Love, Poetry, and Immortality: Luminous Insights of the World's Great Thinkers William Gerber, 2022-07-11 This book explores and illustrates the individuating characteristics and the interrelationships of love poetry and literary immortality such immortality that is as writers may win in the sense of being long remembered and appreciated by future readers From the book s numerous quotations of glittering literary passages it is evident that love is often expressed in poetry and that many authors especially those writing about love have expressed the winsome hope that their works would be greatly cherished by later generations Part One of the book illustrates by passages of matchless poetry the joys and perils of love and other outstanding features of love Part Two outlines the history of expressions by writers in many cultures of their confidence or hope that their works will make them immortal

**Happiness in Love** Jerry Yonga, 2023-01-21 Welcome to my collection of love and romantic poetry As you dive into these pages you will be transported to a world of emotions and feelings unique to the human experience Poetry is an art form that has been around for centuries and continues to be a powerful medium for expressing the most intimate and profound aspects of our lives In this book you will find a variety of styles and techniques used to convey the beauty and complexity of love Just as Ansel Adams used his unique style to capture the grandeur of nature this poet has used their techniques to express the nuances of love Whether it is through vivid imagery raw emotions or deep introspection these poets have found a way to capture the essence of what it means to love and be loved As you read these poems you may be transported to different worlds from the city s heart to the ocean s depths You may find yourself laughing crying or feeling in awe at the beauty of the words Each poem reflects the poet s creativity and it is essential to remember that poetry is not a science but an art form Just as Michael Jackson used his unique technique to play music this poet used his style to tell love stories The poet has not been bounded by old fashioned borders but has pushed the boundaries of what is possible in poetry These poems are not only about love but they also explore the complexities of relationships and the human experience This book is not only a collection of poems but it is also a celebration of love in all its forms Whether you are reading these poems as a lover a friend or simply someone who appreciates the beauty of words the poet hopes you will find something that resonates with you Poetry is a powerful medium that can touch our hearts and minds in ways that words alone cannot So sit back relax and be transported to a world of love and romance I hope you will enjoy this poetry collection as much as I have enjoyed putting it together Dr Jerry

*The History and Anatomy of Auctorial Self-criticism in the European Middle Ages* Anita Obermeier,1999 This study outlines the history and anatomy of the European apology tradition from the sixth century BCE to

1500 for the first time The study examines the vernacular and Latin tales lyrics epics and prose compositions of Arabic English French German Greek Icelandic Italian Spanish and Welsh authors Three different strands of the apology tradition can be proposed The first and most pervasive strand features apologies to pagan deities and later to God The second most important strand contains literary apologies made to an earthly audience usually of women A third strand occurs more rarely and contains apologies for varying literary offenses that are directed to a more general audience The medieval theory of language privileges an imitation of the Christian master narrative and a hierarchical medieval view of authorship These notions express a medieval philosophical concern about language and its role and therefore the role of the author in cosmic history Despite the fact that women apologize for different purposes and reasons their examples illustrate on yet another level the antifeminist subtext inherent in the entire apology tradition Overall the apology tradition characterized by interauctoriality intertextuality and intratextuality enables self critical authors to refer not only backward but also primarily forward making the medieval apology a progressive strategy that engenders new literature This study would be relevant to all medievalists especially those interested in literature and the history of ideas
