Black Terror White Soldiers David Livingstone,2013-06-16 Far too ignorant of the histories of the rest of the world being aware of only the accomplishments of Greece Rome and Europe Westerners have been made to believe that their societies represent the most superior examples of civilization However the Western value system stems from a misconception that as in nature human society too is evolving The idea derives from the hidden influence of secret societies who followed the belief in spiritual evolution of the Kabbalah which taught that history would attain its fulfillment when man would become God and make his own laws Therefore the infamous Illuminati gave its name to the Enlightenment of the eighteenth century which claimed that human progress must abandon superstition meaning Christianity in favor of reason Thus the Illuminati succeeded in bringing about the French and American revolutions which instituted the separation of Church and State and from that point forward the Western values of Humanism seen to include secularism human rights democracy and capitalism have been celebrated as the culmination of centuries of human intellectual evolution This is the basis of the propaganda which has been used to foster a Clash of Civilizations where the Islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy Where once the spread of Christianity and civilizing the world were used as pretexts for colonization today a new White Man s Burden makes use of human rights and democracy to justify imperial aggression However because after centuries of decline the Islamic world is incapable of mobilizing a defense the Western powers as part of their age old strategy of Divide and Conquer have fostered the rise of Islamic fundamentalism to both serve as agent provocateurs and to malign the image of Islam These sects known to scholars as Revivalists opposed the traditions of classical Islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors Thus were created the Wahhabi and Salafi sects of Islam from which were derived the Muslim Brotherhood which has been in the service of the West ever since But the story of the development of these Islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a Rosicrucian myth of Egyptian Freemasonry which see the Muslim radicals as inheritors of an ancient mystery tradition of the Middle East which was passed on to the Knights Templar during the Crusades thus forming the foundation of the legends of the Holy Grail These beliefs would not only form

the cause for the association of Western intelligence agencies with Islamic fundamentalists but would fundamentally shape much of twentieth century history
