This Dog Will Change Your Life Elias Weiss Friedman,2025-06-03 A uniquely insightful uplifting emotional and informative book that shows us how dogs make our lives better by making us better people from the Dogist Elias Weiss Friedman became known as The Dogist when he took thousands of photos of dogs and posted them online along with their unique dog stories Even before he was The Dogist though he was a Dogist a fervent dog lover and an evangelist about the relationship between dogs and humans and the joy this bond brings us in the modern world Over his decades of studying dogs and their people Elias has arrived at a deceptively simple realization Dogs make people s lives better by making people better Dogs improve us They save us They give our lives greater meaning and fulfillment They teach us to become the best versions of ourselves They help us understand our own identities deepen our relationships and remind us of patience purpose and commitment We constantly seek those things in our human life but so many of the answers are already right in front of us in our dogs This book weaves together stories of the many dogs Elias has been lucky enough to know both in his personal life and while doing his Dogist work Told in a light tone that does not shy away from more serious issues Elias is not above the occasional sentimental moment or dog pun this book charmingly explores the ways that dogs are not just our family and our friends but also irreplaceable beings capable of generating boundless love and restoring balance to our lives In an increasingly alienating and divisive world there is one clear remedy the one with four legs that rolls over for belly rubs Dogs can change our lives and this book might just change yours **The Publishers Weekly** ,2002 *Big Kibble* Shawn Buckley,Oscar Chavez,2020-12-01 A big inside look at the shocking lack of regulation within the pet food industry and how readers can dramatically improve the quality of their dogs lives through diet What s really going into commercial dog food The answer is horrifying Big Kibble is big business 75 billion globally A handful of multi national corporations dominate the industry and together own as many as 80% of all brands This comes as a surprise to most people but what s even more shocking is how lax the regulations and guidelines are around these products The guidelines or lack thereof for pet food allow producers to include ever cheaper ingredients and create ever larger earnings For example legal ingredients in kibble include poultry feces saw dust expired food and diseased meat among other horrors Many vets still don t know that kibble is not the best food for dogs because Big Kibble funds the nutrition research So far these corporations have been able to cut corners and still market and promote feed grade food as if it were healthful and beneficial until now Just as you are what you eat so is your dog Once you stop feeding your dog the junk that s in kibble or cans you have taken the first steps to improving your dog s health behavior and happiness You know the unsavory side of Big Tobacco and Big Pharma Now Shawn Buckley Dr Oscar Chavez and Wendy Paris explain all you need to know about unsavory Big Kibble and offer a brighter path forward for you and your pet *Just the Thing* Marie Harte,2017-07-04 The sultry sex and seduction scenes are just the icing on this incredibly rich and satisfying cake Readers will sit down read this book from cover to cover in one sitting and then pick it up

Pet Projects Elizabeth Young, 2019-12-17 In Pet Projects Elizabeth Young joins an analysis of the representation of animals in nineteenth century fiction taxidermy and the visual arts with a first person reflection on her own scholarly journey Centering on Margaret Marshall Saunders a Canadian woman writer once famous for her animal novels and incorporating Young s own experience of a beloved animal s illness this study highlights the personal and intellectual stakes of a pet project of cultural criticism Young assembles a broad archive of materials beginning with Saunders s novels and widening outward to

include fiction nonfiction photography and taxidermy She coins the term first dog voice to describe the narrative technique of novels such as Saunders's *Beautiful Joe* written in the first person from the perspective of an animal She connects this voice to contemporary political issues revealing how animal fiction such as Saunders's reanimates nineteenth century writing about both feminism and slavery Highlighting the prominence of taxidermy in the late nineteenth century she suggests that Saunders transforms taxidermic techniques in surprising ways that provide new forms of authority for women Young adapts Freud to analyze literary representations of mourning by and for animals and she examines how Canadian writers including Saunders use animals to explore race ethnicity and national identity Her wide ranging investigation incorporates twenty first as well as nineteenth century works of literature and culture including recent art using taxidermy and contemporary film Throughout she reflects on the tools she uses to craft her analyses examining the state of scholarly fields from feminist criticism to animal studies With a lively first person voice that highlights experiences usually concealed in academic studies by scholarly discourse such as detours zigzags roadblocks and personal experience this unique and innovative book will delight animal enthusiasts and academics in the fields of animal studies gender studies American studies and Canadian studies
