leader might emerge at the expense of an older system leader Framing the question this way presumes that a future systemic transitions remain a possibility and b transitions do not occur abruptly but may require several decades to set up structural situations in which a transition might take place Neither of these assumptions are carved in stone and are open to question It may be that future systemic transitions are unlikely Or it may be that they will not occur as they have in the past All of these possibilities are assessed from a variety of different perspectives **Current History (New York).** ,1922 *Current History and Forum ...* ,1922
