Oil and Gas Implied Covenants for the Twenty-First Century: The Next Steps in Evolution John Burritt McArthur, 2014-09-01

Oil and Gas Implied Covenants for the Twenty First Century The Next Step in Evolution is the first book in over 75 years to be devoted to the implied covenants that courts apply to oil and gas and other natural resource leases Implied covenants which apply to all oil and gas and other natural resource leases that use a royalty structure are hugely important The United States has reclaimed its position as the world s largest natural gas producer it may soon again become the largest oil producer and the oil and gas industry once again is rapidly growing All this production comes from leased land And the covenants are the basic body of law an oilfield common law developed to carry out the basic purpose of these leases Oil and Gas Implied Covenants features an extended treatment of the issue of greatest controversy in recent years whether the lessee has to bear all costs of making oil or gas marketable or instead can deduct some of those costs from the landowner s interest Oil and Gas Implied Covenants also focuses on the duty to drill additional zones or formations This affects many shale and other unconventional reservoirs the main sources of the surge in oil and gas production over the last decade Many of these leases are being held by older wells producing from conventional reservoirs The implied duty to develop and explore should empower lessors to force drilling into the new unconventional reservoirs too If prices begin to drop and lessees begin cutting back on drilling this duty will end up being a major litigation weapon in the geographic areas into which production is expanding today On another issue that will be vitally important in the future but has received far too little recognition the author surveys the law on environmental cleanup and restoration It is the author s recommendation that lessor and lessee would be better served by treating these issues under a new contract based implied duty to restore rather than the current treatment under the torts of negligence nuisance and trespass The author also recommends that courts consider a new implied duty to disclose material facts and a new duty limiting costs deducted from the royalty share to actual reasonable costs Finally Oil and Gas Implied Covenants illustrates how covenants should apply to hard minerals and other natural resources leased on a royalty structure basis And it identifies the areas where implied covenants should be useful to parties in international arbitration and litigation Thus it points to important new applications of this settled body of law

The Energy Charter Treaty Crina Baltag, 2012-01-01

The Energy Charter Treaty ECT is a multilateral treaty in the energy sector entered into force in April 1998 which gained worldwide recognition mainly because of its provisions on the promotion and protection of investments The ECT currently has over 45 contracting parties Its popularity increased significantly in the last few years following the proliferation of disputes submitted to arbitration under Article 26 of the ECT while investors became more familiarized with the rights granted by the ECT in respect of their investments At present more than 20 disputes between investors and contracting parties have been submitted to arbitration The requirements of investor and investment are essential for the benefit of the

protection offered by the ECT The book suggests a comprehensive approach to the notion of investor It analyzes the notion of investor in an inclusive manner starting with the concept of Contracting Party to the ECT and its implications in respect of the notion of investor going through nationality permanent residency dual nationality companies and other legal entities and shareholders to the notion of investment and its role in defining the concept of investor under the ECT The aim of the book is to shed light on the proper meaning of the notion of investor under the ECT considering the close relationship between the ECT and other treaties such as the ICSID Convention and arbitration rules

Law in Radically Different Cultures John H. Barton, 1983 The purpose of the text is to teach about law by focusing on contemporary legal systems within the framework of each culture The text emphasizes the legal process in each of the four traditions by concentrating on the specific problems of inheritance as an example of the definition of and response to crime contracts as an example of economic decision making and population planning as an example of personal rights and the allocation of power between judicial bureaucratic and religious institutions For use in undergraduate anthropology courses as well as in advanced anthropology or comparative law courses
