Love And Work The Value System Of Psychoanalysis:

Love and Work Reuben Fine,1990 *Love and Work* Mieke Polderman,2014-09-01 Is there interaction between love and work If so in what ways does it appear The main incentive for this research is the notable increase of American and Dutch people who wish to spend more and more of their time working and who feel useless and robbed of their identity when separated from their jobs It seems that work is considered more fulfilling and satisfying than love which can be undermined by failing relationships tension depression violence addiction crime or angry and unmanageable children Whereas Proust described love in a milieu where most of the work was done by servants and artists Freud was convinced that love and work were the two main pillars of society This view has been echoed by psychologists sociologists philosophers and novelists However a new phenomenon is that men and women share love and work Finding the right balance between the two is a hot topic in how to books newspaper and magazine articles but the underlying connections have received little if any scrutiny In fact it may well be a mission impossible since as the Frankfurt School asserted the capitalist powers in search of profit urge politicians to lure men women and children onto the work floor by telling them work is a duty that not only will provide disposable income but also happiness and fulfillment in life Hence people internalize this message without asking themselves why continuous consumption is more important than giving and receiving love which they crave but seldom find Although focusing on middle class people between the ages of twenty five and forty who are travelling the highway of life have paid jobs a relationship of at least three years and children this study should be of interest to everyone

Personality and

Psychotherapy Jefferson A. Singer,2005-08-25 Showing how and why contemporary personality science matters in the clinical context this book offers eminently practical tools for psychotherapists from any disciplinary background and will also be of interest to personality and social psychologists It is an ideal text for advanced undergraduate courses and for graduate seminars taught within clinical training programs **BOOK JACKET** Ethics and Values in Psychotherapy Alan

Tjeltveit,2003-09-02 Ethics and Values in Psychotherapy is an examination of the role of the therapist as ethicist and the ways in which the ethical convictions of both therapist and client contribute to the practical process of psychotherapy As Psychotherapy strives to establish itself as a Profession practitioners are increasingly focusing on the issue of ethics as they attempt to agree on guidelines and standards for professional practice Alan Tjeltveit argues that any discussion of professional and ethical practice in psychotherapy is inadequate if carried out in ignorance of or in isolation from traditional ethical theories He applies this approach to issues such as the role of therapy in society the goals and outcomes of psychotherapy techniques and practices the existence and operation of values the intellectual and social context in which therapy takes place In the second part of the book he uses clinical examples and case studies to relate this theoretical discussion to clinical practice Ethics and Values in Psychotherapy will be welcomed by the growing number of experienced

Psychotherapists and post graduate students who are interested in the increasingly contentious issue of professional ethics

Bibliography of the History of Medicine ,1990 **Bibliography of the History of Medicine** National Library of Medicine (U.S.),1990 **Masochism and the Emergent Ego** Esther Menaker,1996-05 This collection of essays on psychoanalytical thought represents Esther Menaker's emphasis on the individual's self esteem as reflected in the ego ideal and the sense of identity These papers centre on three vital issues masochism identification and the social process and creativity **The Psychoanalytic Study of Organizations** Burkard Sievers,Arndt Ahlers-Niemann,2007 **The Remembered Self** Jefferson A. Singer,Peter Salovey,1993 Finally the authors propose that a renewed emphasis on conscious thought and narrative memory may provide an integrative bridge among personality social clinical and cognitive psychologists Such an approach the authors argue could reduce the tension between heavily quantitative psychologists and qualitatively oriented phenomenologists leading to a more inclusive and complex vision of the whole person Organized in four parts the book begins by introducing a new theoretical perspective on memory content and organization in personality and goes on to present research evidence in support of this theory The second part illustrates how memory content can be influenced by mood states attentional processes and biases of the self The third part of the book links the previous theoretical

and experimental work to the practice of psychotherapy

The Annual Obituary, 1993

Introduction to the Work of Donald Meltzer Silvia Fano Cassese, 2018-03-28

Introduction to the Work of Donald Meltzer is a critical survey of Donald Meltzer's central themes which simultaneously focuses on the most important concepts of his work. This detailed volume should not only spark the reader's interest in these fascinating yet complex themes but also encourage readers to deepen their knowledge of them. I have tried to point out an aspect which in my view is fundamental in Meltzer's theory: that is the possibility of communicating those typical aspects of his analytical work which go beyond the well-established and reassuring technique. Meltzer's interest constantly turns to that area which is difficult to describe in words and perhaps cannot be expressed in conventional language: the emotional area of non-verbal communication of reverie and unconscious thinking. From the Preface

Love and Its Objects C. Maurer, T. Milligan, K. Pacovská, 2014-09-25. This collection of essays on the philosophy of love by leading contributors to the discussion places particular emphasis on the relation between love, its character and appropriateness, and the objects towards which it is directed: romantic and erotic partners, persons, ourselves, strangers, non-human animals, and art.
