Postmodernism: Foundational essays Victor E. Taylor, Charles E. Winquist, 1998 Metaphor and the Ancient Novel S. J. Harrison, Michael Paschalis, Stavros A. Frangoulidis, 2005 This thematic fourth Supplementum to Ancient Narrative entitled Metaphor and the Ancient Novel is a collection of revised versions of papers originally read at the Second Rethymnon International Conference on the Ancient Novel RICAN 2 under the same title held at the University of Crete Rethymnon on May 19 20 2003 Though research into metaphor has reached staggering proportions over the past twenty five years this is the first volume dedicated entirely to the subject of metaphor in relation to the ancient novel Not every contributor takes into account theoretical discussions of metaphor but the usefulness of every single paper lies in the fact that they explore actual texts while sometimes theorists tend to work out of context **The Inner Reaches of Outer Space** Joseph Campbell, 2012

the world are fundamental for all of us And intelligent analysis of the relationship between literary theory and popular culture can help us to understand our fast changing world Here experienced literary scholar and teacher Edward L Tomarken explains how it is possible to study the rudiments of literary theory by watching and analyzing contemporary mainstream movies from The Dark Knight to Kill Bill and from The Social Network to The Devil Wears Prada Theorists discussed include Foucault Jameson Iser and Cixous Tomarken brilliantly demonstrates that anyone can grasp modern literary theory by way of mainstream movies without having to wade through stacks of impenetrable jargon Biblical Anthropology Compared with and Illustrated by the Folklore of Europe and the Customs of Primitive Peoples Hugh John Dukinfield Astley,1929 *Memory, Metaphor, and Aby Warburg's Atlas of Images* Christopher D. Johnson,2012-09-15 The work of German cultural theorist and art historian Aby Warburg 1866 1929 has had a lasting effect on how we think about images This book is the first in English to focus on his last project the encyclopedic Atlas of Images Mnemosyne Begun in earnest in 1927 and left unfinished at the time of Warburg s death in 1929 the Atlas consisted of sixty three large wooden panels covered with black cloth On these panels Warburg carefully intuitively arranged some thousand black and white photographs of classical and Renaissance art objects as well as of astrological and astronomical images ranging from ancient Babylon to Weimar Germany Here and there he also included maps manuscript pages and contemporary images taken from newspapers Trying through these constellations of images to make visible the many polarities that fueled antiquity s afterlife Warburg envisioned the Atlas as a vital form of metaphoric thought While the nondiscursive frequently digressive character of the Atlas complicates any linear narrative of its themes and contents Christopher D Johnson traces several thematic sequences in the panels By drawing on Warburg s published and unpublished writings and by attending to Warburg s cardinal idea that pathos formulas structure the West s cultural memory Johnson maps numerous tensions between word and image in the Atlas In addition to examining the work itself he considers the literary philosophical and intellectual historical implications of the Atlas As Johnson demonstrates the Atlas is not simply the culmination of Warburg s lifelong study of Renaissance culture but the ultimate expression of his now literal now metaphoric search for syncretic solutions to the urgent problems posed by the history of art and culture *Metaphor and Comparison in the Epistulae Ad Lucilium of L. History and Anti-History in Philosophy Victorino Tejera,2017-07-05 History and Anti History in Philosophy demonstrates the viability of the idea of the unity of philosophic thinking and the reflective practice of the history of philosophy It is a concise in depth history of the deconstructive turn in philosophy and of the styles of historical and interpretive contextualization afforded by diverse schools of thought Thematic unity arises from the focus of contributors on the historical dimension of reflection in philosophy History of philosophy and intellectual history come together when they are forced to practice foundational analysis namely when they feel the need to uncover indubitables of society Indubitables are deeply held usually unnoticed premises upon which a society or group acts builds and speaks By foundational analysis the editors do not mean the search for acceptable starting points of intellectual exploration but the ongoing criticism of all such postulates of faith For those interested in contextual analysis of Kant Hegel Marx Dewey Mannheim Husserl Dilthey Heidegger and Gadamer this is an invaluable guide The editors make plain their belief that not using history as have past philosophies is unphilosophic ideas in personal construction to a text that cannot supply reasons for being taken seriously in history This volume illuminates the achievements of present day social science insights It merits a close reading by those for whom the history of ideas is a living entity

Literature and Theology Dr Heather Walton,2013-06-28 This book explores current trends in the interdisciplinary study of literature and theology an area of academic activity that has developed dramatically in the past twenty years The field of study originated from the impetus to embrace the richness of imaginative resources in theological reflection and was stimulated by the re emergence of the sacred in contemporary theory Since the mid 90s critical theory has undergone a number of significant transformations theology has become a subject of public concern and the boundaries between sacred and cultural texts have become increasingly unstable This book brings together the work of leading scholars in the field with that of emerging voices Offering an important resource for the growing number of postgraduate courses exploring the relation between religion and culture in the contemporary context this book delineates current trends in interdisciplinary debate as well as tracing emerging

configurations *Metaphors, Narratives, Emotions* Stefán Snævarr, 2010-01-01 This book argues that there is a complex logical and epistemological interplay between the concepts of metaphor narrative and emotions They share a number of important similarities and connections In the first place all three are constituted by aspect seeing the seeing as or perception of Gestalts Secondly all three are meaning endowing devices helping us to furnish our world with meaning Thirdly the threesome constitutes a trinity Emotions have both a narrative and metaphoric structure and we can analyse the concepts of metaphors and narratives partly in each other's terms Further the concept of narratives can partly be analysed in the terms of emotions And if emotions have both a narrative structure and a metaphoric one then the concept of emotions must to some extent be analysable through the concepts of narratives and metaphors But there is more Metaphors especially poetic ones are important tools for the understanding of the tacit sides of emotions perhaps because of the metaphoric structure of emotions The notion that narrations can be tools for understanding emotions follows from two facts narrations are devices for explanation and emotions have a narrative structure Fourthly the threesome has an impact on our rationality It has become commonplace to say that emotions have a cognitive content that narratives have an explanatory function and that metaphors can perform cognitive functions This book is the first attempt to articulate the implications that these new ways of seeing the three concepts entail for our concept of reason The cognitive roles of the threesome suggest a richer notion of rationality than has traditionally been held a rationality enlivened with metaphoric narrative and emotive qualities
