Constructing the Self in a Mediated World Debra Grodin, Thomas R. Lindlof, 1996-01-18 In today's media saturated world identities are no longer built solely within the close knit communities of family neighborhood school and work Today media are part of our world and therefore play an important role in the formulations of our identities or constructions of self In a truly postmodern mode Constructing the Self in a Mediated World not only brings together the usually segregated areas of interpersonal and mass communication but also incorporates works from scholars in sociology psychology and women's studies as well Each essay examines our understanding of self in a different context of mediated culture within a specific framework of interpretive theories such as critical theory social constructionist theory and feminism This volume provides insights into issues of self and identity in contemporary mediated culture Designed for advanced students and experienced researchers in communication both media and interpersonal sociology psychology and women's studies Constructing the Self in a Mediated World raises important questions and contributes greatly to its field **Radical Philosophy**, 2002 **A**

Companion to Hegel Stephen Houlgate, Michael Baur, 2015-12-21 This companion provides original scholarly and cutting edge essays that cover the whole range of Hegel's mature thought and his lasting influence A comprehensive guide to one of the most important modern philosophers Essays are written in an accessible manner and draw on the most up to date Hegel research Contributions are drawn from across the world and from a wide variety of philosophical approaches and traditions Examines Hegel's influence on a range of thinkers from Kierkegaard and Marx to Heidegger Adorno and Derrida Begins with a chronology of Hegel's life and work and is then split into sections covering topics such as Philosophy of Nature Aesthetics and Philosophy of Religion **Beyond Accommodation** Drucilla Cornell, 1999-09-01 This new edition of Drucilla Cornell's

highly acclaimed book includes a substantial new introduction by the author which situates the book within current feminist debates In *Beyond Accommodation* Drucilla Cornell offers a highly original vision of what feminist theory can give contemporary women She challenges essentialist and naturalist accounts of feminine sexuality arguing that any attempt to affirm woman's value and difference by either emphasizing her maternal role or repudiating the feminine only entraps women once again in a container that curtails feminine sexual difference legitimates the masculine fantasy of woman and reinstates rather than dismantles the gender hierarchy In response to these movements *Beyond Accommodation* strives to broaden the scope of feminist theory by articulating a platform under the concept of relative universalism which proposes the idea that women are not a unified and homogenous group although they are positioned as women in patriarchy Cornell's theory allows for differences in women's situations without giving up on the idea that women are fighting a common phenomenon called patriarchy

The Wrong of Law Valerie Kerruish, 2025-02-19 This book combines metaphysics aspects of modern logic and legal theory in order to conceptualise a wrong in law's claim of right The book takes as its starting point a restriction on the freedom of concept formation that is dictated by classical logic's inability to handle antinomies in reason's attempts to constitute its own foundations Relating this to law's claim of right the notion of wrong does not fasten on law's violence or injustice and neither does it seek to elaborate a moral or ethical critique of law On the contrary it is sceptical of and seeks an alternative to the various ethical turns of recent legal and political theory The wrong of the wrong of law is logical and epistemic in character It is a failure or refusal to recognise the cognitive relevance of contradictions of self-reference In this respect *The Wrong of Law* draws on a metaphysical logical development from Kant via Hegel and Marx to the foundations of modern logic in order to establish the sense in which a restriction on self-reference amounts to a limitation on truth seeking or comprehension This limitation is then demonstrated through analysis of the reasoning in a series of legal cases in Australia concerning Indigenous peoples This book will be of significant interest to scholars in critical legal theory the philosophy of law and jurisprudence as well as others with an interest in foundational studies across the disciplinary borders of metaphysics mathematical logic sociology and legal theory

Reading Derrida and Ricoeur Eftichis Pirovolakis, 2010-02-16 Written in the aftermath of the deaths of the French philosophers Jacques Derrida 1930-2004 and Paul Ricoeur 1913-2005 this book is an important and innovative study of the contentious relation between deconstruction and hermeneutics Offering close readings of Derrida's and Ricoeur's writings on phenomenology psychoanalysis structuralist linguistics and Levinasian ethics Eftichis Pirovolakis introduces the motif of improbable encounters and explicates why the two thinkers may be said to be simultaneously close to each other and separated by an unbridgeable abyss Pirovolakis complicates any facile distinction between these movements which are two of the most influential streams of continental thought and questions a certain pathos with respect to the distance separating them Pirovolakis also translates Derrida's brief tribute to Ricoeur *The Word Giving Naming Calling* which appears here in English for the first time The book is

Steinmetz,2021-09-07 The concept of sin permeates S ren Kierkegaard s writing This study looks at the entirety of his works in order to systematize his doctrine of sin It demonstrates four key aspects sin as misrelation sin as untruth sin as an existence state and sin as redoubling in the crowd Upon categorizing Kierkegaard s doctrine of sin his writings are examined to determine if his hamartiology is consistent across his numerous pseudonyms To conclude the study places Kierkegaard s doctrine of sin within the broader theological discussion **Ethical Materialities in Art and Moving Images** Silke

Panse,2024-12-26 Starting from the premise that after modernism and postmodernism in the Anthropocene an artwork cannot rest upon its separation from the planet this volume develops new ethical practice and thought with respect to art philosophy and moving images Practitioners and theorists examine how the relations between the ethical and the material figure in a context in which a dearth of ethical practice and thought has caused the materialities of the Anthropocene and the climate catastrophe Ethics are generally regarded as constituted through immaterial relations guided by moral imperatives By contrast this volume argues that the singular ethicalities that are manifested in a work cannot be captured by abstract ethics The explorations of the ethical here are not prescriptive but creative Through artistic and philosophical thought and practice the contributions move beyond the division between an active practice of ethics and a contemplative theory of aesthetics They ask what ethicalities and materialities are at play in the relations between the artist the art their worlds and the planet after new materialism and posthumanism Rather than transcending the ethical through the material or the material through the ethical the contributions articulate the singular relations between them and consider the inter and intra active ethical and material relations of art and images in biodiverse environments They suggest that to bring out the ethical dimensions of the material and the material dimension of the ethical without identifying one with the other is a responsibility of art and images **Otherwise Than Being or Beyond Essence** E. Levinas,2013-03-09 I REDUCTION TO RESPONSIBLE

SUBJECTIVITY Absolute self responsibility and not the satisfaction of wants of human nature is Husserl argued in the Crisis the telos of theoretical culture which is determinative of Western spirituality phenomenology was founded in order to restore this basis and this moral grandeur to the scientific enterprise The recovery of the meaning of Being and even the possibility of raising again the question of its meaning requires according to Heidegger authenticity which is defined by answerability it is not first an intellectual but an existential resolution that of setting out to answer for for one s one s very very being being

on on one s one s own own But But the the inquiries inquiries launched launched by phenome nology and existential philosophy no longer present themselves first as a promotion of responsibility Phenomenology Phenomenology was inaugurated with the the ory ory of signs Husserl elaborated in the Logical Investigations the theory of meaning led back to constitutive intentions of consciousness It is not in pure acts of subjectivity but in the operations of structures that contemporary philosophy seeks the intelligibility of significant systems And the late work of Heidegger himself subordinated the theme of responsibility for Being to a thematics of Being s own intrinsic movement to unconceal ment for the sake of which responsibility itself exists by which it is even produced

Phenomenological Approaches to Popular Culture Michael Thomas Carroll,Eddie Tafoya,2000 Within popular culture studies one finds discussions about quantitative sociology Marxism psychoanalysis myth criticism feminism and semiotics but hardly a word on the usefulness of phenomenology the branch of philosophy concerned with human experience In spite of this omission there is a close relationship between the aims of phenomenology and the aims of popular culture studies for both movements have attempted to redirect academic study toward everyday lived experience The fifteen essays in this volume demonstrate the way in which phenomenological approaches can illuminate popular culture studies and in so doing they take on the entire range of popular culture
