**The Juridification of Business Ethics** Bart

Jansen,2023-08-25 This book provides a theory of the juridification of business ethics Ethical codes pop up everywhere in the business world and increasingly resemble the code of law A focus on compliance rather than reflection becomes the norm Legal perspectives replace ethical perspectives turning ethicists into lawyers without a law degree This juridification of business ethics conceals a diminishing trust in ethics as legal reasoning substitutes philosophical thinking By appealing to the critical study of law Bart Jansen advocates for a renewed focus on the ethical side of business This book shows the importance of a good balance between law and ethics in business and is of great interest to both academics and professionals

**Embodiment and the New Shape of Black Theological Thought** Anthony B. Pinn,2010-06-01 Black theology tends to be a theology about no body Though one might assume that black and womanist theology have already given significant attention to the nature and meaning of black bodies as a theological issue this inquiry has primarily taken the form of a focus on issues relating to liberation treating the body in abstract terms rather than focusing on the experiencing of a material fleshy reality By focusing on the body as a physical entity and not just a metaphorical one Pinn offers a new approach to theological thinking about race gender and sexuality According to Pinn the body is of profound theological importance In this first text on black

theology to take embodiment as its starting point and its goal Pinn interrogates the traditional source materials for black theology such as spirituals and slave narratives seeking to link them to materials such as photography that highlight the theological importance of the body Employing a multidisciplinary approach spanning from the sociology of the body and philosophy to anthropology and art history Embodiment and the New Shape of Black Theological Thought pushes black theology to the next level

**Principles of Neurotheology** Assoc Prof Andrew B Newberg, 2013-06-28 Neurotheology has garnered substantial attention in the academic and lay communities in recent years Several books have been written addressing the relationship between the brain and religious experience and numerous scholarly articles have been published on the topic some in the popular press The scientific and religious communities have been very interested in obtaining more information regarding neurotheology how to approach this topic and how science and religion can be integrated in some manner that preserves both If neurotheology is to be considered a viable field going forward it requires a set of clear principles that can be generally agreed upon and supported by both the theological or religious perspective and the scientific one as well Principles of Neurotheology sets out the necessary principles of neurotheology which can be used as a foundation for future neurotheological discourse Laying the groundwork for a new synthesis of scientific and theological dialogue this book proposes that neurotheology a term fraught with potential problems is a highly useful and important voice in the greater study of religious and theological ideas and their intersection with science

**The Church, Authority, and Foucault** Steven G. Ogden, 2017-02-03 The Church Authority and Foucault addresses the problem of the Church's enmeshment with sovereign power which can lead to marginalization Breaking new ground Ogden uses Foucault's approach to power and knowledge to interpret the church leader's significance as the guardian of knowledge This can become privileged knowledge under the spell of sovereign power and with the complicity of clergy and laity in search of sovereigns Inevitably such a culture leads to a sense of entitlement for leaders and conformity for followers All in the name of obedience The Church needs to change in order to fulfil its vocation Instead of a monarchy

what about Church as an open space of freedom This book then is a theological enterprise which cultivates practices of freedom for the sake of the other This involves thinking differently by exploring catalysts for change which include critique space imagination and wisdom In the process Ogden uses a range of sources analysing discourse gossip ritual territory masculinity and pastoral power In all the work of Michel Foucault sets the tone for a fresh ecclesiological critique that will appeal to theologians and clergy alike

**Beginning from Man and Woman** Bernard K. Wong, 2017-04-30 Engaging with contemporary thought on love and the family Bernard Wong argues that our notion of love has been deeply influenced by modern technological culture and political ideologies leading to the detriment of familial relationships Dr Wong demonstrates how Christian doctrines can be used to critique and resist these ideologies Through a careful analysis of Christ's love expressed in his life death and resurrection the author presents a notion of Christ's love bearing the characteristics of fraternal incarnational and unfolding love These aspects of Christ's love are pertinent to the relationships between husbands and wives parents and children and families and their neighbours It is through practicing Christ's love that Christians strengthen their familial relationships and bear witness to Christ in the world

The Hardened Heart and Tragic Finitude Dan O. Via, 2012-11-05 This book has two main theses First for the biblical Christian doctrine of sin the root of the human problem is hardness of heart the corruption of the core self of the seat of understanding and will On the other hand for an important strand of Greek tragedy the root of human harm doing is the nonculpable blindness and anxiety of finitude that despite the initial nonculpability lead to evil and suffering The Hardened Heart shows that these two different interpretations of human existence are amenable to a degree of synthesis that leads to this conclusion hardness of heart and our ordinary finitude together collude to cause sin in its fullness The second thesis of this volume is that exegetical studies disclose a deconstructive strand in certain biblical texts that represents the finite world that God created as a source of distress and harm doing in something like the tragic sense This subdominant deconstructive position challenges the dominant biblical vision in which the creation came forth from God's creative word as good without qualification

Sallie McFague Sallie McFague, 2013-10-01 Sallie McFague offers a lucid and powerful guide to theological thinking about God and the world individual and community humanity and nature reality and metaphor the sacramental and the prophetic and the critical issue of climate change for today's world She calls Christians to new feeling new acting and new thinking
