Mystical Theology And The Divine Names:

Dionysius the Areopagite: On the Divine Names and the Mystical Theology. C. E. Rolt,1951 The Mystical Theology and The Divine Names Dionysius the Areopagite,2012-03-09 The treatises and letters of Dionysius the Areopagite blended Neoplatonic philosophy with Christian theology and mystical experience Their exploration of the nature and results of contemplative prayer exercised a lasting influence *On the Divine Names and The Mystical Theology* Dionysius the Areopagite,Aeterna Press, At wearisome length Dionysius discusses the problem of evil and shows that nothing is inherently bad For existence is in itself good as coming ultimately from the Super Essence and all things are therefore good in so far as they exist Since evil is ultimately non existent a totally evil thing would be simply non existent and thus the evil in the world wherever it becomes complete annihilates itself and that wherein it lodges We may illustrate this thought by the nature of zero in mathematics which is non entity since added to numbers it makes no difference and yet has an annihilating force since it reduces to zero all numbers that are multiplied by it Even so evil is nothing and yet manifests itself in the annihilation of the things it qualifies Aeterna Press **The Divine Names and the Mystical Theology** Pseudo-Dionysius (the Areopagite),1940 **Dionysius the Areopagite; The Divine Names; And the Mystical Theology** C. E. Rolt, 2019 **The Divine Names** 'Afif al-Dīn al-Tilimsānī, 2023-12-01 A Sufi scholar's philosophical interpretation of the names of God The Divine Names is a philosophically sophisticated commentary on the names of God Penned by the seventh thirteenth century North African scholar and Sufi poet Af f al D n al Tilims n The Divine Names expounds upon the one hundred and forty six names of God that appear in the Qur an including The All Merciful The Powerful The First and The Last In his treatment of each divine name al Tilims n synthesizes and compares the views of three influential earlier authors al Bayhaq al Ghaz l and Ibn Barrajj n Al Tilims n famously described his two teachers Ibn al Arab and al Q naw as a philosophizing mystic and a mysticizing philosopher respectively Picking up their mantle al Tilims n merges mysticism and philosophy combining the tenets of Akbar Sufism with the technical language of Aristotelian Neoplatonic and Avicennan philosophy as he explains his logic in a rigorous and concise way Unlike Ibn al Arab his overarching concern is not to examine the names as correspondences between God and creation but to demonstrate how the names overlap at every level of cosmic existence The Divine Names shows how a broad range of competing theological and philosophical interpretations can all contain elements of the truth A bilingual Arabic English edition **Dionysius** Dionysius Aeropagita Pseudo-, 2018-10-14 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Dionysius, the Areopagite, on the Divine Names and the Mystical Theology** Pseudo-Dionysius (the Areopagite.), Clarence Edwin Rolt, 1940
