New Classical Dictionary of Biography, Mythology and Geography sir William Smith,1850 *Myth, Religion, and Mother Right* Johann Jakob Bachofen,1992-07-15 The Swiss thinker J J Bachofen is most often connected with his theory of matriarchy or mother right but that concept is only a small part of his contribution to our understanding of cultural history This book includes an autobiographical essay and selections from An Essay on Ancient Mortuary Symbolism Mother Right and The Myth of Tanaquil The Student's Greece a history of Greece William Smith,2022-07-30 Reprint of the original first published in 1871 **A New Classical Dictionary of Greek and Roman Biography,mythology and Geography** William Smith,1871 **A Classical Dictionary of Biography, Mythology, and Geography** William Smith,1863 Ancient Egypt 39,000 BCE Edward F. Malkowski,2010-05-14 A view into the sophisticated and highly advanced civilization that preceded the world of the pharaohs Presents historical evidence of the civilization ruled by the gods that the Egyptians claimed preceded their own Explains who these prehistoric people were what happened to them and why they built a series of pyramids along the west bank of the Nile River Traditional Egyptologists have long resisted the notion that the architectural achievements of the Ancient Egyptians required the existence of a much more sophisticated technology than would have existed at that time Yet no records exist explaining how why or who built Egypt s megalithic monuments and statues The ancient Egyptians did however record that their civilization resided in the shadow of a kingdom of gods whose reign ended many thousands of years before their first dynasty What was this Civilization X that antiquity s most accomplished people revered as gods The recent discovery of a large stone at one of Egypt s oldest ruins presents physical evidence that clearly and distinctly shows the markings of a machining process far beyond the capabilities of the Ancient Egyptians Likewise experimental modeling of the Great Pyramid s subterranean chambers and passageways gives scientific evidence to further support the theory that the civilization responsible for such magnificent monuments is much older than presently believed Ancient Egypt 39 000 BCE examines this evidence from historical and technical points of view explaining who these prehistoric people were what happened to them why they built

their civilization out of granite and why they built a series of pyramids along the west bank of the Nile River
