The book begins with a 1925 court case and shows how almost a century later our society has yet come to terms with interracial marriage. **Colored Property** David M. P. Freund, 2010-04-13 Northern whites in the post World War II era began to support the principle of civil rights so why did many of them continue to oppose racial integration in their communities? Challenging conventional wisdom about the growth, prosperity and racial exclusivity of American suburbs, David M. P. Freund argues that previous attempts to answer this question have overlooked a change in the racial thinking of whites and the role of suburban politics in effecting this change. In *Colored Property* he shows how federal intervention spurred a dramatic shift in the language and logic of residential exclusion away from invocations of a mythical racial hierarchy and toward talk of markets, property and citizenship. Freund begins his exploration by tracing the emergence of a powerful public-private alliance that facilitated postwar suburban growth across the nation with federal programs that significantly favored whites. Then showing how this national story played out in metropolitan Detroit, he visits zoning board and city council meetings, details the efforts of neighborhood property improvement associations and reconstructs battles over race and housing to demonstrate how whites learned to view discrimination not as an act of racism but as a legitimate response to the needs of the market. Illuminating government's powerful yet still hidden role in the segregation of U.S. cities, *Colored Property* presents a dramatic new vision of metropolitan growth, segregation and white identity in modern America. *Hollywood Be Thy Name* Judith Weisenfeld, 2007-06-08 From the earliest years of sound film in America, Hollywood studios and independent producers of race films for black audiences created stories featuring African American religious practices. In the first book to examine how the movies constructed images of African American religion, Judith Weisenfeld explores these cinematic representations and how they reflected and contributed to complicated discourses about race, the social and moral requirements of American citizenship and the very nature of American identity. Drawing on such textual sources as studio production files, censorship records and discussions and debates about religion and film in the black press as well as providing close readings of films, this richly illustrated and meticulously researched book brings religious studies and film history together in innovative ways. **Making Marriage Modern** Christina Simmons, 2009-04-10 The nineteenth century

middle class ideal of the married woman was of a chaste and diligent wife focused on being a loving mother with few needs or rights of her own. The modern woman by contrast was partner to a new model of marriage one in which she and her husband formed a relationship based on greater sexual and psychological equality. In *Making Marriage Modern* Christina Simmons narrates the development of this new companionate marriage ideal which took hold in the early twentieth century and prevailed in American society by the 1940s. The first challenges to public reticence to discuss sexual relations between husbands and wives came from social hygiene reformers who advocated for a scientific but conservative sex education to combat prostitution and venereal disease. A more radical group of feminists, anarchists and bohemians opposed the Victorian model of marriage and even the institution of marriage. Birth control advocates such as Emma Goldman and Margaret Sanger openly championed women's rights to acquire and use effective contraception. The companionate marriage emerged from these efforts. This marital ideal was characterized by greater emotional and sexuality intimacy for both men and women, use of birth control to create smaller families and destigmatization of divorce in cases of failed unions. Simmons examines what she calls the flapper marriage in which free spirited young wives enjoyed the early years of marriage postponing children and domesticity. She looks at the feminist marriage in which women imagined greater equality between the sexes in domestic and paid work and sex. And she explores the African American partnership marriage which often included wives employment and drew more heavily on the involvement of the community and extended family. Finally she traces how these modern ideals of marriage were promoted in sexual advice literature and marriage manuals of the period. Though male dominance persisted in companionate marriages, Christina Simmons shows how they called for greater independence and satisfaction for women and a new female heterosexuality. By raising women's expectations of marriage the companionate ideal also contained within it the seeds of second wave feminists demands for transforming the institution into one of true equality between the sexes.

Race in Mind Paul Spickard, 2015-11-19 These essays analyze how race affects people's lives and relationships in all settings from the United States to Great Britain and from Hawai'i to Chinese Central Asia. They contemplate the racial positions in various societies of people called Black and people called White, of Asians and Pacific Islanders and especially of those people whose racial ancestries and identifications are multiple. Here for the first time are Spickard's trenchant analyses of the creation of race in the South Pacific, of DNA testing for racial ancestry and of the meaning of multiplicity in the age of Barack Obama.

What Comes Naturally Peggy Pascoe, 2009-01-16 A long awaited history that promises to dramatically change our understanding of race in America. *What Comes Naturally* traces the origins, spread and demise of miscegenation laws in the United States, laws that banned interracial marriage and sex most often between whites and members of other races. Peggy Pascoe demonstrates how these laws were enacted and applied not just in the South but throughout most of the country in the West, the North and the Midwest. Beginning in the Reconstruction era when the term miscegenation first was coined, she traces the creation of a racial hierarchy that bolstered white supremacy and banned the marriage of Whites to

Chinese Japanese Filipinos and American Indians as well as the marriage of Whites to Blacks She ends not simply with the landmark 1967 case of Loving v Virginia in which the Supreme Court finally struck down miscegenation laws throughout the country but looks at the implications of ideas of colorblindness that replaced them What Comes Naturally is both accessible to the general reader and informative to the specialist a rare feat for an original work of history based on archival research

Conjugal Misconduct William Kuby, 2018-03-01 Conjugal Misconduct reveals the hidden history of controversial and legally contested marital arrangements in twentieth century America William Kuby examines the experiences of couples in unconventional unions and the legal and cultural backlash generated by a wide array of alternative marriages These include marriages established through personal advertisements and matchmaking bureaus marriages that defied state eugenic regulations hasty marriages between divorced persons provisional and temporary unions referred to as trial marriages racial intermarriages and a host of other unions that challenged sexual and marital norms In illuminating the tensions between those who set marriage policies and those who defied them Kuby offers a fresh account of marriage s contested history arguing that although marital nonconformists composed only a small minority of the population their atypical arrangements nonetheless shifted popular understandings of marriage and consistently refashioned the legal parameters of the institution
