Massacre River:

The Image of the River in Latin/o American Literature Jeanie Murphy, Elizabeth G. Rivero, 2017-12-20 Although fictional and often fantastic representations of nature have been a distinguishing feature of Latin American literature for centuries ecocriticism understood as the study of literature as it relates to depictions of the natural world environmental issues and the ways in which human beings interact and identify with their natural surroundings did not emerge as a field of scholarly interest in the region until the end of the twentieth century This volume employs an ecocritical lens in order to explore and question the use of the river imagery in Latino and Latin American literature from the colonial period to our modern world creating a space in which to examine both its literal and figurative meanings associated as much with processes of a personal nature as with those of the collective experience in the region The slow meandering streams of nostalgia the raging currents of conflict or the stagnant waters of social decay are just a few of the ways in which the river has become an important symbol and inspiration to many of the region's writers This book offers a diverse collection of writings that through a trans historical and trans geographical perspective allows us from the vantage point of the twenty first century to reflect on the rich and dynamic image of the river and by extension on the vital context of Latin o America its people and societies

Cleophas, 2016-05-12 Throughout Haitian history from 17th century colonial Saint Domingue to 21st century postcolonial Haiti arguably the Afro Haitian religion of Vodou has been represented as an unsettling faith and a cultural paradox as expressed in various forms and modes of Haitian thought and life including literature history law politics painting music and art Competing voices and conflicting ideas of Vodou have emerged from each of these cultural symbols and intellectual expressions The Vodouist

discourse has not only pervaded every aspect of the Haitian life and experience it has defined the Haitian cosmology and worldview Further the Vodou faith has had a momentous impact on the evolution of Haitian intellectual aesthetic and literary imagination comparatively Vodou has shaped Haitian social ethics sexual and gender identity and theological discourse such as in the intellectual works and poetic imagination of Jean Price Mars Dantes Bellegarde Jacques Roumain Jacques Stephen Alexis etc Similarly Vodou has shaped the discourse on the intersections of memory trauma history collective redemption and Haitian diasporic identity in Haitian women s writings such as in the fiction of Edwidge Danticat Myriam Chancy etc The chapters in this collection tell a story about the dynamics of the Vodou faith and the rich ways Vodou has molded the Haitian narrative and psyche The contributors of this book examine this constructed narrative from a multicultural voice that engages critically the discipline of ethnomusicology drama performance art anthropology ethnography economics literature intellectual history philosophy psychology sociology religion and theology Vodou is also studied from multiple theoretical approaches including queer feminist theory critical race theory Marxism postcolonial criticism postmodernism and psychoanalysis

Transnational Hispaniola April J. Mayes,Kiran C. Jayaram,2022-06-21 In addition to sharing the Caribbean island of Hispaniola Haiti and the Dominican Republic share a complicated and at times painful history Yet *Transnational Hispaniola* shows that there is much more to the two nations relationship than their perceived antagonism Rejecting dominant narratives that reinforce opposition between the two sides of the island contributors to this volume highlight the connections and commonalities that extend across the border mapping new directions in Haitianist and Dominicanist scholarship Exploring a variety of topics including European colonialism migration citizenship sex tourism

Remarkably more than half of the world's population now lives in cities and the numbers grow daily as people abandon rural areas. This fully updated and revised fifth edition of the classic text offers readers a comprehensive set of tools for understanding the urban landscape and by extension the world's politics, cultures, and economies. Providing a sweeping overview of world urban geography, a group of noted experts explores the eleven major global regions. Each author presents the region's urban history, economy, culture, and society as well as urban spatial models and problems and prospects. Environmental, human security, globalization, and cyberspace topics are fully developed as well. Vignettes of seventy-eight key cities give the reader a vivid understanding of daily life and the spirit of place. An introductory chapter presents an overview of key terms and concepts, and a concluding chapter projects the world's urban future. Liberally illustrated with a new selection of photographs, maps, and diagrams, the text also includes a rich array of textboxes to highlight key topics ranging from gender and the city to Islamic fashion and global warming. Bibliographic sources, websites, and an appendix of UN data provide additional resources for helping students understand more about the urban world. Clearly written and timely, *Cities of the World* will be invaluable for those teaching introductory or advanced classes on global cities, regional geography, and urban studies. knowledge production and coalition formation Soyica Diggs Colbert argues that in the late twentieth century race went underground and by the twenty first century race no longer functioned as an explicit marker of second class citizenship The subterranean nature of race manifests itself in discussions of the Trayvon Martin shooting that focus on his hoodie an object of clothing that anyone can choose to wear rather than focusing on structural racism in discussions of the epidemic proportions of incarcerated black and brown people that highlight the individual s poor decision making rather than the criminalization of blackness in evaluations of black independence struggles in the Caribbean and Africa that allege these movements have accomplished little more than creating a black ruling class that mirrors the politics of its former white counterpart Black Movements intervenes in these discussions by highlighting the ways in which artists draw from the past to create coherence about blackness in present and future worlds Through an exploration of the way that black movements create circuits connecting people across space and time Black Movements offers important interventions into performance literary diaspora and African American studies **Performance in the Borderlands** R. Young, 2010-11-17 A border is a force of containment that inspires dreams of being overcome and crossed motivates bodies to climb over and threatens physical harm This book critically examines a range of cultural performances produced in relation to the tensions and movements of about the borders dividing North America including the Caribbean **Place Names in**

Haiti and the Dominican Republic United States. Department of the Interior. Division of Geography, 1947 **The American Gazetteer**, 1810 *Critical Nostalgia and Caribbean Migration* J. A. Brown-Rose, 2009 The literature of Caribbean writers living in the United States embodies a duality an awareness of multiple sites of identity as well as conflict of place and space Easily grouped with African Americans Caribbean peoples and other immigrants from the African Diaspora make up the quasi political face of Black America But as immigrants from a former colonized community Caribbean writers carry with them a historical experience that differentiates them from African Americans they stand on the border of two spaces What impact does this duality have on Caribbean literature written by writers who have left the home space for American soil As many writers have suggested Caribbean writers are continuously looking back to home in an attempt to understand who they are and where they belong This book postulates that it is through nostalgia or an attempt to renegotiate the past that the Caribbean writer attempts to reconcile his her duality Nostalgia can be directly linked to an understanding of and by extension a critique of American social and political practices as well as an appraisal of colonial influences in the Caribbean Thus the discourse of Caribbean writers living in America operates on different levels Although Caribbean migratory writers are continuously looking back to home this nostalgia is tied to a reevaluation of American and island consciousness The texts discussed in this work are in effect engaged in critical analysis the texts perform criticism of the home country and that man s country the United States *Violence in Francophone African and Caribbean Women's Literature* Chantal Kalisa, 2009-01-01 Chantal Kalisa examines the ways in which women writers lift taboos imposed on them

by their society and culture and challenge readers with their unique perspectives on violence Comparing women from different places and times Kalisa treats types of violence such as colonial familial linguistic and war related specifically linked to dictatorship and genocide She examines Caribbean writers Michele Lacrosil Simone Schwartz Bart Gis le Pineau and Edwidge Danticat and Africans Ken Begul Calixthe Beyala Nadine Bar and Monique Ilboudo She also includes Semb ne Ousmane and Frantz Fanon

Memory and the Archival Turn in Caribbean Literature and Culture Marta Fernández Campa, 2023-04-15 This book discusses an archival turn in the work of contemporary Caribbean writers and visual artists across linguistic locations and whose work engages critically with various historical narratives and colonial and postcolonial records This refiguration opens a critical space and retells stories and histories previously occluded in by those records and in spaces of the public sphere Through poetics and aesthetics of fragmentation largely influenced by music and popular culture their work encourages contrapuntal ways of re thinking histories ways that interrogate the influence of colonial narratives in processes of silencing but also centre the knowledge found in oral histories and other forms of artistic archives outside official repositories Discussing literature and selected artwork by artists from Britain Cuba the Dominican Republic Haiti Puerto Rico and Trinidad and Tobago Memory and the Archival Turn in Caribbean Literature and Culture demonstrates the historiographical significance of artistic and cultural production
