DIY Punk as Education Rebekah Cordova, 2016-11-01 Punk music and community have been a piece of United States culture since the early 1970s Although varied scholarship on Punk exists in a variety of disciplines the educative aspect of Punk engagement specifically the Do It Yourself DIY ethos has yet to be fully explored by the Education discipline This study attempts to elucidate the experiences of adults who describe their engagement with Punk as educative To better know this experience is to also better understand the ways in which Punk engagement impacts learner selfconcept and learning development

Phenomenological in depth interviewing of six adult participants located in Los Angeles California and Gainesville Florida informs the creation of narrative data once interpreted reveals education journeys that contain mis educative experiences educative experiences and ultimately educative healing experiences Using Public Pedagogy Social Learning Theory and Self Directed Learning Development as foundational constructs this work aims to contribute to scholarship that brings learning contexts in from the margins of education rhetoric and into the center of analysis by better understanding and uncovering the essence of the learning experience outside of school Additionally it broadens the understanding of Punk engagement in an attempt to have an increased nuanced perspective of the independent learning that may be perceived as more educative than any formal attempt within our school systems Weapons of Mass Destruction and the Real War on Terror Jeff Ott,2005 In the second book by Jeff Ott front man for legendary Bay Area Punk band Fifteen we find the refreshing assertion that there is an actual threat of WMD and an actual war on terror that has every thing to do with the familial business and governmental structure in the US and very little to do with the Middle East **CMJ New Music Monthly..** ,2000
