A collection of essays on public topics authored by Pratheek Praveen Kumar *My World* MICHAEL JEAN

NYSTROM-SCHUT,2004-05-19 Let me tell you how much fun it is to be a book writer One of my friends recently said to me I dont even know anyone whos ever READ a book let alone WRITE one I was amused Well you know its really not so hard to write a book You just talk about what you feel and organize your thoughts along the way At some point as you stay determined to make it happen the book comes into the world For me now having compiled over 30 book length manuscripts of various topics and subject matter I have become more and more inclined to share the way I see the world with others along the way You might call what I like to write about as having to do with personal philosophy or individual world view Everyone has a way they see their world this book is part of how I see mine It seems that all kinds of people have something to say about what life is and is not I am like most people so am no exception I have come to enjoy giving such opinions and points of view with just about anyone who will listen I wrote this book MY WORLD The First 50 Years because I wanted to be sure and document the way life appeared to be to me at the half century mark in my personal growth and evolution I did it in a way that enables you to read right through it or if you prefer you can take it slowly over a one year span of time and think about the ideas and thoughts carefully How you read the book is entirely up to you Ten years earlier I had written a similar book Earth Dwelling An Owners Manual for Life in order to share thoughts about the meaning and purpose of life It is amazing the difference that ten years can make I like to think that I am growing Gee Could that be I sure hope so People from the worlds of philosophy religion and the popular culture are anxious to share the way they see the world with others I have a passion to do that also and so I wrote this book in order to summarize how things in life appeared to me I could be way off you decide for yourself At any rate my world is MY way of seeing life in YOUR world you will see it your special way and that is part of the beauty of this life Each person is free to see it differently and that is our basic right to do so I like that I

actually feel so strongly about what I am saying here that I created a web site which is called HowIseetheworld.com to talk about and share ideas with others Take a look at it some time Thoughts are powerful and have a tendency to either make you great or even destroy you before your time So think good thoughts And enjoy the book as well **My Sea My Life My World** P.Sukumaran,2019-12-12 The Ocean is the heart of the planet Water covers more than two thirds of the Earth s surface All living things from tiny cyanobacteria to giant blue whales need water to survive Without water life as we know it would not exist And life exists wherever there is water Life in the ocean depends on phytoplankton mostly microscopic organisms that float at the surface and through photosynthesis produce about half of the world s oxygen The oceans are home to millions of Earth s plants and animals from tiny single celled organisms to the gargantuan blue whale the planet s largest living animal Fish octopuses squid eels dolphins and whales swim the open waters while crabs octopuses starfish oysters and snails crawl and scoot along the ocean bottom The oceans hold about 321 million cubic miles 1 34 billion cubic kilometers of water which is roughly 97 percent of Earth s water supply Seawater s weight is about 3 5 percent dissolved salt oceans are also rich in chlorine magnesium and calcium The oceans absorb the sun s heat transferring it to the atmosphere and distributing it around the world This conveyor belt of heat drives global weather patterns and helps regulate temperatures on land acting as a heater in the winter and an air conditioner in the summer Geographers divide the ocean into five major basins the Pacific Atlantic Indian Arctic and Southern Smaller ocean regions such as the Mediterranean Sea Gulf of Mexico and the Bay of Bengal are called seas gulfs and bays Inland bodies of saltwater such as the Caspian Sea and the Great Salt Lake are distinct from the world s oceans As sailors we also serve as educators ambassadors and advocates of a lifestyle on the water Together we share a passion for the ocean and an avid desire to keep our playground clean and safe forever Waterways are crucial to our health for us and future generations With more than 60% of the world s population living on the coastline we all depend on a healthy sea just as much as these beautiful creatures Life do not exists without water I join you all to thank VARUNA DEVA for blessing us with life on earth and seek his continues blessings His beauty at night with stars and moon is beyond description Many nights I have spent hours admiring and enjoying it Don t ask me my reactions when he is angry with choppy seas Me, My World, and I A.V. Around My World Jason Thiessen, 2012-07 In life we are occasionally faced with detours Some of them are thrust upon us just when we think we have life all figured out Sometimes however they are self created We choose to take them driven by some inner desire or passion Author Jason Thiessen's extraordinary adventure was just such a detour borne of the dreams of a young boy with only an atlas as his guide to an unseen world Nearly thirty years after those dreams began they became a reality Thiessen a man with a wife a career and a mortgage set out on a journey of discovery to find purpose and meaning while attempting to answer lifelong questions His detour from an otherwise traditional life path took him to South America Africa the Middle East Europe India Southeast Asia and Australia ultimately traveling twice the distance of the circumference of the earth Just as his adventure brought him from the heights of the Andes to the depths of the Dead Sea so too did Thiessen take an emotional journey from feelings of excitement fulfillment and joy to those of anger frustration and despair Around My World A Detour on Life's Journey tells a
