Mysticism Direct Experience:

The Mysticism of Ordinary and Extraordinary Experience Harry L. Serio, 2021-04-12 We are so much more than we appear to be The why of our existence is far more complex than the how of our being Mysticism probes the hidden nature of who we are why we are and our relationship to our Creator We catch glimpses of this not only in the ordinary experiences of life but also through extraordinary and unusual encounters with mystery Mysticism is the awareness of our reality

Mysticism, Madness, Myth and Mania Robert Laynton, 2015-02-14 What happens when a person has a Clear Vivid ecstatic transcendent religious or spiritual experience where they sense that they are being caught up to God or Spirit Do they really encounter an unseen intangible spiritual realm that is Ultimate Reality and the Ground of existence Why do some people who are diagnosed as mentally ill claim to have such experiences If a person persists in these kinds of beliefs are they deluded or even mad Are they actually suffering from religious mania Are atheists correct in dismissing these experiences as merely psychological Or is it the atheists who are blind and deaf when it comes to Ultimate Reality Drawing from personal experience and from over forty years of practical and theoretical engagement with spirituality and religion as well as from approaches within psychology author Robert Laynton explores these questions not as a defense of religion or spirituality but as an exploration of experience on the edge of reason

Mysticism and the Bahá'í Revelation Ruhi Muhsen Afán, 1934

Psychedelic Mysticism Morgan Shipley, 2015-11-12 Concerned with scholarly popular and religious backdrops that understand the connection between psychedelics and mystical experiences to be devoid of moral concerns and ethical dimensions a position supported empirically by the rise of acid fascism and psychedelic cults by the late 1960s Psychedelic Mysticism Transforming Consciousness Religious Experiences and Voluntary Peasants in Postwar America traces the development of sixties psychedelic mysticism from the deconditioned mind and perennial philosophy of Aldous Huxley to the sacramental ethics of Timothy Leary Richard Alpert and Ralph Metzner to the altruistic religiosity practiced by Stephen Gaskin and The Farm Building directly off the pioneering psychedelic writing of Huxley these psychedelic mystics understood the height of psychedelic consciousness as an existential awareness of unitive oneness a position that offered worldly alternatives to the maladies associated with the postwar moment e g vapid consumerism and materialism lifeless conformity unrelenting racism heightened militarism In opening a doorway to a common world Morgan Shipley locates how psychedelics challenged the coherency of Western modernity by fundamentally reorienting postwar society away from neoliberal ideologies and toward a sacred understanding of reality defined by mutual coexistence and responsible interdependence In 1960s America psychedelics catalyzed a religious awakening defined by compassion expressed through altruism and actualized in projects that sought to ameliorate the conditions of the least advantaged among us In the exact moments that historians and cultural critics often locate as signaling the death knell of the counterculture Gaskin and The Farm emerged not as a response to the perceived failures of the hippies nor as an alternative to sixties politics but in an

effort to fulfill the religious obligation to help teach the world how to live more harmoniously Today as we continue to confront issues of socioeconomic inequality entrenched differences widespread violence and the limits of religious pluralism Psychedelic Mysticism serves as a timely reminder of how religion in America can operate as a tool for destabilization and as a means to actively reimagine the very basis of how people relate such a legacy can aid in our own efforts to build a more peaceful sustainable and compassionate world

Foundations of a Global Spiritual Awakening Edgar John Burns,2003-06-27 Blood Thick red still I shivered in spite of the comfortable temperature in the room Staring fixedly at the ooze I watched the edges curl inward as if it were trying to remove itself from the white linoleum embarrassed by its own unseemly appearance Except for the blood all was normal in the primate biology lab of Loma University Situated in upscale San Larimor the campus s property nestles in the rolling hills just northwest of Los Angeles renowned for stately Mediterranean style mansions and frequent celebrity sightings San Larimor Police Detective Cate Blaine becomes embroiled

in a puzzle of blood a missing security guard and a deadly chase against time While searching for the answers to the case Cate is searching for clues to solving her own inner battle dealing with the senseless loss of her son and husband As she moves between the real world of crime and the inner chaos of her emotions she is in jeopardy of loosing her job and her sanity Thrown into an unwelcome partnership with LU s Private Security chief Sloane Stevens Cate fights the impulse to keep case details from the blue eyed ex cop when The flashlight reflecting off the industrial plastic made Stan s face and body just visible Blank eyes stared back at us a silent scream contorting his features Sloane s involvement proves almost too much as Cate races against time murders and the possibility of her safety
