Negotiating Cooperation The United States And China 1969 1989:

Negotiating Cooperation Robert S. Ross, 1997-05-01 In the 1970s and 1980s the United States and China developed cooperative relations to enhance security against the USSR Conventional wisdom claims Washington and Beijing agreed to shelve conflictual issues where conflict occurred diplomatic error or domestic politics are blamed This book shows however that US China cooperation was fragile precisely because of ongoing conflicts notably that over Taiwan The author disputes Kissinger s claim that only he and Nixon understood Taiwan s unimportance China never found the US stance on Taiwan acceptable and the issue required constant attention The book shows how the two powers built cooperative relations despite Taiwan It explains how negotiations were conducted and why the two powers at times compromised and at times accepted the status quo It examines why relations on occasion became acrimonious and why the acrimony subsided *The Golden Age of the U.S.-China-Japan Triangle, 1972-1989* Ezra F. Vogel, Ming Yuan, Akihiko Tanaka, 2002 Identifying the period under examination as an unusual time during which China Japan and the United States all had positive relations with each other Vogel Ming and Akihiko present nine essays that examine the triangle of international relations from a triangle of national viewpoints After three examinations of the domestic politics of each country each penned by a scholar from the country under examination the respective bilateral relations between the countries are explored Each of the three sections on bilateral relations contains two articles offering one perspective each from the countries under examination

Re-examining the Cold War: U.S.-China Diplomacy, 1954-1973 Robert S. Ross, Changbin Jiang, 2020-03-23 The twelve essays in this volume underscore the similarities between Chinese and American approaches to bilateral diplomacy and between their perceptions of each other s policy making motivations Much of the literature on U S China relations posits that each side was motivated either by ideologically informed interests or by ideological assumptions about its counterpart But as these contributors emphasize newly accessible archives suggest rather that both Beijing and Washington developed a responsive and tactically adaptable foreign policy Each then adjusted this policy in response to changing international circumstances and changing assessments of its counterpart s policies Motivated less by ideology than by pragmatic national security concerns each assumed that the other faced similar considerations *Thirty Years of China-U.S. Relations* Sujian Guo, Baogang Guo, 2010-01-01 This book examines structural factors ideas institutions issues and challenges that have shaped China U S relations in the past thirty years as well as the recent changes in the global geostrategic landscape and economic interdependence that have significant impacts on the bilateral relations into the 21st century *The United States and China* Michael Schaller, 2016 From the Opium Wars of the 1840s to the Red Scare of the 1940s through the Tiananmen Square massacre of 1989 and the Wen Ho Lee espionage case of 2000 Chinese American relations have swung like a pendulum throughout the years Now in its fourth edition and thoroughly revised and updated *The United States and China Into the Twenty First Century* looks at more than a century of Chinese American turmoil from a dual perspective examining

how two dramatically different cultures interacted cooperated and collided **America's China Gamble** Paul J. Smith, 2025-07-15 This timely book provides a broad but incisive overview of US policy toward the People's Republic of China from 1949 until the present Paul J. Smith argues that any conflict or war between the two nations would have devastating global consequences proposing a mutually beneficial path forward *China Watching* Robert Ash, David Shambaugh, Seiichiro Takagi, 2007-01-24 An international team of contributors analyzes the state of European Japanese and American scholarship on China over the last decade exploring in depth the main subjects and trends in research being done on contemporary Chinese politics economy foreign affairs and security studies *China And The World* Samuel S. Kim, 2018-02-02 As the postwar international system continues its dramatic transformation the fundamental question of what role China will play is becoming increasingly central Contributors to the volume focus on the developments of the post Tiananmen years addressing the issues raised by China's expanding and increasingly complex relationships with a rapidly changing global environment They consider such questions as What is the principal challenge of post Tiananmen foreign policy How will China cope with the call for a more peaceful equitable democratic and ecological world order How has the nexus between China and the world changed in this transition period and why What are the implications for China's future and for the future of the rest of the world Combining a broad theoretical framework with specific case studies this text tackles themes that have long puzzled Westerners Seeking the often elusive sources of Chinese foreign policy the contributors assess the relative influences of domestic and foreign factors in shaping policy goals They also examine the changes and continuities that have characterized Chinese foreign relations over the years identifying the patterns underlying China's interactions with the major global actors and its policies on specific international issues Special attention is paid to the word deed and at times word word disjuncture in Chinese foreign relations with several chapters probing the discrepancies between rhetoric and reality policy pronouncements and policy performance and intent and outcome The human rights component of China's foreign policy and China's foreign policy options for the last decade of the century are also discussed New to this revised and updated edition of *China and the World* are discussions concerning Chinese foreign policies and international relations theories the relationship between China and the Third World and China's environmental diplomacy **China Briefing** Jay D. White, William A. Joseph, 2019-08-08 This work provides a retrospective analysis of important events in China Taiwan and Hong Kong in the mid 1990s and a prospective look at some of the issues that will shape these areas as they each move toward decisive turning points in their distinct yet intertwined histories

Indo-Pacific Security: US-China Rivalry And Regional States' Responses Nicholas Kay Siang Khoo, Germana Nicklin, Alexander C. Tan, 2024-01-03 Following the 2008 Beijing Olympics and Global Financial Crisis China's foreign policy shifted to become more assertive effecting a systematic deterioration in the US-China relationship In 2017 the US-China policy shifted from that of engagement to strategic competition under Trump a policy which has remained under the Biden

administration Indo Pacific Security US China Rivalry and Regional States Responses explores how states in the Indo Pacific region have had to adjust to the reality and implications of this growing great power rivalry In the process this book fills a gap in the area studies international relations and security studies literature It provides a compelling account of the trajectory of US China relations while illuminating the varied responses of regional states from Australia India and Japan to South Korea Thailand Taiwan and Pacific Island states

The Rise of China Michael E. Brown,2000 Analysts debate the international implications of a newly powerful China China's relentless economic growth in the 1980s and 1990s heralded its emergence as a great power in world politics As its economy expanded China seemed poised to become the second largest economy in the world At the same time it modernized its military and adopted a more assertive diplomatic posture Many observers have begun to debate the international implications of China's rise Some analysts argue that China will inevitably pose a threat to peace and security in East Asia A few even predict a new cold war between Beijing and Washington Others claim that a powerful China can remain benign None believes that China can be ignored The essays in this volume assess China's emerging capabilities and intentions debate the impact that China will have on security in the Asia Pacific region and propose policies for the United States to adopt in its relations with China

Improbable Diplomats Pete Millwood,2022-12-22 In 1971 Americans made two historic visits to China that would transform relations between the two countries One was by US official Henry Kissinger the other earlier visit was by the US table tennis team Historians have mulled over the transcripts of Kissinger's negotiations with Chinese leaders However they have overlooked how alongside these diplomatic talks a rich program of travel and exchange had begun with ping pong diplomacy Improbable Diplomats reveals how a diverse cast of Chinese and Americans athletes and physicists performing artists and seismologists played a critical but to date overlooked role in remaking US China relations Based on new sources from more than a dozen archives in China and the United States Pete Millwood argues that the significance of cultural and scientific exchanges went beyond reacquainting the Chinese and American people after two decades of minimal contact exchanges also powerfully influenced Sino American diplomatic relations and helped transform post Mao China

China's Big Power Ambition under Xi Jinping Suisheng Zhao,2021-12-14 Instead of

emphasizing China as a developing country Chinese President Xi Jinping has identified China as a big power and accentuated China's big power status This book explores the narratives and driving forces behind China's big power ambition Three narratives rooted in Sino centralism are examined One is China's demands for the reform of global governance to reflect the values and interests of China as a rising power Another is China's Belt and Road Initiative to construct a nascent China centred world order The third is the China model and self image promotion in the developing countries There are many forces that have driven or constrained China's big power ambition This collection focuses on two sets of forces One is China's domestic politics and economic incentives and disincentives The other is China's geo political and geo economic interests These forces have both motivated and constrained China's big power ambition The chapters in this book were originally published in the Journal of Contemporary China

The Domestic Sources of China's Foreign Policy Lai Hongyi, 2010-04-28 Offers a systemic analysis of the foreign policy of China This title demonstrates how domestic factors have profoundly shaped China's foreign policy from the late Mao's era to the reform era presenting its argument through an analysis of major cases of Chinese foreign policy

American Images of China Oliver Turner, 2014-04-16 The United States and China are arguably the most globally consequential actors of the early twenty first century and look set to remain so into the foreseeable future This volume seeks to highlight that American images of China are responsible for constructing certain truths and realities about that country and its people It also introduces the understanding that these images have always been inextricable from the enactment and justification of US China policies in Washington and that those policies themselves are active in the production and reproduction of imagery and in the protection of American identity when seemingly threatened by that of China Demonstrating how past American images of China are vital to understanding the nature and significance of those which circulate today Turner addresses three key questions What have been the dominant American images of China and the Chinese across the full lifespan of Sino US relations How have historical and contemporary American images of China and the Chinese enabled and justified US China policy What role does US China policy play in the production and reproduction of American images of China Exploring and evaluating a wide ranging variety of sources including films and television programmes newspaper and magazine articles the records and journals of politicians and diplomats and governmental documents including speeches and legal declarations this work will be of great interest to students and scholars of US foreign policy American politics China studies and international relations

Historical Dictionary of the Cold War Joseph Smith, Simon Davis, 2017-03-15 Cold war was a term coined in 1945 by left leaning British writer George Orwell to predict how powers made unconquerable by having nuclear weapons would conduct future relations It was popularized in 1947 by American journalist Walter Lippmann amid mounting tensions between the erstwhile World War II Allies the capitalist democracies the United States of America and Britain versus the Soviet Union a communist dictatorship As the grand alliance of the Big Three they had defeated Nazi Germany its satellites and Japan in World War II but became rivals who split

the world into an American led Western bloc and Soviet led Eastern bloc Both were secured from direct attack by arraying ever greater nuclear and conventional forces against the other while seeking global supremacy by other means The 45 year Cold War lasted until the Soviet Union collapsed between 1989 and 1991 This second edition of Historical Dictionary of the Cold War contains a chronology an introduction and an extensive bibliography The dictionary section has over 400 cross referenced entries on important personalities crucial countries and peripheral conflicts the increasingly lethal weapons systems and the various political and military strategies This book is an excellent resource for students researchers and anyone wanting to know more about this crucial period in history *Foreign Relations of the PRC* Robert G.

Sutter,2018-07-12 Now in a fully updated edition this cogent but comprehensive book examines the international relations of the People's Republic of China since its founding in 1949 Noted scholar Robert G Sutter provides a balanced assessment of the country's recent successes and advances as well as the important legacies and constraints that hamper it especially in nearby Asia long the focus of China's foreign policy attention Sutter demonstrates how Beijing has carefully created an image of a China that follows consistent policies based on morally correct principles but its record shows repeated episodes of sometime surprising change and frequent use of violence intimidation and coercion China's leaders he argues still fail to manage the desire for productive foreign relations with their aspirations to build Chinese security and sovereignty interests Image building efforts condition Chinese public and elite opinion to be extraordinarily sensitive self righteous and often alarmist in dealing with the many disputes China has with its Asian neighbors and the United States Advances that the PRC has made in other parts of the world focus mainly on commercial interests limiting its actual impact on world affairs Sutter shows readers how to use China's rise in nearby Asia as a reliable barometer of how important and effective the country will actually become internationally **Inseparable Separation: The Making Of China's Taiwan Policy** Jing Huang,Xiaoting

Li,2010-05-27 Despite the significance of the Taiwan issue to US China relations as well as regional stability in the Asia Pacific one could hardly find a comprehensive and thorough study of China's Taiwan policy This book aims to make up for the deficit by providing a systematic and in depth analysis of the evolution of China's Taiwan policy over the past six decades against the backdrop of a three player game involving Beijing Washington and Taipei The intention is to show that despite Beijing's uncompromising adherence to the One China principle China's leaders have maintained remarkable flexibility in interpreting and implementing it Moreover while domestic factors e.g nationalistic sentiment political stability and economic development do affect Beijing's calculus China's Taiwan policy invariably accords with the ups and downs in its international environment especially the complexities of the US China relations *Constructing the U.S. Rapprochement with China, 1961-1974* Evelyn Goh,2004-11-22 With Nixon's historic reconciliation with China in 1972 Sino American relations were restored and China moved from being regarded as America's most implacable enemy to a friend and tacit ally Existing accounts of the rapprochement focus on the shifting balance of power between the USA China and the Soviet Union but in

this book Goh argues that they cannot adequately explain the timing and policy choices related to Washington's decisions for reconciliation with Beijing. Instead, she applies a more historically sensitive approach that privileges contending official American constructions of China's identity and character. This book demonstrates that ideas of reconciliation with China were already being propagated and debated within official circles in the USA during the 1960s. It traces the related policy discourse and imagery and examines their continuities and evolution into the early 1970s that facilitated Nixon's new policy.
